

WE'VE GOT 'EM ON THE RUN.

KEARNEY is talking of a cotton palace for next year.

REPUBLICAN primaries next Saturday. Remember the date.

EVERY republican should attend the primary in his ward Saturday.

'KEEP IN THE MIDDLE OF THE TRACK.' Better make a snook for the woods—Ohio, Pennsylvania and New York.

EACH day without frost is benefiting the Kansas farmers to as great an extent as Peffer's talking is harming them.

THE farmers are too busy gathering their crops over in Kansas to heed or believe the calamity shriekers this year.

THE Cleveland Plain Dealer asks: "Major McKinley, why are you trying to dodge a discussion of the McKinley tariff?"

Now isn't that nerve! Dodge! With Campbell too sick to come to time, and not a foe man worthy the steel of protection's gallant champion within shouting distance! Dodge! Discuss! Where in thunder are your discussers?—Inter-Ocean.

If we pass the proposed free-coinage law, granting to the silver bugs 40 cents for 50 cents worth of silver why not bestow upon the copper men the same favor. As the law now stands our government buys all the silver produced in the United States at the market price, but it retains this bonus for seigniorage. Rather than buy all foreign product at 20 cents above the market price better purchase from our own people every possible substance that can well be converted into money, thus favoring our own people, if any class of legislation at all is granted.

In addition to cheapening the article to the consumer, the advocates of protection assert that it will furnish additional incentive to discovery, thus paving the way for more effective work with the expenditure of less energy. Each of these claims has been verified time and again. In regard to the latter claim the following clipping from the Toledo Blade is the latest: "Yankee ingenuity is proverbial. Already we are beginning to improve on English methods in the manufacture of tin plate. For centuries the English tin makers have used tallow largely as one step of the process. An American manufacturer has found that cottonseed oil is preferable in many respects to tallow. Cottonseed oil is cheaper, and its use in the tin industry now growing up in this country will make an additional market for this important southern product."

THE Journal grows frantic and strikes viciously at THE HERALD, for giving credence to the statement as circulated in the great eastern dailies in regard to the probable contribution the Cobden club would make toward the defeat of McKinley. Evidently the shoe pinches the toe of our brother, but we wish to remind him that there will be others fully as hard to "fit" before the close of the campaign of '92. Yes, it is reasonable that the great English monopolists were interested in the downfall of the great apostle of Protection and consequently we may safely reason that they would contribute liberally to that end. Yes, we are "damphool" enough as the "Inter-Ocean" and Globe Democrat to give credence to a letter published by Mr Dudley to the effect that he attended the meeting and was eye-witness to the proceedings.

READERS of the Blade will remember how vigorously this paper disputed the assertions of the free traders that the new tariff law would restrict our foreign trade. Some of the free trade organs took occasion to abuse us for this, and to declare that our position was incorrect when we said that the foreign buyer bought where he could buy cheapest of the goods he desired, and that our exports would sell, irrespective of what duties might be levied on imports. The proof of the soundness of our position is shown by the official report of the Statistical Bureau of the Treasury department. During the seven months ending August 1, the exports of the United States gained \$36,000,000 over those of the corresponding seven months of the year 1890, while our imports gained \$10,000,000 over our imports for the same period. We refer to the fact not in a spirit of vain glorious boasting, but merely to show that the Blade's position is sound on the tariff question.—Toledo Blade.

Owing principally to the immense amount of snow in the mountains of Colorado this year, the water thus furnished for the gold placers and silver deposits will be utilized to a greater extent than ever before.

SOUTH PARK

Continues to Offer the Opportunity for Investment.

No Excuse for not having a Home of Your Own.

Put What you are paying out for Rent into a home.

7 per cent money for persons wishing to build in South Park.

Look to the Future and invest now in South Park.

THE OPPORTUNITY OF A LIFE TIME.

Among other reasons why it is better to invest in South Park than elsewhere in the city, are these: Property is more saleable if you wish to sell, more rentable if you wish to rent; if looking for an increase in value, no other part of the city will compare with it in prospect.

The 5th ward composed largely of South Park, less than three years ago could hardly muster up a vote at the last general election the vote was 130 and all were not polled. It has been less than two years since the city invited us into the corporate limits, yet we have over one hundred newly built houses and others in process of construction, owned, with few exceptions, by the parties now living in them.

This part of the city has a store water mains, electric arc lights, church and school privileges and a new church edifice just erected of which the whole city is proud.

Plattsmouth's steady growth for five years past almost doubling its population; the advance stand it has taken regarding public improvements, the certainty of a new \$50,000 court house; the completion of the great Missouri Pacific railway into this city, giving us another great trunk line and competing market; the constant increasing pay roll of the C. B. & Q. shops, together with many other well known reasons, assure a steady and permanent advance in realty, which will doubtless effect South Park more favorably than any other portion of Plattsmouth.

With a view to the encouragement of a still greater growth of this part of the city, we will continue to sell lots on monthly payments, furnish money with which to erect houses will exchange lots for other improved city property or for desirable improved or unimproved lands.

It is not so much the speculator as the permanent resident that we wish to purchase this desirable property. Out of over EIGHTY present owners of South Park property none are speculators hence there are no fictitious values and lots are selling at about the price they were immediately after it was platted—a strong argument why the present is a most desirable time for investments. Much additional information regarding South Park may be had by calling at my office on Main street over Bank of Cass County.
