SATURDAY, SEPT. 12, 1891.

REPUBLICAN STATE CONVENTION.

The republican electors of the state of Nebraska are requested to send delegates from their several counties, to meet in convention in the city of Lincoln, Thursday, September 24, 1891, at 10 o'clock a. m.

THE APPOINTMENT

The several counties are entitled to representation as follows, being based upon the vote cast for Hon. Geo. H. B. Kings, for attorney-general in 1888, giving one delegate-at-large to each county, and one for each 10 votes and the major fraction thereof.

Table with 3 columns: COUNTY, DEL., and DEL. listing various counties and their respective delegates.

*No vote returned. It is recommended that no proxies be admitted to the convention, and that the delegates present be authorized to cast the full vote of the delegation.

It is further recommended that the state central committee select the temporary organization of the convention.

JOHN C. WATSON, Chairman. WALT M. SEELY, Secretary.

THE COUNTY CONVENTION.

The county convention is called for September 19th, 1891 at Louisville.

The primaries are to be held on the 12th day of September.

The basis of representation is based on the vote cast for attorney general at the last state election, one delegate for every 14teen votes and major fraction thereof, and one at large from each ward and precinct.

Liberty and Rock Bluffs precinct was given their usual vote as no fair basis of appointment could be had on the division.

Below will be found the place and time of holding the primaries and number of delegates entitled to representation.

Table with 3 columns: PRECINCT, TIME AND PLACE, and DEL. listing various precincts and their delegates.

Plattsmouth City primaries ordered to be open at 12 o'clock m and continue open until 7 p. m.

Quilting and piecing, comforting and crazy patch work and carpet rag sewing satisfactorily done by Mrs. Vroman, 513 North Sixth street, Plattsmouth, Neb.

New Goods arriving every day at JOSS the one price clothier.

THAT RECORD

The Journal of yesterday says: "The records show that America has 31,000 millionaires. Prior to 1880 one could count them on his fingers."

We shall presume that the Journal is not speaking at random this time, but is quoting from authentic sources, even though the editor does not designate his authority.

THE HERALD infers from the first statement that the Journal would charge the republican party with creating millionaires, but he does not proceed to show wherein the mistakes have been made.

THE primaries remain open until 7 p. m. ATTEND the primaries to-day.

But we are informed that prior to 1880 there were no millionaires. Supposing that there was not a single one. We wish to remind our friend that the resources of this country has practically been developed since then, hence men had not then had the opportunity of becoming wealthy as they have since.

First, we refer, briefly, to the wide spread financial panic caused by the democratic opposition to the U. S. bank. During Van Buren's administration, as recorded, by all historians, money matters were never in a more unstable condition, nor business failures more frequent.

We find in perusing the pages of history that revenue tariff enacted in 1846—such as the reformers now propose to establish—closed our industries, threw thousands of our laborers out of employment, and created monopolists in Great Britain. In proof of the first clause of our assertion we quote from President Buchanan's message communicated to congress: "With unsurpassed plenty in all the elements of national wealth, our manufacturers are retarded, our private enterprises of different kinds are abandoned and thousands of useful laborers are thrown out of employment and reduced to want."

The result of this democratic legislation was that England forced our manufacturers to shut down, our laborers began farming because they could fare better than when laboring on a par with European workmen, and our consumers were rendered dependent upon Great Britain. She forced the prices of her commodities as high as possible, and not until the country called the republican party to its rescue did the people prosper.

We submit this portion of the record of that organization prior to 1880 to our readers and for our brother's consideration, begging leave to refrain from discussing that portion which should bring a blush of shame to every patriotic member of the party.

Concerning the charge as to the tramps and the 300,000 men without employment, we cannot conceive as to how the conscience of the author will allow such a statement, as there is not one iota of foundation for the assertion. The republican party points with pride to the fact that its great aim and its great work has been to provide employment for our laborers at remunerative wages. The Journal is aware of this and it knows also that the tramps we have to-day could find employment if they so desired, and we venture the opinion that they, in a majority of cases, were rendered so by their own dissipated habits.

THE HERALD recently copied an article from the Nebraska City Press, relative to the judiciousness of this district, and the Journal came out and thought THE HERALD was granting too much to our Nebraska City contemporary.

The article contained nothing but an intelligent opinion concerning a matter in which our people are vitally interested.

We reproduced the article, in courtesy to Mr. Chapman and in order to reflect the sentiment of Otoe county in the matter. The opinion of the representative paper of the county is certainly of interest to an intelligent and thinking public that will be called upon to choose as its candidate a man upon whom the members of the party of the different sections can unite.

In regard to the pre-empted right of which the Journal speaks, we wish to say that Judge Chapman has none, except that which comes from ability, eminent fitness and evidence of satisfactory services rendered on the bench.

BROTHER ROSEWATER'S hired men have begun to belch forth their vituperation against Judge Cobb. It will be remembered that Judge Cobb ousted Rosewater's pet from the gubernatorial chair. That explains the cause. It is about time the republican party set down on men of Rosewater's ilk.—Nebraska City Press.

THE primaries remain open until 7 p. m. ATTEND the primaries to-day.

Peculiar Reccess in English Churches.

There is an item that is rarely met with that would be, probably, a puzzle to most persons who looked at it without a key of explanation as to its use. This is a tall, long, narrow recess in the wall, low down toward the ground, near the altar. It is supposed to be intended for the reception of a professional staff, too long to be placed with other treasures in the ambrey or elsewhere.

There are at least three churches, too, that have a peculiar niche or recess, partaking somewhat of the character of two piscinas, one above the other, the meaning of which has also passed out of knowledge. These churches are at Southwick, in Sussex, and Burston and Blitchingley, in Surrey.—Gentleman's Magazine.

Life Made Comfortable.

Boren—Still living in Jersey, eh? Hustler—Yes; I have no thought of coming back to the city.

Boren—But it must be very inconvenient, forty minutes by train and fifteen by boat every day, and you've got to catch both right on the minute.

Hustler—That's what I like about it. You see when people buttonhole me and get to talking, all I have to do is to jerk out my watch, mutter something about train time, and I get away without giving offense. See?

Boren—Ha, ha! That's good. That reminds me of a little thing Saphrod was telling last— Hustler—By the way, it's train time now. Tatal—New York Weekly.

Ice Melting Away.

Residents of the city of Brewer are enjoying lots of cold comfort these hot days. Several icehouses that were put up on speculation failed to bring fortunes, or even any cash, to their owners, and have been torn down or allowed to tumble to pieces. The ice has been left to melt in the sun or to be carried away by any one who has wanted it, and many have availed themselves of the privilege.—Lewiston (Me.) Journal.

Weather Prophets of '91.

City Miss (in the country)—Is it going to rain today? Modern Farmer—Don't know, miss. The morning papers haven't got here yet.—New York Weekly.

How to Raise a Church Debt.

A novel plan for extinguishing a church debt has been hit upon in Melbourne, Australia. The church committee—or vestry, as the case may be—divide the total debt among themselves, and each man insures his life for the amount that falls to his share. The policies are transferred to the church and the annual payments on them are made out of the collections. Then, of course, as the members of the committee "drop off," the sums insured on their lives drop in, and later, when the only survivor dies, the last installment of the church debt is paid.—Fall Mail Gazette.

Many Orders Ahean.

Mr. Slowpay (silly)—I wish to get measured for a suit of clothes, but it will be about three weeks before I can pay for them, as our pay day comes only once a month now. How soon can you have them done? Tailor—I'm—let me see. In about three weeks.—Good News.

Cement Stronger Than Stone.

From a number of careful tests made to ascertain the precise strength of anchor bolts set in Portland cement in the ordinary way, the fact appeared that the joint was really stronger than the stone. In this demonstration 2-inch iron rods were set into the stones some 11 1/2 inches, and then subjected to the test. The first rod had a screw thread to improve the grip of the cement, and the cement began to yield at a load of 34,000 pounds, the breaking of the stone taking place at 50,000 pounds. With a plain, smooth rod it was found that the cement began to yield at a load of 34,000 pounds, but the rock broke at 67,000 pounds. Thus, though the strength of the cement joint was not developed, it was inferred that, in a suitable setting, the cement joint on a smooth rod might be made to break the rod.—New York Sun.

SOUTH PARK

Continues to Offer the Opportunity for Investment.

No Excuse for not having a Home of Your Own.

Put What you are paying out for Rent into a home.

7 per cent money for persons wishing to build in South Park.

Look to the Future and invest now in South Park.

THE OPPORTUNITY OF A LIFE TIME.

Among other reasons why it is better to invest in South Park than elsewhere in the city, are these:

Property is more saleable if you wish to sell, more rentable if you wish to rent; if looking for an increase in value, no other part of the city will compare with it in prospect.

The 5th ward composed largely of South Park, less than three years ago could hardly muster up a vote at the last general election the vote was 130 and all were not polled. It has been less than two years since the city invited us into the corporate limits, yet we have over one hundred newly built houses and others in process of construction, owned, with few exceptions, by the parties now living in them.

This part of the city has a store water mains, electric arc lights, church and school priviledges and a new church edifice just erected of which the whole city is proud.

Plattsmouth's steady growth for five years past almost doubling its population; the advance stand it has taken regarding public improvements, the certainty of a new \$200,000 court house; the completion of the great Missouri Pacific railway into this city, giving us another great trunk line and competing market; the constant increasing pay roll of the C. B. & Q. shops, together with many other well known reasons, assure a steady and permanent advance in realty, which will doubtless effect South Park more favorably than any other portion of Plattsmouth.

With a view to the encouragement of a still greater growth of this part of the city, we will continue to sell lots on monthly payments, furnish money with which to erect houses, will exchange lots for other improved city property or for desirable improved or unimproved lands.

It is not so much the speculator as the permanent resident that we wish to purchase this desirable property. Out of over EIGHTY present owners of South Park property none are speculators hence there are no fictitious values and lots are selling at about the price they were immediately after it was platted—a strong argument why the present is a most desirable time for investments. Much additional information regarding South Park may be had by calling at my office on Main street over Bank of Cass County.
