For County Judge... For County Superintendent...

BLACKHOFF

GEO. EDSON.

County Clerk: FRANK DICKSON.

For County Judge: CALVIN RUSSELL.

For County Superintendent: J. E. LEYDA.

For Coroner: J. L. UNRUH.

For Surveyor: A. C. MAYES.

For Commissioner First District: S. W. DUTTON.

Now that Broady has declined, where will the democracy find a candidate to run against Judge Post?

FREE silver and free trade are the battle cries of the democracy.

THE republican theory is, that when the farmer sells his products for 100 he should be paid in money worth 100 cents.

THE republican party declares that the Union soldiers should be paid in a dollar worth 100 cents.

THE Banner, published at Athens, Ga., the official organ of the Alliance of that state speaks as follows concerning the third party movement in that state.

Sleepiness night made miserable by that terrible cough Shilohs remedy is the cure for you.

A Metropolitan Merchant. The boy was not more than 24 feet high.

An Abnormal Appetite. A native of Wittenberg on one occasion, after eating a sheep and a sucking pig.

The Two Meridians. The Geographical congress held in Switzerland recommended the universal adoption of the metric system.

Muddy Liverpool. Liverpool is rather a muddy place. The other day after a spell of wet weather a man walking along the pavement slipped a hat floating on the surface of the roadway.

Our contemporary proceeds to quote the democratic platform and applies it to the views entertained by Edgerton.

Gov. Boyd. If the democratic and independent parties are one on railroad control, why, Mr. Journalist, did not the democratic convention condemn Boyd's veto and approve the Newberry bill?

MORE MONEY—NOT FREE COINAGE. Nebraska democracy in demanding free and unlimited coinage of silver fell into the same blunder that is costing democratic many votes in Ohio.

The silver bullionaries purposely confuse these two ideas and use every device to secure the first by skillfully engraving it on the second.

As a matter of fact this country has no more to gain by the free and unlimited coinage of silver at 80 per cent of its market value than it has in authorizing the use of diamonds as money at 80 per cent of their worth.

What the people want and what the country needs is a larger supply of 100 cent dollars. It makes no difference whether they are made of gold, silver or paper, as long as they are worth 100 cents.

Free and unlimited silver coinage of 80 cent dollars might even result in contracting the currency by driving gold to hiding or export. Free and unlimited coinage of 100 cent dollars could not have this effect.

The World-Herald believes that the true sense of the popular demand of the day on the money question would be expressed in some such resolution as this:

Resolved, That we favor an increase in the supply of money and believe that this increase should be in 100 cent dollars of whatever material made, or on whatever credit issued, and should continue from year to year until an average circulation of not less than \$40 per person is attained, which should be within five years, or as soon thereafter as possible.

Such a proposition would not enable anyone to unload any material on the public at a profit of 20 per cent, but it would, if allowed out, force more money into circulation and improve the condition of the country.—World Herald.

Remarkable Rescue. Mrs. Michael Currah, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse.

Sleepiness night made miserable by that terrible cough Shilohs remedy is the cure for you, by F. G. Frick, and O. H. Snyder.

A Metropolitan Merchant. The boy was not more than 24 feet high. But he was intelligent and energetic, and he hawked his newspapers with a zeal that would have been creditable to a high proof drummer.

An Abnormal Appetite. A native of Wittenberg on one occasion, after eating a sheep and a sucking pig, ate by way of dessert sixty pounds of prunes without taking out the stones.

The Two Meridians. The Geographical congress held in Switzerland recommended the universal adoption of the metric system and also the Greenwich meridian for the reckoning of longitude and time.

Muddy Liverpool. Liverpool is rather a muddy place. The other day after a spell of wet weather a man walking along the pavement slipped a hat floating on the surface of the roadway.

Our contemporary proceeds to quote the democratic platform and applies it to the views entertained by Edgerton. Now it matters little what the democratic platform declares, in the face of their past record.

Made a Good Story. A good story was told me the other day by a Mexican gentleman, a close friend of the great general in his lifetime.

The next day the Mexican gentleman called again on Sheridan and found him at his desk, shoes on top as before.

"I beg your pardon, general, but how have I made you ridiculous?" "Why, sir," said Sheridan, still annoyed, "yesterday, sir, I went out to walk after you had called on me."

Butterflies That Bathe. It is commonly thought that a butterfly dreads the water as a fish dreads rain, but evidently this is not true in Australia.

Apparently the heat of the weather drove them down to the water, as immediately upon emerging they flew up again to the hillside.

Buried in Lace. Lace headresses, or what were called beads of lace, were very fashionable in England in the reigns of Mary and Anne.

Mrs. Oldfield, the celebrated actress, left instructions that she should be laid in her coffin arrayed in a very fine headress of Brussels lace.

A native of Wittenberg on one occasion, after eating a sheep and a sucking pig, ate by way of dessert sixty pounds of prunes without taking out the stones.

The Geographical congress held in Switzerland recommended the universal adoption of the metric system and also the Greenwich meridian for the reckoning of longitude and time.

Liverpool is rather a muddy place. The other day after a spell of wet weather a man walking along the pavement slipped a hat floating on the surface of the roadway.

SOUTH PARK

Continues to Offer the Opportunity for Investment.

No Excuse for not having a Home of Your Own.

Put What you are paying out for Rent into a home.

7 per cent money for persons wishing to build in South Park.

Look to the Future and invest now in South Park.

THE OPPORTUNITY OF A LIFE TIME.

Among other reasons why it is better to invest in South Park than elsewhere in the city, are these:

Property is more saleable if you wish to sell, more rentable if you wish to rent; if looking for an increase in value, no other part of the city will compare with it in prospect.

The 5th ward composed largely of South Park, less than three years ago could hardly muster up a vote at the last general election.

This part of the city has a store water mains, electric arc lights, church and school privileges and a new church edifice just erected of which the whole city is proud.

Plattsmouth's steady growth for five years past almost doubling its population; the advance stand it has taken regarding public improvements, the certainty of a new \$80,000 court house; the completion of the great Missouri Pacific railway into this city, giving us another great trunk line and competing market; the constant increasing pay roll of the C. B. & Q. shops, together with many other well known reasons, assure a steady and permanent advance in realty, which will doubtless effect South Park more favorably than any other portion of Plattsmouth.

With a view to the encouragement of a still greater growth of this part of the city, we will continue to sell lots on monthly payments, furnish money with which to erect houses, will exchange lots for other improved city property or for desirable improved or unimproved lands.

It is not so much the speculator as the permanent resident that we wish to purchase this desirable property. Out of over EIGHTY present owners of South Park property none are speculators hence there are no fictitious values and lots are selling at about the price they were immediately after it was platted—a strong argument why the present is a most desirable time for investments.

Such additional information regarding South Park may be had by calling at my office on Main street over Bank of Cass County.

R. B. WINDHAM

Advertisement for C. MAYES, CIVIL ENGINEER, OFFICE IN COURT HOUSE, Plattsmouth, Nebraska. Also mentions PIPARS, JULIUS PEPPERBERG, CHOICEST BRANDS OF CIGARS, TOBACCO AND SMOKE'S ARTICLES, BANKS, and NATIONAL BANK.
