THE REPUBLICAN PLATFORM.

The republican party of the state of Nebraska gives renewed expression of its devotion to the princi plea of the republican party and declares that those principles, as ex-pressed by the national republican convention, should be the strong point of union between all repub-licans in the state of Nebraska.

We congratulate the people upon state of Nebraska during its twenty four years of statehood under re-publican administration, and which has brought us to the front rank among the leading states of the union; and we can fearlessly assert that no state which has been con trolled by democratic power, during any considerable time of the same period, can compare with us in the economical management of public affairs, in the rapid ratio of increase in population, wealth and general prosperity, notwithstanding the fact that there are within the borders of the state a number of dissatisfied persons who took ad-vantage of the general financial de-pression which swept over the entemporary prominence by declaiming against the welfare of our prople and slandering the fair name of our state. The rains from heaven and the rich soil, vigorously cultivated by the energetic hands of our for communities; the boucht a battle and farmers, have produced such bount to her delight found herself benefited from the iful crops and such unrivaled prosperity that shall silence all calmu-ity talkers and add to the strength and enthusiasm of the republican

We congratulate President Harri-son upon his eminently wise, loyal and courageous administration, and declare our absolute confidence in his integrity, ability and patrio-tism, and pledge him our cordial support in the discharge of the duties devolving upon him as the chief magistrate of the nation.

We rejoice in the restoration of dignity, vigor and statesmanship in the conduct of our foreign affairs under the guiding hand of Amer-ica's favorite son, James G. Blaine.

We approve of the silver coinage act of the present administration, by which the entire product of the silver mines of the United States is added to the currency of the people, but we denounce the democratic doctrine of free and unlimited coin age of silver as a financial policy liable to precipitate the people of every city and every state in the Union in a prolonged and disas-trous depression, and delay the re-vival of business enterprise and vival of business enterprise and prosperity so ardently desired shid now so apparently near. The free and unlimited coinage of allver would tend to the hoarding of gold and to force the use of chesp money in the payment of wages in every workshop, mill, factory, store and farm, and tend to the scaling down of the wages of the toilers and weakening the purchasing power of weakening the purchasing power of the dollar which yould be used to purchase the products of the farmer. We are in favor of the farmer.

We are in favor of having every dollar as good as any other dollar. We demand the maintenance of the American system of protection to American industry and labor, the policy that has been identified with every period of our national pros-

We admire the genius of that heroic stritesman, William McKin-ley, Jr., whom the people of Ohio will make their next governor as a will make their next governor as a recognition of his magnificent services to the country. We also commend and endorse that policy of reciprocity by which the Central and South American nations and the Spanish Indies are being opened up to our trade upon favorable terms and by which all the surplus producis of our country may find a market and by which all our people shall receive in exchange therefore market and by which all our people shall receive in exchange therefore a long line of products which do not produce valuous competition which do not produce valuous competition.

general promise of the commerce act, and we do regulation of all railway a portation lines in such a ma insure fair and reasonals to the producers and consun

the country.

We favor such legislation as prevent all illegal comby, and unjust exactions by ag capital and corporate py insist upon the suppre-trusts, combines and

trusts, combines and designed to artificially to the perce of the necessary.

We regard the world's oluminan exposition as an important event in the world's history, and we are in hearty sympathy with every effort to make it a success. We should make a creditable exhibit of Nebraska's products, and we favor as a udditional appropriation by the next legislature for this purpose, that our prosperity and greatness may be fully exemplified. We take pride in this state We recognize that its growth and power, its prosperity and good name have been the fruits of its industrial people, and we believe in such policies, state and nat onal, as will promote justice and widen the opportunities among these classes. To their support in the fature, as in the past, we pledge our most intelligent judgment and most sincere endeavor.

We demanate the Grand Island of the democratic party as

We den nance the Grand Island platform of the democratic party as framed with the deliberate purpose framed with the deliberate purpose to mislead and deceive; wherein sympathy is expressed where none is felt; wherein help is proposed where none is rendered; wherein purposes are avowed which are not entertained. In support of this indictment we point to the pretended friendship for the soldier, while at the same time the democratic party has always proclaimed against the granting of liberal pensions; to the free silver pank intended to deceive the supporters of free and unlimited coinage of silver, when it is the supporters of free and unimited coinage of silver, when it is known that many of the leaders of the party are opposed to the doctrine; to the failure to give the relief from exhorbitant freight rates while it was afraid to either approve or censure the action of its acting alien governor for vetoing acting alien governor for vetoing the Newberry bill.

We denounce the democratic party for its insinuations against the integrity of the supreme court of the state as an effort to make the judicial powers subordinate to political parties and as disgraceful to a political organization,

the civil and political rights of the people, wherein it appears to favor free and untrammeled elections in the state of Nebraska, but never the marvelous prosperity attending raises its voice nguinst the political the development and growth of the outrages practiced against the restate of Nebraska during its twenty, four years of statehood under re-throughout the democratic states of

We arraign the democratic party ns the enemy of labor, scheming to break down the defense of protective laws, to block the wheels of proved true. The ex-king's dress was a ome industry, and to degrade the masses of the people a party con-trolled by aristocratic and sectional

tendencies, the legacy of slavery. The republican party of Nebraska appears to the intelligence and to the integrity of the people of this state and from all good citizens we invite support.

The papers contain frequent no-tices of rich, pretty and educated girls eloping with negroes, tramps and coachmen. The well-known specialist, Dr. Franklin Miles, says all such girls are more or less hysterical, nervous, very impulsive, un-balanced; usually subject to nead-ache, neuralgia, sleeplessness, immoderate crying or laughing. These show a weak, nervous system for which there is no remedy equal to Restorative Nervine. Trial bottles and a fine book, containing many marvelous cures, free at F. G. We want every mether to know that croup can be prevented. True croup never apper without a warning. The first symptoms is hoarness; then the child appears to have taken cold or a cold may have accompanied the hoarness from the start. After that a peculiar rough cough is developed, which is followed by the croup. The time to act is when the child first becomes hoarse; a few does of Chamberlain & Co. Druggist.

ys "just out" of Nof the post Lowell. alidiam of Whitman of Whittier have led a late to lament the decay

a postry These great man-drart, we are told, will have from the standpoint of their condisputaries, hever leave thy successors behind. This is due to the fact that a great man is not visible until he has recoded to a great distance. He is usually measured pretty accurately after he is dead. After Washington, Hamilton, Jay and Jefferson died the lament was raised that the age of statesmen had passed. The great heroic figures of our history had passed off the stage of action and left no successors. This lament was raised, too, when Webster, Clay, Calboun and Jackson were in the full flugh

of their remarkable powers. After these great men had left the stage of action the lament was again raised that the age of great men had passed. To be sure, the presidential chair was occupied by pu awkward backwoodsman from Illinois. But Lincoln was called a vulgar story teller, an irresolute, vacillating, good n sured man, well meaning enough, but with no executive ability. Charles Sumner was in the United States senate, but he was called a visionary bookworm, full of fanatical theories, but possessing no practical statesmanship. Now we look back to the time of Lincoln and Samner and say, "There were giants on the earth in those days." So the world is always "just out" of great men, simply because it does not appreciate a good thing when it sees it-or it must see a good thing a long while before it can properly estimate its qualities.-Yankee

The Last Days of King Ja Ja.

A tourist, who has just returned from the Canary lelands, had an interview with King Ja Ja a few days before his death. The exiled king was at that time staying at a hotel in Santa Croz, and was in very low spirits, doubting whether he would over see his native land again, though he had made all the necessary arrangements for his departure. His journey was delayed by the British vice consul, who told him he must wait till the arrival of Major McDonald, the commissioner of the Oil rivers.

The coloural office had exacted from nim as a condition of his being allowed to return a promise to create no dis-turbunces. He was softering severely at the time from dy unitory, and being con-We denounce the democratic one than from dy substy, and being con-party for its double dealing with vissed that he was the victim of a conspirury against his life, he refused to take medicines, hiding himself on the roof or in the collar of the norel at the hour the doctor was expected. Three days before his douth he was to have gone to a village on the hills for change of air, but he refused to leave, saying "I no go. I had a dream from my fadder He say I be with him in tree day."

Why They Cheer.

It is not so often that the band which plays at the ocean promenade of Asbury Park treats the seaside pilgrims to the "Star Spangled Banner," but when it does the applanse is furious. Strangers are surprised at the outburst until they learn that it was this band which was on the United States ship Trenton when slie was driven ashore in the cyclone at Samea, and which struck up the na-tional authem in the moment of danger, eliciting cheers from the British frigate & Co's., who also sell and guarantee eliciting cheers from the British frigate Dr. Miles' celebrated New Heart that was drifting by. Look to the Future and invest now in South Park.

THE OPPORTUNITY OF A LIFE TIME.

Among other reasons why it is better to invest in South Park than elsewhere in the city, are these:

Property is more saleable if you wish to sell, more rentable if you wish to rent; if looking for an increase in value, so other part of the city will compare with it in prospect The 5th ward composed largely of South Park, less than three years ago could hardly muster up a vote at the last general election the vote was 130 and all were not polled. Ithas been less than two years since the city invited us into the corporate limits, yet we have over one huned to know that this presentiment dred newly built house and others in process of construction, owned. with few exceptions, by the parties now living in them.
