 Wash Roberts concluded she would send
 some of these preserves to these children,
 and also to give some to her friends, the
 Graveson. The preserves are in first

 would no doubt keep another quarter of
 a century. Wash Roberts has been for
 many years a regular citizen of Roche-
 port, while Jack Ray is somewhere in

Savages Slaughtering Deer.
 Game Warden Taylor came in recently
 from the lower country, where he has
 been kept busy driving the Indians out
 of that section. Mr. Taylor reports that
 the Utes have been playing and hav-
 ing with the game, slaughtering wherever
 they could. He was very indignant
 over it, and from his version of the mat-
 ter he has good reason to be. He states
 that from the Iron springs divide to Yellow
 creek it is impossible to travel a
 hundred yards without finding the bodies
 of deer lying around, and in most
 cases nothing but the hides and brains
 have been taken, the brains being used
 by the Indians in the process of tanning.
 On Blue mountain and in the Lilly park
 sections the rotting carcasses can be
 seen, while on Snake river they are so
 thick as to absolutely poison the air.
 Warden Taylor estimates that since
 the deer began to travel down the Utes
 have killed between 5,000 and 6,000 of
 them, and what makes matters worse
 the major portion of them are does and
 fawns, the bucks always remaining in
 the upper country till later in the fall.—

The Highest Railway in Europe.
 The opening of a new Alpine railway
 —the Brienzer Rothhornbahn—is an-
 nounced. It is the highest railway in
 the Alps and commands magnificent
 views. It is 2,851 meters (7,836 feet)
 high at the summit level, and ascends
 1,682 meters (5,500 feet), or sixty-seven
 meters (223 feet) higher than the Pilatus
 railway. The journey occupies an hour
 and a half. The gauge is 0.8 meter.
 The line is a pure rack and pinion rail-
 way on the Abt system, and is similar
 in construction to the Monte Generoso
 railway.
 The steepest gradient is one in four—
 that is, less than the maximum Pilatus
 ascent. The railway has been built in a
 remarkably short space of time; it was
 begun so recently as the 1st of October,
 1890. No fewer than ten tunnels were
 bored; numerous streamlets were
 bridged and heavy stone dams had to
 be erected.—Iron.

Warning Against Antipyrine.
 Let me say something about the in-
 ducinate use of antipyrine. I think it
 is a poison. Its use should be restricted
 like mandarin and morphine, and used
 only upon a physician's prescription. Peo-
 ple use it carelessly, not knowing that
 it is a heart depressant and cumulative
 in its action. Many persons come to me
 and say that they have been using ten
 grains every three or four hours, and
 without any idea of the harm it does. I
 came across two or three deaths last year
 directly due to its use. Too much cannot
 be said about the danger from its in-
 ducinate use.—Interview in Philadel-
 phia Press.

Mamma's Diaries.
 Little Girl—The teacher says I must
 get a diary, and write in it all I do every
 day. Will you buy me one, mamma?
 Mamma—There are plenty of them up
 stairs in the lower bureau drawer—fif-
 teen or twenty, I think.
 Little Girl—But isn't those ones writ-
 ten in?
 Mamma—Only the first pages of each.

As Brave as a Stump Orator.
 A rooster was put on the block at Han-
 ford the other day and his head was cut
 off, but when the plucker reached for
 him the ambitious fowl had walked off.
 The head was completely severed save a
 small portion of the base of the skull,
 but the bird could still hear and feel and
 even cry out. He lived for sixteen hours
 in that condition.—San Francisco Call.

A New Precious Stone.
 A hitherto unknown stone has been
 found in the mining district of Cande-
 laria, in Nevada. It is of a dark green
 color and takes on a very high polish,
 and is classed by the state geologist as
 "sarsicite." Several beautiful ornaments
 have been produced from it, but so far
 it has not been found in any consider-
 able quantity.—Retail Jeweler.

Twins Nine Times Without a Skip.
 Mr. John Miscall, who is one of the
 head bakers in James Reed & Sons'
 bakery, Norfolk, Va., has been made the
 proud possessor of the ninth consecutive
 pair of healthy and strong twins, a boy
 and a girl. Mrs. Miscall has never
 given birth to one child at a time.—Cor.

Thirteen Is Lucky.
 In Chicago a horse car, a red hot stove
 and thirteen passengers were struck by
 an engine. The car was reduced to
 kindling wood and took fire, but not a
 passenger was killed. And yet people
 will go right on insisting that thirteen
 is an unlucky number.—Indianapolis

The Leaning Tower at Saragossa.
 A committee appointed to report on
 the famous Torre Nuova in the Plaza
 San Felipe, in the capital of Aragon,
 has issued a pessimistic account. It is
 feared that this clock tower, a very fine
 example of the kind, will have to be
 pulled down. Excessive rains and floods
 have caused a subsidence of the soil and
 the structure is deemed unsafe. The
 construction of this torre inclinada was
 begun in the Fifteenth century, under
 the direction of two Spanish, two Moor-
 ish and one Jewish architect; it is
 octagonal in form, 300 feet high, 45
 in diameter, and leans about 10 feet out
 of the perpendicular. Stone steps, 260
 in number, lead inside to the top gallery.
 It has been stated that the leaning of
 the tower was due to the caprice of the
 architects, but an old crack in its side
 and a careful examination of the founda-
 tion led to the conclusion that it was
 want of care on the part of the builders.
 The Aragonese speak of the ancient
 crack as an old wound in its side, of
 which the Torre Nuova is now dying.
 This "old wound" was under treatment
 in the year 1890, but an unfortunate re-
 lapse threatens to result in an entire col-
 lapse.—Tablet.

Getting Rich Fast.
 Two young men near Los Angeles,
 Cal., are rapidly making a fortune slay-
 ing coyotes. Last April they were not
 worth fifty dollars, but now they have
 \$3,700 to their credit in bank and they
 are adding about \$150 a week to their
 deposit. They have fifty traps set, and
 with these and their rifles are rapidly
 thinning out the coyotes in Los Angeles
 and San Bernardino counties. At five
 dollars a scalp there is more money in
 hunting coyotes than in growing grain
 or fruit, but the business will probably
 come to an end when the next legisla-
 ture meets. The law which was passed
 as a joke has proved to be very costly
 pastime.—San Francisco Chronicle.

A Russian Doctor.
 A Russian journal reports an interest-
 ing case of a philanthropic physician.
 Visiting the patients of his districts, the
 doctor found that in many instances
 their sickness was caused by hunger.
 To the most needy he prescribed "six
 pounds of pure rye flour in doses of two
 pounds a day." He ordered his patient
 to get the medicine at the drug store of
 the nearest village, where it would be
 issued free of charge every day. The
 good doctor made arrangements with
 the druggist to supply the flour at his
 expense. In this way his patients will
 be kept from starvation the whole
 winter.

A Change in Electric Lights at Sea.
 A remarkable change is said to be
 about to take place in the manner of
 giving the warning light to mariners. In
 England electric lights experimentally
 turned vertically toward the sky have
 given extraordinary results. The light
 of the Eddystone lighthouse can be seen
 17½ miles on a clear night, but a vertical
 beam of light of far less power is visible
 twice as far and can surmount an ordi-
 nary fog.—Philadelphia Ledger.

The Queen's Reporter.
 The post of "queen's reporter" in par-
 liament is vacant by the elevation of
 Lord Lewisham to the upper house. It
 is said that Mr. Balfour will undertake
 the duties with his new office. Both
 Lord Palmerston and Mr. Gladstone,
 when they led the house, were queen's
 reporters.—London Tit-Bits.

East of the Mississippi.
 It is repeated very often that for the
 first time a Republican convention is to
 be held "west of the Mississippi river."
 It is not thus in this case. The Minne-
 apolis exposition building, where the
 convention will meet, is not on the west
 side, but is on the east side of the river.
 —Lancaster Examiner.

In St. Louis recently a large building
 in one of the best business streets of the
 city was torn down simply because it
 was thought to be "hoodooed," which
 shows that superstition still has a strong
 hold on some people.

A young man lost an eye the other
 night in Chicago by a jab from a needle-
 like weapon that projected from the hat
 of a young woman who was accidentally
 thrown against him.

Joseph Ranson, who died recently in
 Cincinnati leaving an estate amounting
 to \$6,000,000, was the largest holder of
 United States bonds in that city.

 JENNIE: "How is it, Kate, that you always seem to 'catch on' to the latest new thing? Do what I may, you always seem to get ahead of me."
 KATE: "I don't know; I certainly do not make any exertion in that direction."
 JENNIE: "Well, during the last few months, for example, you have taken up painting."

without any teacher; you came to the rescue when Miss Lafargo deserted her Disarte class so suddenly, and certainly we are all improving in grace under your instruction; I heard you telling Tommy James last evening how his club made mistakes in playing baseball; you seem to be up on all the latest 'fads,' and know just what to do under all circumstances; you entertain beautifully; and in the last month you have improved so in health, owing, you tell me, to your physical culture exercises. Where do you get all of your information from in this little out-of-the-way place?—for you never go to the city."
 KATE: "Why, Jennie, you will make me vain. I have only one source of information, but it is surprising how it meets all wants. I very seldom hear of anything new; what the next few days bring me full information on the subject. Magic? No! Magazine! And a great treasure it is to us all, for it really furnishes the reading for the whole household; father has given up his magazine that he has taken for years, as he says this one gives more and better information on the subjects of the day; and mother says that it is that that makes her such a famous housekeeper. In fact, we all agree that it is the only really FAMILY magazine published, as we have sent for samples of all of them, and find that one is all for men, another all for women, and another for children only, while this one suits every one of us; so we only need to take one instead of several, and that is where the economy comes in, for it is only \$2.00 a year. Perhaps you think I am too lavish in my praise; but I will let you see ours, or better still, send to come to the publisher, W. Jennings Demorest, 15 East 14th Street, New York, for a sample copy, and I shall always consider that I have done you a great favor; and may be you will be cutting us out, as you say we have the reputation of being the best informed family in town. If that be so, it is Demorest's Family Magazine that does it."
