THE rumor now comes from Mexico that Garza has begged for pardon from President Diaz, offering to betray his followers; also that several of his lieutenants are petitioning for pardon.

A MANIFESTO has been issued by the Russian Seemtoos, local administration bodies which are composed of country gentlemen and land owners, on the famine in Russia and the inadequacy of the government measures to afford relief. The manifesto declares calamity is only in its initial stage. Spring will disclose its actual proportions. How will it end? If the government does not change its attitude socially, in its state of bankruptcy, public embezzlement and dismemberment, Russia, in a popular uprising, will be deluged with her people's blood. No one can foresee the end.

THE government has a boat on hands now that she does not know what to do with. It is the Ohio, that she chartered as a transport in case of war with Chile, and as that affair is over, she has the large steamship on her hands for ninety days, at a cost of \$500 per day, which will amount to \$45,000 if the officers insist on full payment under the charter. It has been suggested that Secretary Tracy could utilize the Ohio in transporting to Russia the contributions of American people for the relief of the famine sufferers. The Ohio can carry 4,500 tons and in three months, the term of her charter, she could transport to Russia three or four cargoes.

IN these days of peace, good will toward all men, it is probably better and more in accord with the christian religion that the republicans of the country submit quietly to all the outrages of the democratic party without showing any spirit of resentment. The facts are the republicans are changing front, there used to be what was known as "stalwarts" in the party who contended for party rights and fought the democratic party every inch of the road. These men have subsided and instead we have the doctrine of don't contend, let it go etc., the results of which are democrats get in and republicans get out. We find no fault with the leaders of the democratic party for securing every advantage possible, in fact they are to be admired for their courage but republicans must remember they will take all (under the no fight policy.—Indianola (Ia.) Herald.

### JOHN M. THURSTON HAS A BEE IN HIS HAT.

A telegraph report went out over the wires yesterday that created quite a sensation in political circles. It is to the effect that the friends of John M. Thurston are urging him for a candidate for vice-president of these United States. Following is his reply when asked in regard to his wanting the office: "No, I am not a candidate for the vice presidential nomination in the sense of seeking that honor, but many of my friends have been kind enough to suggest that I might be acceptable to the republicans of the country. I might say as did old Judge Poland of Vermont once when he was suggested as a candidate, 'You might do worse and I know you will.' The office is a great one, and no man would hesitate to accept it, but I haven't made any efforts to secure the nomination. I cannot, of course, prevent my friends from putting forward my name."

"Thurston's candidacy has a Blaine flavor about it," said a republican leader at the Grand Pacific. "Thurston is a Blaine man out and out. He always talks for Blaine and is well thought of by the Blaine men in the west. He is a champion of the Maine man's reciprocity ideas always. The fact that Mr. Thurston has long been identified with the Union Pacific and other big corporations will, I think, have the effect of retarding his candidacy."

### FAST COMPOUND LOCOMOTIVES.

On a recent run by a Baldwin compound on the Baltimore and Ohio, hauling a "Royal Blue" train from Philadelphia to Canton, on December 22, 1891, the time, including one stop at Wilmington and a slowdown at the Susquehanna bridge, requiring three minutes in crossing, was 101 minutes for 91.6 miles. A similar run was made on the 20th with six Pullman coaches. An observer on the train judged that the train could have hauled two more cars with equal ease. The fact that the engine made at times a speed as great as sixty-seven miles per hour goes to show that there is no serious defect in compounds at high speed. A record has been obtained from this engine in one instance of a speed of seventy-seven miles per hour, but the details of the run were not gathered. In another case a ten-wheel passenger and freight engine, with sixty-two inch wheels and twenty-six inch stroke, made seventy-two miles per hour. The ten wheeler made for the Master Mechanics' association committee, with seventy-two inch wheels hauled a fast train on the Baltimore & Ohio, and made up time with eleven coaches, and traveled eight and six-tenths miles in nine minutes over a grade of forty-two and six-tenths feet per mile.—Railroad Gazette.

THE British press has been howling and making some very severe comments upon America's high-handed course toward Chile, but we will bet a great big red apple that they won't say a word about the way four British gunboats recently ascended the Gambia river in Africa, a distance of 280 miles, to chastise a negro chief who was accused of some hostile act, though the proof of his guilt was not complete. Three hundred armed British surrounded the chief's village and began shooting. The chief, a man of fine physique, boldly advanced, like a veritable Umlsopagas forcing a way through the enemy's ranks, and galloping away unharmed amid a shower of bullets. His followers scattered and made shift to escape as best they might. The pursuing sailors kept up a merciless firing upon the almost defenseless blacks, and killed fifteen of them—mostly women. They then burned the huts of the village and proudly retired, singing "Rule Britannia." This story would seem incredible did it not come from an excellent source. The Star, in publishing the details, indulges in sarcasm and remarks that this noble achievement of British arms "will teach nigger potentates not to cork their snouts at the British lion."
