

AN ESCAPED LUNATIC.

He Was Trying to Get to Plattsmouth, His Old Home. Yesterday a strange, cadaverous looking fellow showed up at Mr. T. B. Stevenson's office...

Nehawka News Notes.

March is variable, and citizens all agree that last Saturday, so far as the weather was concerned, was a bad day. With lightning, rain, snow and driving winds, indoors was decidedly a pleasanter place than out.

Spring is, in some respects, backward. Little or no seeding has been done yet and the farmers are getting impatient and anxious to get their wheat sowed.

Winter wheat has come through all right and has started to grow. Among the late improvements of our town is a plank walk completed from the bank corner up to the Methodist church...

Henry Lopp is building a new barber shop, the frame of which is now up. Frank Moore has the foundation dug for a house he is building to rent to John Fallis.

The United Brethren are building a parsonage, which is now ready for plastering. The new minister is expected daily. Charley Haight's blacksmith shop was entered a few nights ago and tools to the amount of \$50 stolen.

No clue to the thief. This point is becoming something of a wood market. Timber is not considered so valuable as it once was. As a result farmers are cutting it down, and we see it stacked around and corded up in long and lofty piles, ready for use at home or shipment.

Baseball players are becoming restive. The "Bankers" won fame on this line last summer. This season they will organize a brass band—and probably a dramatic troupe. It is believed there is talent here which favorable conditions and culture might perfect.

But with this, as in other instances in this world, alas! how often—"Full many a rose is born to blush unseen, and waste its fragrance on the desert air."

JUNIUS. Putting on Fast Trains. The Burlington is preparing to put on fast trains between Chicago, Omaha and Denver that will make a stir among the railroads.

The train which now leaves Chicago at 10:30 p. m. and Omaha the following evening at 7:10 will be expedited. Under the new schedule it will leave this city about 4:30 p. m. and reach Denver at 7 in the morning.

PERSONAL.

Charles Loder at the Waterman to-night. Geo. Freer is nursing one of Job's pets on the back of the neck. Miss Gertie Kearney departed for Shenandoah this morning on No. 5.

George F. Niles went up to Omaha this morning on the 9:05 train. Charles Robine departed this morning for Council Bluffs to visit with his son, Herbert.

Miss Love, daughter of J. W. Love of Fremont, who has been visiting with the family of C. E. Wescott for some time past, left for her home in Fremont this morning.

Mrs. H. A. Bood returned this morning from Mansfield, Ohio, where she was called to the bedside of her father, who was very sick and died after she arrived.

The democratic county central committee met at Union yesterday and decided to call the county convention at Union April 7.

Street Commissioner Geo. Poisall has a force of men at work to-day putting in a sewer pipe across Chicago avenue opposite the base ball park.

Sixth street, between Pearl and Vine, is in such a condition that a light buggy cannot go through without getting stuck in the mud or breaking down. Isn't it very near time some steps were taken to remedy it.

O. A. Brown left on the K. C. for Pacific Junction this morning. The firm of Brown & Barrett are selling a large amount of wallpaper to the citizens of Pacific Junction and Mr. Brown went over this morning to take another big order.

Joe Klein, the popular one price clothier, received to-day a very large stock of spring suits, trunks, satchels, valises, gents furnishing goods and neckware in all of the latest fashions, and he will sell them cheaper than ever known in Plattsmouth before.

Call and see his immense stock. "The 'Oh! What a Night' company closed a four nights' engagement in Omaha last night to immense houses and will appear at the Waterman to-night in one of the best comedy plays ever seen in Plattsmouth, with the famous German dialect comedian, Charles A. Loder, in the title role.

Give them a packed house to-night, for they are worthy of it. C. W. Holmes broke a single tree on his hack in the mud in front of the postoffice last night and was forced to leave it there over night.

This morning when he went to get it he found that some scoundrel had waded out through the mud to where the hack was standing, went on the inside of the hack and deliberately cut the upholstery all to pieces and scattered it all over the floor of the hack. Walt promises to make it hot for the guilty one if he can be detected.

The second entertainment of the Y. M. C. A. Star course, given last night at Black's opera house, was furnished by that superior musical organization, the New York Symphony Club, which is delighting large audiences all over the country.

The house was packed, and if decorum had permitted the audience would probably have howled with delight at the splendid programme furnished. In some instances the encores ran up as high as eight, and would not have stopped then but for the protestations of the performers.

It is very rarely that such an occurrence is witnessed. No Y. M. C. A. entertainment has ever been given here that gave better satisfaction.—Springfield Daily Democrat. The New York Symphony Club has been engaged by the ladies of the Presbyterian church and they will give a concert Saturday evening, April 2. Those who love music cannot afford to miss such a rare treat.

Police Court. Chief of Police Tom Fry arrested two of the worst looking specimens of humanity this morning it has been our lot to gaze upon, charging them with vagrancy. They plead guilty and were sentenced to ten days' hard labor in the city jail. They gave their names as Frank White and George Miles.

You should see Brown & Barrett's stock of wallpaper. District Court. Judge Chapman discharged the jury to-day and they will depart this evening for their homes.

In the case of the State of Nebraska vs. Peter Coon the jury brought in a verdict in favor of defendant, and he was accordingly discharged. Jasper Clowson and Memberg both plead guilty to stealing wheat and along with Chas Blake will be sentenced to-morrow. Judge Chapman will begin on the

THE DIVE PULLED.

The Proprietor of the Notorious "Haymarket" Resort was Arrested Last Night. Complaint was yesterday made against the proprietor and his wife of the dive known as the "Haymarket," and the warrant was placed in the hands of Chief of Police Tom Fry, who brought them into police court about 4:30 yesterday afternoon.

A continuance was had until to-morrow morning at 10 o'clock. About twenty-five witnesses have been subpoenaed. When Hubbel and his wife were arrested there was another woman in the house, but as she was a stranger she was not molested.

World's Fair Notes. Demark has made a world's fair appropriation of \$67,000. A continuous clam bake will be one of the attractions which epicurean visitors will find at the exposition.

Pope Leo XII has written a letter strongly commending the Exposition, which it is believed will have a most favorable effect in stimulating interest in the Fair on the part of all Catholic countries and communities.

More than 180 exhibitors are chronicled from Philadelphia alone. A \$6,000 monument of Barre granite will be one of the exhibits from Vermont.

New York has made a World's Fair appropriation of \$300,000. The New York Assembly has voted permission for the raising of one or two old sunken vessels in Lake George for the purpose of sending them as relics to the Fair.

Supreme Court. The supreme court among a number of other decisions handed down the following from this county: Alexander vs. Pitts. Appeal from Cass county, reversed and action dismissed. Opinion by Justice Norval.

An action to foreclose a tax deed, void on its face, was brought more than fifteen years after the date of such deed. The defendant and his grantors had been in the actual, open, notorious, continuous, adverse and exclusive possession of the lands as owner for more than ten years prior to the bringing of the suit. Held that the action is barred.

Dancing Party. The young friends of John Wright spent a pleasant evening with him at his home on West Locust street last night. The evening was spent in dancing and Miss Bibby furnished the music on the piano. Refreshments were served during the evening and the party concluded at 12 o'clock. Those present were: Anna Sullivan, Edith Patterson, Bessie Walker, Rose Hyers, Mattie Smith, Alice Murray, Tillie Valley, Mollie Ballance, Tom Miller, Charley Sullivan, Bert Holmes, Gus Hyers, Will Coolidge, Frank Ballance, Wendell Foster.

Use of the Telephone in Surgery. A remarkable application has been made by Dr. J. Mount Bleyer. In a case of membranous croup intubation was successfully resorted to. When the removal of the tube became necessary it had disappeared. Tracheotomy would evidently have to be performed, but the difficulty was to locate the tube. A delicate metallic probe attached to an electric wire, the other end of which terminated in a telephone receiver, was passed down through the larynx. As soon as it came in contact with the tube a distinct click was communicated to the ear through the receiver. The exact location having thus been determined, tracheotomy was performed and the tube extracted.—New York Telegram.

English Oaks. The old "Parliamentary Oak," in Clipstone park, England, is believed to be 1,500 years old. The tallest oak in that country, called the "Duke's Walking Stick," is higher than the spire of Westminster abbey, and the largest is the "Cowthorpe," which now measures seventy-eight feet in circumference, and at one time with its branches covered more than an acre of space.—Philadelphia Ledger.

Chinese Built Bridges in 65. From an early date the Chinese seem to have constructed suspension bridges of considerable magnitude, one in the province of Junnan, constructed in the year 65 A. D., being the most celebrated.—New York Journal.

Uses of Chinese Wax. The white wax is a substance of great utility in China. It melts only at a high temperature, and is used chiefly to cover candles made of animal and vegetable tallow, to prevent too rapid combustion. It is used also as sizing for paper and cotton goods, a glaze for silk and a polish for furniture.—New York Sun.

Swedish women vote in the cities for municipal councilors and in the country for members of the county council, and as the latter body appoints the members of the upper chamber of the diet the women may be said to exercise a direct power in Swedish affairs.

The Apostles' creed is not the creation of any single person. It grew. It is found in practically its present form in writings of the Fifth century. The Nicene creed was formulated in A. D. 325.

The sun gives 600,000 times as much light as the full moon; 7,000,000,000 times as much as the brightest star in the sky and 36,000,000 times as much as all the combined stars of the heavens.

A Magnificent Combination For the People.

Doctors' Writing Very Ancient. Many of the chemical signs are derived from the alchemists, and are also to be found in works on magic. Some of them are very ancient, and may be traced to Roman stenography and to more ancient sources. The Comte de Gobineau has something on the history of the magic alphabets still used by orientals in his "Ecriture Cuneiforme."—Notes and Queries.

The Life of a Thunderstorm. Mr. William Marriott asserts that thunderstorms, instead of traveling at a rapid rate over the country as one continuous storm, consists really of a series of storms following one another, and it is his opinion that the average life of each is not more than about twenty miles.—London Public Opinion.
