EUROPE is all excitement at the present over the cholera scare, as four cases have been reported in Paris.

A GOOD old democrat was heard to remark the other day: "The reason so many democrats were for Cleveland was because there was so much of him."

AN exchange says that "dangerously large democratic majority in congress" have for four months been industriously boring a gimlet hole in the McKinley tariff law and asks them to please yell when they get the hole half way through, so as to let the people know of their grand achievement.

SENATOR QUAY says in a magazine article that one of the leading sources of strength to the republican party in 1888 was Harrison's marvelous faculty for discussing, day after day, great and varying public questions in speeches all differing in form and without an error of treatment or blunder of expression. Fortunately, the same advantage will be on the side of the same party this year.

THE Cleveland democrats begin to see that "the late convention" to be held in New York will prove to be as great a blunder as "the winter convention" was. The party in New York seems to be as "between the devil and the deep sea," and it matters little which way they go. Senator Vilas, the wisest among the leaders, advises the abandonment of the convention appointed for May. The senator advised that the opposing factions kiss and make up, and that the two great leaders be kicked aside among the useless furniture.

EVERY man in the great northwest be he republican or democrat, should labor to retain in place the party now in power. Why, because the protective reciprocity policy advocated by it, is paying off mortgages, getting the people out of debt and with large numbers, increasing their bank accounts. Protection protects the home markets and the home demand for farm products, stiffens prices, which paid in honest money, is rapidly increasing the wealth of the farming class and as the farmers prosper so does all other lines of business.—Indianola, Ia, Herald.

WHATEVER the republican side of the house lacks in numbers is made up by a full supply of courage, brains and clear-sighted determination. The splendid conduct of the republican minority during the fight over the silver bill extorted expressions of admiration from such stiff necked democrats as Crain of Texas. "I couldn't help," said Mr. Crain, "but admire the magnificent discipline displayed by the republican minority. It was equal to that German regiment. They advanced, retreated, wheeled, faced about, marched, counter-marched, and charged like trained veterans. It was magnificent and it was politics." Several hundred thousand republicans say ditto to that. The republican minority has done nobly.—Auburn post.

A TITANIC TASK.

If Harrison and Blaine could obtain a full remonetization of silver at a fixed ratio to gold in all the commercial countries of the world they would achieve a greater victory than our nation obtained at Appomattox or Gettysburg, for it would be mastering a commercial problem which has defied the powers of the greatest administrative minds in the world for the past hundred years.—Milwaukee Evening Wisconsin.

THE PROSPERITY OF OUR WORKMEN.

There has never been a period in the history of this or any other country when the general rate of wages was as high as it is now, or the prices of goods relatively to the wages as low as they are to-day, nor a period when the workman, in the strict sense of the word, has so fully secured to his own use and enjoyment such a steadily and progressively increasing proportion of a constantly increasing product. Hence, so far as our experience goes in dealing with the great flood of immigration which has poured in upon us in increasing measure during these twenty-five years, greater in the last ten years than ever before, all the facts and the conditions would tend to prove that we might invite its continuance, so far as it consists of the intelligent and the capable who constitute by far the greatest portion, rather than impose taxes to keep the intelligent and capable from coming here to improve their condition. We now have specific and absolute data in respect to manufactures, the mechanic arts and mining going to prove that, through the application of science and invention in these specific directions, those who do the actual work in the sense in which the workman uses that phrase—in a lessening number of hours and with less arduous effort—secure constantly advancing wages, increase purchasing power, better food and more of it, more clothing, if not quite as good on account of the obstruction to the import of wool, and also, outside of a few congested districts in cities, better shelter at lessening cost to the occupant.—Edward Atkinson in the May Forum.

DR. KEELEY has this to say of the cigarette habit: "It brings confusion to the brain and heart and a train of ills from which it is hard to recover, even though you stop the habit. I will not treat a man who persists in using the cigarette. It results in insanity and death."

"Wanted, the Earth." John Dillon in "Wanted, the Earth," and a fine supporting company played to say large an audience last night as ever entered the Peavey Grand, and it was by far the best pleased house of the season. The inimitable Dillon was in his glory and his many admirers in Sioux City received him with warm applause. The play abounded in laughable situations, as everybody expected it would with Dillon around.—Sioux City Journal.

John Dillon appears at the Waterman to-night.

According to the census of 1890, Chicago takes rank, by virtue of her population of 1,098,576 people, as the eighth largest city on the globe. Most of us desire, at one time or another, to visit a city in which so many persons find homes, and, when we do, we can find no better line than the "Burlington Route." Three fast and comfortable trains daily. For further information address the agent of the company at this place, or write to J. Francis, General Passenger and Ticket Agent, Omaha, Nebraska.

It Pays to Read the Papers, especially your county paper, for often through this medium business chances and opportunities are presented that might otherwise entirely escape your attention. For instance, B. F. Johnson & Co., Richmond, Va., have an advertisement in this paper that will prove of special interest and value to a large number of people hereabouts. Write to them for further particulars.

For a number of years, I have been subject to violent attacks of inflammatory rheumatism which generally lasted about two months. On the first of this month I was attacked in the knee and suffered severely for two days, when I prepared a bottle of Chamberlain's Pain Balm and it relieved me almost instantly. I therefore most cheerfully recommend it to those who are similarly afflicted everywhere.—R. D. I feel it my duty to say a few words in regard to Ely's Cream Balm, and I do so entirely without solicitation. I have used it more or less half a year, and have found it to be most admirable. I have suffered from catarrh of the worst kind ever since I was a little boy and I never hoped for cure, but Cream Balm seems to do even that. Many of my acquaintances have used it with excellent results.—Oscar Ostum, 45 Warren Ave., Chicago Ill.
