QUEEN VICTORIA is seventy-three years old and has reigned nearly fifty-five years.

The estimate of the damage done by the recent floods in Sioux City reaches the enormous sum of \$4,000,000.

In two weeks more the Milwaukee convention will be held and all questions in regard to who will be the next president of the United States will be settled.

THE German government has ordered 180 Maxim guns from American gun makers. Europe is slowly learning that the best of most things are made on this side the Atlantic.

THE largest per capita expenditures for municipal purposes in cities of the first class are made in New York, of course, where the democrats have full swing and the Tammany tiger has to be fed.

DURING the year 1891 4,207 vessels passed through the Suez canal, and of these only twenty-six carried the American flag. But just wait until Uncle Sam can have four years more of just such an administration as the one now at work and things will change.

It is altogether probable that Governor Cleveland will write a letter to Lord Salisbury reproving him gently for giving the snap away. The accomplished nobleman certainly did select an awkward time for confessions, so far as the stuffed prophet is concerned.—Fremont Tribune.

THE country was never before so prosperous as now. The necessities of life were never before so prosperous as now. The wages of labor in honest money were never before as high as now. The syndicate of political liars was never before as voluble, as mendacious and as impudent as now.

AN Irish firm is going to establish a linen factory in New York, the cost of the machinery alone to be used by it will be \$30,000; and this will be spent in American shops. And just a few weeks ago a firm that has been making carpets in England for two centuries, moved its plant to the United States. The McKinley bill is doing its own talking.

THE DO-NOTHING CONGRESS. The absenteeism in the house of representatives is a disgrace to the democratic majority. If enough members for a quorum out of a majority of 150 cannot retain in their seats and attend to the duties for which they are chosen there is a very bad state of affairs, which ought to be remedied by some resignations, to be followed by the election of successors blessed with industry and a sense of duty.—New York World, democrat.

A NUMBER of the leading democratic papers of the country have become utterly disgusted with the proceedings of the present house in congress. The New York Advertiser, a thoroughly democratic sheet, says:

What an unscrupulous lot of frauds these democratic leaders are! After shouting about economy all over the country, and after condemning the billion dollar congress, they put through the house of representatives a river and harbor bill which for downright robbery has not been excelled since the war. What would happen if these bashi bazookas had control of the executive, legislative and judicial branches of the government? Just pause and think!

THE experiment of frightening a man to death has again been tried, with perfect success. Joseph Hardin of Wellington, Kan., was the victim and practical jokers condemned him to death, blindfolded him, placed him on what they called his coffin, gave the command to fire, fired in the air while one of their number tapped him on the head with a small stick. Hardin died instantly. The bullet did not strike him, but the idea of the bullet was just as successful and stopped the heart beats. There is nothing new in such shocks, but it is something of an argument in favor of influencing the mind when the body is diseased. If a man is killed by the idea that he has been shot, why should he not be helped to get well by the idea that he will get well? One is as reasonable as the other.—Ex.

OUR treaty with Honduras brings with the scope of reciprocity all the nations and dependencies of the West Indies and Central and South America, except Venezuela and Columbia.

"If Boies or bust is really to be the democratic slogan," says the Pioneer Press, "about now is the best time for the cautious to break for cover."

Since the war the republicans have lost the senate but once, and that was in the Forty-sixth congress, the second half of President Hayes' term.

Ex-Governor Campbell, of Ohio, says: "A fighting democracy always wins." It didn't seem to in 1861-65.

All this country has to do to make it independent of the world, and maintain a market which shall continue to be the best on the planet, is simply to keep right along developing its resources, which are limitless in every direction. As Senator Hawley has so forcibly put it, free trade is a positive duty for England. The kingdom of Great Britain, with its limited area and resources, imports 93 per cent of its raw material. The United States finds 95 per cent within their own limits. The absolute daily dependence of Great Britain upon the rest of the world for food and the material for manufacture, is obvious.—Cedar Rapids Republican.

Nothing New Under the Sun

Not even through cars to Denver, Ogden, Salt Lake City, San Francisco and Portland. This is simply written to remind you that the Union Pacific is the pioneer in running through cars to the above mentioned points and that the present through car arrangement is unexcelled. We also make THE time. For details address any agent of the company, call on your nearest agent or write to E. L. LOMAX, G. P. & T. A. U. P., Omaha Neb.

The Rattlesnake's Young.

Does the rattlesnake bring forth its young alive? I have seen young snakes run in the old snake's mouth, making a singing like noise, and upon killing the old snake and cutting it open have found the young packed away side by side, not in the stomach proper, but in what seemed a place for them.—Cor. Forest and Stream.

Taking Off Old Wall Paper.

To take off wall paper previous to painting or papering, wet the old paper thoroughly with a long handled brush dipped in warm water. Let it rest until the water has penetrated it and the paper blisters and loosens, when you can peel it off with your hands. Do not wet too much at a time.—New York Journal.

How English Statesmen Get Recreation.

Of present English celebrities Mr. Chamberlain is an amateur horticulturist; Sir John Lubbock passes the flying moments in studying his ants and bees; Mr. Black enjoys yachting among the Hebrides, and many of the nobility have a pronounced fancy for horse racing.—Hygiene.

Deaths from Consumption.

Major Veale, health officer of Philadelphia, states that there are from 2,800 to 3,000 deaths from consumption in Philadelphia every year, and is clearly of opinion that preventable action is necessary.

A mustard foot bath is often helpful in the first stages of a cold. A good handful each of mustard and coarse salt should be stirred into the water and all chills must be avoided afterward.

A London thief tried to escape in a big box. After trying to balance himself on his head a few times, however, he found the weight of his feet insupportable and yelled for assistance.

Montana is larger than Turkey; Texas is larger than the whole Austrian empire by 30,000 square miles and New Mexico is larger than Great Britain and Ireland put together.

Oregon, Washington and the North-west Pacific Coast.

The constant demand of the traveling public to the far west for a comfortable and at the same time an economical mode of traveling has led to the establishment of what is known as Pullman Colonist sleepers.

These cars are built on the same general plan as the regular first-class Pullman Sleeper, the only difference being that they are not upholstered.

They are furnished complete with good comfortable hair mattresses, warm blankets, snow white linen curtains plenty of towels, combs, brushes etc., which secure to the occupant of a berth as much privacy as is to be had in first class sleepers. There are also separate toilet rooms for ladies and gentlemen, and smoking is absolutely prohibited. For full information send for Pullman Colonist Sleeper leaflet. E. L. Lomax, General Passenger and Ticket Agent, Omaha Nebraska.

F. G. Fricke & Co., the druggists desire us to publish the following testimonial as they handle the remedy and believe it to be reliable: "I bought a 50-cent bottle of Chamberlain's Pain Balm and applied it to my limbs, which have been afflicted with rheumatism at intervals for one year. At the time I bought the Pain Balm I was unable to walk. I can truthfully say that Pain Balm has completely cured me.—R. H. PARK, Hollywood, Kan. Mr. A. B. Cox, the leading druggist at Hollywood, vouches for the truth of the above statement."

Catarrh in New England.

Ely's Cream Balm gives satisfaction to every one using it for catarrhal troubles.—G. K. Mellor druggist, Worcester Mass.

I believe Ely's cream Balm is the best article for catarrh ever offered the public.—Bush & Co. druggists, Worcester Mass.

An article of real merit C. P. Alden druggist, Springfield Mass.

Those who use it speak highly of it.—Geo. A. Hill, druggist Springfield, Mass.

Cream Balm has given satisfactory results W. P. Draper, druggist, Springfield, Mass.

Some of the Grand Army boys may be interested in the following from Alex. B. Pope, A. D. C., Com mander, Dep't. Tenn. and Ga. He says: "We have had an epidemic of whooping cough here, (Stewart, Tenn.) and Chamberlain's Cough Remedy has been the only medicine that has done any good. There is no danger from whooping cough, when this remedy is freely given. It completely controls the disease. 50 cent bottles for sale by F. G. Fricke & Co., druggists."

To Aid Nebraska.

The Burlington & Missouri River railroad has prepared and has now ready for distribution a new hand book, treating of the opportunities which Nebraska, northwestern Kansas and eastern Colorado offer to farmers, business men and investors.

This book has been gotten out for the information of eastern people, particularly those who have friends west of the Missouri; it is written in pleasant, easily understood style, by one who thoroughly knows his subject, and is confidently recommended as likely to stimulate immigration to a very considerable extent.

It pictures Nebraska and those portions of Kansas and Colorado adjacent to it, not as they might be, but as they are.

It is thought that the best method of distributing these hand books is as follows: Parties in Nebraska, Kansas and Colorado, having friends in the east who are likely to be interested in such literature as this, are invited to send the names and addresses of these latter to Mr. J. Francis, Gen'l Passenger and Ticket Agent, Burlington Route, Omaha, Neb., who will take pleasure in forwarding, postpaid, to such addresses as many copies as desired.

The Handsomest Lady in Plattsmouth

Remarked to a friend the other day that she knew Kemp's Balsam for the throat and lungs was a superior remedy, as it stopped her cough instantly when other remedies had no effect whatever. So to prove this and to convince you of its merits any druggist will give you a sample bottle free. Large bottles 50c and \$1.

Bucklen's Arnica Salve.
