**REPUBLICAN NATIONAL TICKET.**  
For President  
BENJAMIN HARRISON  
of Indiana.  
For Vice-President  
WHITELAW KIEF  
of New York.

PLATTSMOUTH is bound to grow.  
SIXTH street, between Pearl and Vine, is bound to be paved. Let the good work go on.

MAJOR MCKINLEY'S vote against McKinley and for Harrison will become historic.—New York Tribune.

THE inauguration of President Harrison next March will be worth going all the way to Washington to see.

THIS is great weather for the farmers and their corn. In fact it is good weather for anything but a democrat.

SENATOR G. E. COLLINS, of Gage county, has been appointed first superintendent of the Nebraska agricultural exhibit to the world's fair. He has already begun his work and will soon visit Cass county in the interest of the exposition.

THE workmen of this country have received better wages under the Harrison administration than they ever received before, and they do not need any further argument to convince them that they ought to vote the republican ticket in November.—Globe-Democrat.

"THE TARIFF IS A TAX."  
"The tariff is a tax," said the Syracuse "anti-snap" convention. The McKinley bill increased the tariff on Chemnitz hosiery, the increase amounting to 40 cents

a dozen on men's brown half hose. The foreign manufacturers reduced the price per dozen 78 cents.

These figures are from the Dry Goods Chronicle, a trade journal of established reputation for excellence. If the tariff is a tax it is evidently a tax on the foreigner. Perhaps that is what the Cleveland democracy means. It is partial to foreign interests as against American.—New York Press.

**THE NEW METHODS.**  
Every hour that brings the actualities of the campaign nearer lends weight to Mr. Depew's prophetic declaration that it will be one of "new methods." The traditions of the republican party are transcendentally glorious. But no party can live on the glory of the past. The true purpose of past glory is to inspire those who achieved it to new efforts.

The mission of the republican party is an eternal one. The party may perish, the mission will endure. For the party "was made strong out of weakness" simply and only by devoting itself to the mission of humanity. It has freed a race from bondage; it has endowed all native American citizens of America with right to aid in making the laws of this republic. It must endow them with the power as well as with the right, and then the first and second great purposes of the party will be fulfilled.

But new progress grew out of the great mission of the party. Race slavery has ceased to exist; class slavery must not be permitted to take root; no hereditary class of laborers must be born on the soil of this nation. In the great army of industry the marshal's baton must be hidden in every private's knapsack. Every American man must have freedom to do the best that he can do for himself, according to the measure of his ability.

That this may be achieved it is necessary that education be free to all, for an ignorant body of laborers generally is a hereditary body of laborers. It is necessary also that the pay of labor be good. For a poverty-stricken class of laborers generally is a hereditary class of laborers. That American wages may be good it is needful to protect the American laborer from

having his work placed in unprotected competition with the work of the ill-paid European laborer. Hence the republican party resolves in favor of protection to American industries, and one of the "new methods" of this campaign will be educational as to the humanitarian quality of protection.

But after school has been placed within the reach of every American child, and after fair pay for good work has been placed within the reach of every American man, another form of protection is needed. It is against trusts and combines.

Protection by legislation against trust is needful that the wage earner neither shall have to pay an unduly high price for what he buys with his wages, nor shall be prevented by gigantic combinations of capital from employing his savings in small manufactures. The path from the rank of employed to that of employer must be kept free from artificial obstructions.

An exposition of the humanitarian tendency of political economy under republican interpretation must be one of the "new methods" of this campaign.—InterOcean.

**Half Rates to New York.**  
To accommodate Christian Endeavorers and their friends along its line who desire to attend the national convention of the Y. P. S. C. E. at New York, July 7-10, the Burlington route will on July 4 run a special train from Omaha through to New York, via Chicago and Niagara Falls, leaving at 11:40 p. m., after arrival of all trains from the west. A rate of one fare for the round trip has been authorized and will be open to the general public. Tickets, good to return any time within thirty days from date of purchase, will be on sale at dates to be announced later. The low rates in force, the through car facilities at the disposal of travelers by the Burlington route, and the delightful season of the year, combine to make this an unequalled opportunity of visiting the east. Remember that you can purchase tickets from your station agent through to New York. Full information may be had upon application to the local agent of the B. & M., or by addressing J. Francis, General Passenger Agent, Omaha.

**How Well Known Men Sleep.**  
Gladstone rarely takes less than seven hours' sleep. Whenever he is preparing for a great effort in the house of commons he always likes a short afternoon siesta. Bismarck has displayed a similar habit on the occasion of the most fierce parliamentary debates. When all night sittings were common Parnell would go to his hotel, seek his bed and leave instructions with one of his colleagues to have him aroused whenever a crucial point was reached. These are only a few examples of the great men who have shown their thorough appreciation of that great boon which "knits up the raveled sleeve of care."—Interview in St. Louis Globe-Democrat.

**Why Teak Wood Is Durable.**  
The teak, which has passed into proverb as the best material for shipbuilding, is superior to all other woods from the fact that it contains an essential oil which prevents spikes and nails driven into it from rusting. This property is not possessed by any other wood in the world, and furnishes an explanation of the fact that ships built of teak are practically indestructible. Some have been known to last for 150 years, and when broken up their beams were as sound as when first put together.—Philadelphia Ledger.

**A Dakota Sandstorm.**  
Not longer ago than May, 1889, there was a duststorm in Dakota, during which the soil, to the depth of four or five inches, was torn up and scattered in all directions. Drifts of sand were formed, in favorable places several feet deep, packed precisely as snowdrifts are packed by a blizzard.—Geographical Magazine.

**At the Musicale.**  
Suffering Auditor—Will that girl at the piano never stop? She is making every one in the room miserable.  
Girl at the Piano (sotto voce to gallant music tuner)—So good of you to say so? It is a pleasure to interpret melody. And it is so sweet to confer happiness upon others.—Pittsburg Bulletin.

**Bobby Anxious to Help.**  
Bobby (whispering)—Didn't I hear Clara tell you, Mr. Featherley, that she was sorry, but she really couldn't give you a lock of her hair?  
Featherley—Sh—Bobby—er—yes.  
Bobby—Well—you just wait a day or two and I'll get some for you when she's out.—Exchange.

The cost of rough steel castings for marine engine work is said to be about four times that of cast iron, but greater allowance has to be made for the machining, as much as 20 per cent of the casting being removed in some cases.

An eclipse of the moon is caused by the shadow of the earth; the phases of the moon are caused by the continually varying inclination at which that half of it that is illuminated by the sun is presented toward the earth.

While there are differences of opinion in regard to the effectiveness of the protection afforded by lightning rods, the best authorities favor the view that a faultless system of conductors insure absolute protection.

"The number of impecunious earls in the world," said Hicks, "is proof to me that the early bird doesn't catch the worm these days."

**Don't be Hoodwinked**  
by dealers who pretend that they can sell Dr. Pierce's genuine medicines at less than these long established prices:  
Golden Medical Discovery for liver, blood and lung diseases, \$1 a bottle.  
Favorite Prescription (for woman's weakness and ailments), \$1 a bottle.  
Pleasant Pellets (for the liver), 25 cents a vial.  
Com. Ext. Smart-Weed 50 cents a bottle.  
Dr. Sage's Catarrh Remedy, 50 cents a bottle.  
The genuine medicines can only be sold by druggists, at the above prices.

There are more ways than one to make a profit, even at "cut prices." Unscrupulous dealers tamper with the bottles, or refill empty ones—and such mixtures can be sold cheaply. But every bottle of Dr. Pierce's genuine medicines is guaranteed. If it fails to give satisfaction in any case, you have your money back.

Can anything else, at any price be really as cheap?  
You pay only for value received. Something else, that pays the dealer better, may be offered as "just as good." Perhaps it is, for him, but it can't be, for you.

The following item, clipped from the Ft. Madison (Iowa) Democrat, contains information well worth remembering: "Mr. John Roth of this city, who met with an accident a few days ago, spraining and bruising his leg and arm quite severely, was cured by one 50-cent bottle of Chamberlain's Pain Balm." This remedy is without an equal for sprains and bruises and should have a place in every household. For sale by F. G. Fricke & Co.

**Admitted the Facts.**  
Newspaper editors have to be very careful in opening their columns for statements. But aware that the Dr. Miles Medical Co. are responsible, we make room for the following testimonial from R. McDougall, Auburn, Ind., who for two years noticed a stoppage or skipping of the pulse, his left side got so tender he could not lie on it, his heart fluttered, he was alarmed, went to different doctors, found no relief, but one bottle of Dr. Miles' New Heart Cure cured him. The elegant book, "New and Startling Facts," free at F. G. Fricke & Co. It tells all about heart and nervous diseases and many wonderful cures.

The wisdom of him who journeyeth is known by the line he selects; the judgment of the man who takes the "Burlington Route" to the cities of the east, the south, and the west, is never impeached. The inference is plain. Magnificent Pullman sleepers, elegant reclining chair cars and world-famous dining cars on all through trains. For information address the agent of the company at this place, or write to J. Francis, General Passenger and Ticket Agent, Omaha.

The Missouri Pacific will sell round trip tickets May 9 to 14 inclusive, to Portland, Oregon, the Presbyterian general assembly being held there May 19 to June 2. **There's danger**  
in a cough—more than ever when your blood is "bad." It makes things easy for Consumption. But there's a cure for it in Dr. Pierce's Golden Medical Discovery. A positive cure—not only for Weak Lungs, Spitting of Blood, Bronchitis, Asthma and all lingering Coughs, but for Consumption itself in all its earlier stages. It's reasonable. All these diseases depend on tainted blood. Consumption is simply Lung-scrofula. And for every form of scrofula and blood-taint, the "Discovery" is a certain remedy. It's so certain, that its makers guarantee it to benefit or cure, in every case, or the money is refunded. With a medicine that is certain, this can be done.

There's a cure for Catarrh, too, no matter what you've been led to believe. If there isn't, in your case, you'll get \$500 cash. It's a bonafide offer that's made by the proprietors of Dr. Sage's Catarrh Remedy. There's risk in it, to be sure, but they are willing to take the risk—you ought to be glad to take the medicine.
