TO PAVE SIXTH STREET.

An Ordinance Creating Paving District No. 2 Created.

NINTH STREET STILL CLOSED.

The City Council Cannot Agree on a Route For the Purpose of Opening South Ninth Street--A Lengthy Session.

The city council met in regular session last night. The roll call showed the following present: Murphy, Lake, Minor, Graves, D. M. Jones, Spies, Steimker and Longenhagen; Petersen and W. D. Jones coming in later.

The minutes of the last meeting were read and approved.

A petition was read from Mrs. Charlotte Finney, asking the council to take some action to protect her property on Lincoln avenue which is as follows: Lot 9, section 18, town 12, range 14, consisting of ½ acre, that when it rained the water overflowed the ground. Referred to the streets, alleys and bridge committee, with power to act.

The claims committee, after having investigated the claims of E. G. Dovey & Son, A. W. White and C. H. Parmele, reported them back to the council to settle as best they could.

On motion, the streets, alleys and bridges committee was instructed to build a bridge on Washington avenue, near Heisel's mill.

The city attorney was called upon to report on the progress of opening South Ninth street. He reported that George Glee agreed to take $400 for his property, George Billings $500 and Harriet L. Hunter $263; that he had written to Mrs. Koss for figures, but had failed to receive an answer; that the probable cost of opening Ninth street straight through would be $1,600. Upon motion, the report was laid on the table.

Some of the counciimen seemed to think that the street could be opened for $800. The road can be opened by taking a round-a-bout way, it is claimed, for $800. Murphy moved that if the Billings, Koss and Glee properties could be purchased for that amount, the city attorney should prepare deeds for the same. The motion was lost.

It was then moved and seconded that the mayor appoint a committee of three to appraise the property along the route. The vote stood a tie, but the mayor voted aye. This raised quite a discussion as to whether the mayor was allowed to vote, but it was finally decided in his favor.

The city attorney reported an ordinance creating paving district No. 2, and, upon motion, it was placed upon its second and final passage.

An ordinance was then read ordering that Sixth street be paved, and the property owners have until August 1 to select the material, and if not done by that time the council was to select it. The ordinance was placed on its second and final reading and passed.

Mr. S. A. Davis, on behalf of the school board, asked that the grade on Eighth street south to Gold be established, so that the board could go on and grade for the new school building. The city engineer was instructed to establish said grade.

The committee having in charge the matter of securing a new room for the police judge, reported that a good room in the Anheuser-Busch building could be secured for $100 per year. The report was accepted and the committee instructed to draw up a lease to that effect.

On motion of Minor the city marshal was instructed to see that all obstructions be removed from the public streets.

The street commissioner was ordered to repair the sidewalk at the corner of Sixth and Vine streets, and the cost be charged up to the property.

The street commissioner was also instructed to grade Granite street so that a sidewalk could be laid.

The city attorney was instructed to look up the franchise of the street railway and report at the next meeting.

The councilmen then indulged in an oratorical contest, with honors about evenly divided, after which the finance committee's report of the estimate for the coming year was adopted. The amount set aside amounts to something over $27,000. The finance committee allowed the following bills:

Joe Swoboda, hand work	$18 00

The villiage of Louisville held an exciting election yesterday. The cause was the election of a school board. Heretofore the board has been composed of three members. The old board had no use for Prof. Killen and the issue was his re-election. The old board was was completely knocked out and the following elected: W. Cutforth, J. Jackman, H. E. Pankonin, C. Vanscoye, J. Robertson and E. Palmer.

John Rager and his wife created a little amusement at the depot this morning. Mrs. Rager had concluded to go back to Glenwood, and had her trunk taken to the depot. Rager appeared on the scene and had the trunk taken up town, but the bystanders informed her where it was, and willing hands conveyed the trunk back to the depot. As the train pulled out Mrs. Rager stuck her head out of the window, and with a "goodbye, John" she left him, while John went up town cussing.

Pugilistic Ball Players.

A dispatch from Grand Island this morning says: Manager William Rourke of the Grand Island team, William Wilson and two or three more, celebrated their victory over the Cotton Pickers by filling up on Kentucky bourbon Sunday night. After shamefully beating the waiter in Mercum & Roush Bros. chop house, the police arrested the entire gang for being drunk and disorderly and fighting.

The trial came off in police court yesterday afternoon. Manager Rourke was fined $5 and costs, and before the fine was paid the judge added another $5 for contempt. Wilson was fined $5 and costs.

Temporary Injunction.

The school board bought the lots where they will build their new school house of A. C. Spencer, Spencer agreeing to move the buildings off of the lot. Yesterday he moved one off of the lot and set it across the road that has been used by the citizens for some thirty years and then nailed boards across the road so as to make it impossible for teams to pass. Last night the council ordered the city marshal to remove all obstructions on the public highways. This morning the city marshal and the street commissioner with a force of men went up to remove the building from the road after working half of the forenoon. Spencer went before Judge Ramsey—in the absence of Judge Chapman—and secured a temporary injunction restraining the mayor, council, street commissioner and chief of police from molesting the property. The city claim they own the lot on which the house is located and Spencer says he has been paying taxes on the land for a number of years.

A Fly That Kills Horses.

All white men who visit regions in Africa infested by the tsetse fly have much to say about it. There is now evidence that the tsetse is moving gradually to more northern regions, and the cause is supposed to be that South Africa is depleted of its large game, much of which is moving northward to get away from hunters, and the tsetse fly is going with it.

The insect is only a little larger than the ordinary house fly, and it resembles the honey bee. Its sting is hardly as annoying as that of the mosquito, but near the base of the proboscis is a little bag which contains its poison. It lives on the blood of animals, and only a few species are fatally affected by its bite. Cattle, horses and dogs, however, cannot live when bitten by the tsetse fly. Natives who herd cattle and travelers who depend on horses and oxen must avoid the fly regions or lose their stock. For human beings its bite has no serious consequences.—Pittsburg Dispatch.

A Perfectly Healthy People.

The Parsees are sun worshipers, and it is an interesting sight to see throngs of them on the shore of the bay as the sun rises, apparently from the sea, performing the simple rites of their religion, the fluttering robes showing their fine figures to the best advantage as the day begins. Their religious practices are simple in the extreme, consisting mainly in strict dietary rules and personal cleanliness.

The rigid observance of sanitary laws produces the natural result of perfect health among the adults, large families of active, healthy children and immense numbers of old men, gray bearded, white haired, but erect and princely in their gait and attitude, despite the naturally enervating character of the tropical climate. — Cor. Washington Star.

The Common Snake.

The common snake is found throughout Europe (save in Ireland, the Orkneys, Hebrides, Shetland islands and Iceland), extending northward in Scandinavia to 65 degs. It abounds in Sicily, Sardinia and Corsica, and occurs, though rarely, in Algiers, but not thence eastward in Africa. It is found in Persia and western Siberia, and Asia as far Lake Baikal, and in the Alps at an altitude of 6,000 feet.—Quarterly Review.

A Snake That Is Found in Many Places.

The common snake, which bears the scientific name of Tropidonotus natrix, is one species of a genus (Tropidonotus) which extends over Europe and North America, and from northern Asia to north Australia, there being seventeen or eighteen Indian species alone. Our common snake may serve as an example of the largest family into which serpents are divided—the family Colubridæ—of which there are upward of 165 species in India alone. This family contains most of the harmless snakes, and it is also illustrated by a small snake, Coronella austriaca, which some years ago was discovered to be an inhabitant of Dorsetshire and Hampshire. The Coronella feeds exclusively on lizards, slow worms and small snakes. Though harmless, it will bite.—Quarterly Review.

The First False Hair.

In very early days, as now, the hair was sometimes thin and it had to be eked out in various ways to make believe that nature had been spendthrift to all alike. About the first description extant of woman's hair speaks of "plaited locks," known as "Gretchen braids" to us. To make these braids seem longer, silk the color of the hair was braided in. Then they they took to putting the braids in cases of silk, elongating them with all sorts of stuff till they looked like umbrellas in covers. The Chinese pigtail is a modification of this style.—Washington Star.

Punished by the Czar.

The czar of Russia knows how to brace up his military officers to their duty. A merchant of Charkoff was murdered by soldiers, and it was shown that had the officers of the regiment stationed in the town maintained proper discipline the murder might have been prevented. As a punishment for this they have been ordered to pay a yearly pension of 5,000 rubles to the widow of the murdered man.—Toledo Blade.

Not Surprised.

Neighbor (breathlessly)—Oh, Mrs. Harddluck, your little son Johnny found a dynamite bomb, and took it into a stable down town and broke it with an ax, and blew up the stable and all the buildings around it.

Mrs. Harddluck—Land sakes! I wonder what that boy will be up to next.—Good News.

Deposits of Loadstone.

A Kansas City paper says that there is a bowlder in the Ozarks which will attract a jackknife dropped nine feet away, and that along the line of the fifth principal meridian, in the counties of Carter, Reynolds, Iron and Washington, the lines of east and west surveys are deflected from the true course several degrees, the needle being affected by the deposits of loadstone.

The rage for bowknots shows no signs of abating. Easter gifts were devised of them in every form.

I had a serve attack of catarrh and became so deaf I could not hear common conversarion, I suffered terribly from roarinfi in my head. I procured a bottle of Ely's Cream Balm, and in three weeks could hera as well as I ever could, and now I can say to al! who are affiicte with the worst of deseases catarrh, take Ely.s Cream Balm and be cured. It is worth $1,000 to any man, womon or child suffering from catarrh.—A. E. Newman. Grayling, Mich.

Sleep on Left Side.

Many persons are unable to sleep on their left side. The cause has long been a puzzle to physicians. Metropolitan papers speak with great interest of Dr. Franklin Miles, the eminent Indiana specialist in nervous and heart diseases, who has proven that this habit arises from a diseased heart. He has examined and kept on record thousands of cases. His New Heart Cure, a wonderful remedy, is sold at F. G. Fricke & Co. Thousands testify to its value as a cure for heart diseases. Mrs. Chas. Benoy, Loveland, Colo., says its effects on her were marvelous. Elegant book on heart disease free.

Fail to do Our Duty.

Everbody has at times failed to do their duty towards themselves. Hundreds of lady readers suffer from sick headache, nervousness, sleeplessness and female troubles. Let them follow the example of Mrs. Herbecthter, Stevens Point, Wis., who for five years suffered greatly from nervous prostration and sleeplessness, tried physicians and different medicines without success. But one bottle of Dr. Miles' Nervine caused sound sleep every night and she is like a new person. Mrs. Elizabeth Wheeler, Laramie City, Wyoming, who tried all other remedies, declares that after three week's use of the Nervine for headache, nervous prostration, etc., she was entirely relieved.
