

Full of trouble—the ordinary pill. Trouble when you take it, and trouble when you've got it down. Plenty of unpleasantness, but mighty little good. With Dr. Pierce's Pleasant Pellets, here's no trouble. They're made to prevent it. They're the original little Liver Pills, tiny, sugar-coated, anti-bilious granules, purely vegetable, perfectly harmless, the mildest, easiest and best to take. They cleanse and regulate the whole system, in a natural and easy way—mildly and gently, but thoroughly and effectively. One little Pellet or a laxative—three for a cathartic. Sick Headache, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach and bowels are prevented, relieved and cured. They're the *cheapest* pill you can buy, for they're *guaranteed* to give satisfaction, or your money is returned.

You pay only for the value received. Can you ask more?

REPUBLICAN NATIONAL TICKET.

For President
BENJAMIN HARRISON
of Indiana.

For Vice-President
WHITELAW RIED
of New York.

THE democrats in congress have practically passed a free coinage bill that Cleveland cannot possibly indorse.

THE democrats may succeed in keeping Stevenson still, but they cannot obliterate his record as a copperhead and a repudiationist.

If the country is really in as bad a condition as the platform of the people's party represents, how does it happen to be the only country in the world which attracts foreign immigration?

THE republican candidate for state auditor of Kansas is a negro; and he is rendered still more offensive to the democrats by the fact that he is the only man on the ticket who has a collegiate education.

THE democrats are greatly worried because President Harrison saw fit to appoint Foster secretary of state, but Harrison goes right on about his business without consulting the democrats about the least thing.

THE democrats seem to think they ought to have been consulted in regard to the appointment of the chairman of the republican national committee. Because a man was appointed who knows his duty it is giving the democrats lots of worry.

EX-GOV. ANTHONY, of Kansas, states the whole case in a few words when he says that "the republican party went down with the McKinley law on its back, and the McKinley law came up with the republican party on its back." The democrats would like to dodge this large and significant fact, but circumstances compel them to face it.

ENGLAND'S SYMPATHY.
Cleveland would run magnificently in England.

Over there they are all for him. His free trade policy, if adopted in this country, would mean millions upon millions to British manufacturers and British workmen. But it would come out of the pockets of American manufacturers and out of the wages of American labor.

Long before the revolution, England resolved that America should never manufacture for herself. During the first half of the eighteenth century the poor colonists made a feeble beginning in the fabrication of coarse woollens, linen and hats. English manufacturers complained of this to their government and parliament interfered—in what manner we shall let Adam Smith, the founder of the free trade school, relate. We extract from his Wealth of Nations, published in 1776: "England prohibits the exportation from one province to another by water and even by land upon horseback or in a cart, of hats, of wool and woollen goods of American production, a regulation which effectually prevents the establishment of any manufacture of such commodities for distant sale, and confines the industries of her colonists in this way to such coarse and household manufactures as a private family commonly makes for its own use, or for that of some of its neighbors in the same province."

That policy was adhered to with relentless vigor by England down to the revolution. Since that time she has watched with impotent rage and maddening envy our advance in manufactures, under the shelter of a protective tariff which rendered futile her malevolent attempts to destroy them. Is it any wonder that her sympathy in this campaign is with the party which in effect proclaims in its platform its purpose to reduce us once more to that deplorable state of industrial vassalage from which the Revolution freed us?

Can a true American vote for the candidates of such a party? Speaking of American vs. British trade with Canada, Consular Ryder of Quebec says: "The United States monopolizes the importation of agricultural implements, printing machinery, electrical supplies, fine papers, leather and manufactures of leather, rubber boots, shoes and belting, watch and clock movements, field and garden seeds, binders' twine, etc." A fine catalogue of these articles which testify to the surpassing skill of American mechanics and workmen.

Foil Dead.
These words are very familiar to our reader, as not a day passes without the report of the sudden death of some prominent citizen. The explanation is "Heart Disease." Therefore beware if you have any of the following symptoms: Short breath, pain in side, smothering spells, swollen ankles, asthmatic breathing, weak and hungry spells, tenderness in shoulder or arm, fluttering of heart or irregular pulse. These symptoms mean heart disease. The most reliable remedy is Dr. Miles' New Heart Cure, which has saved thousands of lives. Book of testimonials free at F. G. Fricke & Co., who also sell the New Heart Cure.

WANTS FRUIT CAKE OR NOTHING.
The republicans, according to Miss Willard, have nominated for president an honest man and a Christian gentleman. "It was a tribute," said Miss Willard, commenting on the Minneapolis convention, "to the clear record, the manliness, the remarkable ability and the pure home life of our chief magistrate." Now she wants to blow up the party which made such a nomination and the nominee with it. The trouble with the talented editor of the Union Signal is the disease which afflicts all her sisters and brethren; she is covetous. If she can't get fruit cake she wants to starve. If she can't wear angels' robes she insists on the garb of a Fiji Islander. In other words, if she can't get a prohibitionist for president she is going to do her best to defeat the man whose nomination is "a tribute to the clear record, the manliness, the remarkable ability and the pure home life of our chief magistrate." For that is all the vote for the prohibition candidate can accomplish. Every vote in favor of that candidate is a vote in favor of throwing the election for president into the house, where the result can be anticipated.—Minneapolis Tribune.

A carpenter by the name of M. S. Powers, fell from the roof of a house in East Des Moines, Iowa and sustained a painful and serious sprain of the wrist which he cured with one bottle of Chamberlain's pain balm. He says it is worth \$5 to a bottle. It cost him 50 cents. For sale by F. G. Fricke & Co.

A Sight in a Graveyard.
Two visitors to Trinity churchyard, in lower Broadway, attracted a large share of public attention Wednesday afternoon. One was a well dressed blind man and the other was a boy of sixteen or eighteen years of age, probably a relative of the blind man. The boy led his sightless companion to the grass bordered slab that bears the name of Charlotte Temple. Dropping on his knees at the side of the grave the blind man passed his hands eagerly over the face of the stone and an expression of supreme gratification came into his countenance when his fingers touched the sunken letters of the name. The boy called his attention to that part of the slab from which all of the original inscription except the name is said to have been cut.

There is a hollow place there at least 1 1/2 inches deep. It forms a basin to catch water for the birds to drink and bathe in. It was nearly full of water on Wednesday afternoon, and the blind man dabbled in the little pool gently. He hovered over the grave for several minutes, and became an object of curious interest to at least a hundred persons who stood on the sidewalk and watched him through the fence.—New York Times.

"Old Ironsides."
If the portrait of some grandam who lived in the early days of the century could "materialize," and, stepping down, take her place beside the "tailor made girl" of today, the difference would be no more marked than that between the good ship Constitution and a modern "ocean greyhound." Nevertheless, in spite of the topheaviness of the old ship as compared with the new, if the two sailed down our harbor there would be no necessity for an order of "Hats off," and our heartbeats would tell us for which rang out the "three times three." Well does this great foremother of ours command both love and reverence. Staunch was she with the strength of oak from the forest primeval; unwavering ever as the pole star in the path of duty, and like a true woman of the olden time, ere "rights" and "suffrage" had lifted their heads from the neither chaos, she obeyed her master, while he, true and brave man of the olden time that he was, loved and honored her.—Jane de Forest Shelton in Harper's.

The following item, clipped from the Ft. Madison (Iowa) Democrat, contains information well worth remembering: "Mr. John Roth of this city, who met with an accident a few days ago, spraining and bruising his leg and arm quite severely, was cured by one 50-cent bottle of Chamberlain's Pain Balm." This remedy is without an equal for sprains and bruises and should have a place in every household. For sale by F. G. Fricke & Co.

Everybody has at times failed to do their duty towards themselves. Hundreds of lady readers suffer from sick headache, nervousness, sleeplessness and female troubles. Let them follow the example of Mrs. Herbert, Stevens Point, Wis., who for five years suffered greatly from nervous prostration and sleeplessness, tried physicians and different medicines without success.
