

THE CITY IN BRIEF

S. Grousel to Have Charge of the Havelock Shops.

FAILS TO GET A PROMOTION.

Entertainment at the Presbyterian Church Last Night Was Very Interesting--Other News in the City.

The report in circulation yesterday that E. S. Grousel had severed connections with the B. & M. is untrue. Mr. Grousel will retain management of the Havelock shops, but will not have charge of the road engines.

From what can be learned, THE PRALD believes that all the men have been transferred from here to Havelock that are to go. The last at were ordered to Havelock received their orders to go the same day Mr. Grousel did, and, as Mr. Grousel is now in charge at Havelock and has no jurisdiction over shops here, it seems to be the opinion of those who know, that all the men here will remain.

In the coach and paint shops men being put to work as fast as they can get hold of them, and Mr. Aldrege says that in a very short time the pay roll here will be the largest ever known.

Presbyterian Church.
The entertainment given at the Presbyterian church by Rev. Diefenbacher, for the benefit of the organ fund, last evening was not as large-attended as it should have been--occasioned, no doubt, by the intense heat.

Those who were in attendance expressed themselves as highly pleased. Rev. Diefenbacher proved to be an interesting and pleasing speaker. The views as they were given on the canvass were examined by the chaplain in a manner that showed he was thoroughly familiar with his subject. The views as they appeared were all life.

Another entertainment of the same character will be given tonight at the church. Remember the proceeds go to the organ fund; you will be helping a good cause; you will, at the same time, witness an entertainment of a high order. Admission, 25 cents; children, 10 cents.

World's Fair Notes.
A group of Caribs from the Lesser Antilles, descendants of the cannibal race discovered by Columbus on his second voyage, will be at the world's fair, engaged in making skits and in other native industries.

Great Britain, France, Germany, and, in fact, many other foreign nations, are asking, and almost insisting, that more space be granted for exhibits at the World's fair. Sir Henry Wood, of the British commission, is reported to have declared that so great is the interest in England that he believes the English exhibit would fill half of all the buildings if the space could be secured.

An agent of the Turkish government is on his way to Chicago to permit the construction of the organ pavilion and a Turkish bazaar for the World's fair. Accompanying him are native masons who will build the pavilion.

Again the cable has announced that Emperor William of Germany has decided to visit the World's fair at Chicago next year. This time Allgemeine Zeitung, a leading paper of Munich, furnishes the information, and claims that it is authentic.

It is reported that King Alexander of Serbia has decided to visit the World's fair next year. He is sixteen years old and son of the much-lamented ex-King Milan and ex-Queen Natalie.

Columbian Commission.
Governor Boyd yesterday appointed S. M. B. Stuart of Crawford as alternate on the Nebraska Columbian commission. The commission now fully equipped with alterations and it is understood that the error contemplates no other changes whatever.

The commission now stands as follows: Joseph Garneau, jr., Omaha, commissioner general; Charles Coe, Omaha, president; A. H. Bassett, secretary; A. J. Sawlin, Lincoln; W. H. Weiss, Hebron; Stewart, Benedict; Seth P. Morgan, Grand Island.

The alternates are: Charles E. Ely, Pawnee; Frank E. White, Plattsmouth; George W. West, Osta; T. J. Williams, Hildreth; Job Hawley, Hemingford; S. M. B. Stuart, Crawford.

Mrs. Schulhoff is very sick at the home of her daughter, Mrs. Baxter.

THE RESULT.

He spoke about the crops awhile and met with no rebuff. But when he asked: "Well, boys, is this--?" The entire mob jumped on him and pushed a fence rail through him, and sent his remains home to his parents with the following legend upon the box: "Yes, it is hot enough."

He also said they were of the lower class and were naturally troublesome. Mr. Babbington says the people of New York are making strenuous efforts to have them sent back and occasionally succeed.

The district clerks of the state are in session at Chadron. Ed G. Hall, of Beatrice was elected chairman and A. G. Shears, of Dawes, secretary. Resolutions were adopted recommending the clerks at their next annual meeting to prepare a bill to be presented to the next legislature which will insure to the clerks as well as to the patrons of the office.

THE MEN ARE OUT

The Men in Carnegie's Union Mills Walk Out.

THE STRIKERS ARE NOT PLEASED

It is Reported That the Homestead Mills Will be Filled With Scabs

--The Carpenters Institute a Boycott.

HOMESTEAD, July 14.--While martial law has not been officially declared in this borough, it has taken place to all purposes. This was the result of an illegal arrest by the special policemen yesterday.

This morning two additional companies of troops, with twenty rounds of ball cartridges and fixed bayonets, were detailed to patrol the town. They were instructed, in case of arrest by the police for any manifest breach of the peace, drunkenness or the like, they were not to interfere, but in all other cases they are to take both the prisoners and police before the provost marshal, and if the arrest is illegal the policemen will be punished.

General Snowden puts it, euphemistically, by saying the military will co-operate with the civil authorities in preventing illegal arrests and a somewhat more certain preservation of the peace.

MARTIAL LAW.

It was reported this morning that the town had been officially declared under martial law and the strikers were not at all pleased when they heard it, as they thought it presaged an immediate attempt to run in non-union men.

THE STRIKERS ARE NOT PLEASED.
There is an unusual number of men in the mills to-day, but whether they are non-union men was not learned.

The locked out men are not pleased entirely with the action of Carnegie's men in the other mills, threatening to strike unless a conference is granted the Homestead men, as they believe the others can do them more good in case of a long struggle by remaining at work and helping them financially.

The Men Are Out.

PITTSBURG, July 14.--The employes in the Carnegie upper and lower union mills of this city struck at noon and the gas is turned off in the furnaces. By 3 this afternoon the men in all departments will be out and the mills shut down. The men struck because the company refused to confer again with the Homestead men.

Nothing is heard from the Beaver Falls plant, but the men have probably struck there, too.

Arrival of Non-union Men.

HOMESTEAD, Pa., July 14.--It is announced at half past two this afternoon that a special train with 400 non-union men will arrive in Homestead. The strikers say that no attempt to prevent their entry will be made.

Carnegie's Iron.

PHILADELPHIA, Pa., July 14.--At a meeting of the building trades union last night resolutions were offered by General Secretary McGuire of the carpenters and joiners of America to the effect that the carpenters will not work on any building where the structural iron is furnished by Carnegie.

They are Closed.

PITTSBURG, Pa., July 14.--This afternoon the members of the amalgamated association, employed in Carnegie's union iron mills at Twenty-ninth and Thirty-third streets, carried out their threat to stop work unless a conference was opened by Chairman H. C. Fink with the Homestead workmen.

LEAVE THE MILLS.

Shortly after 12 o'clock as their heats were run the men began leaving the works in squads. By five o'clock the mills were practically deserted. The move was in sympathy with the locked out men at Homestead and independent of the amalgamated association, the strikers voluntarily forfeiting any claim upon the association's treasury in the nature of strike benefits or financial assistance. The men do not fear their places will be filled by "black sheep," and have no idea when they will be ready to return to work. This is the busiest season of the year for these mills and builders will be especially affected by the strike.

SHAKING HANDS AND DEPARTING.

Superintendent Dillon shook hands with many of the men as they left, expressing regret at the course they had adopted. He could give no information as to the course the company would pursue. The laborers will be kept at work a few days longer. It is said that lumber wherewith to build a high fence

about the upper mills has been ordered and will be put up at once.

WILL NOT BE AFFECTED.

Superintendent Tate of the Keystone bridge works says that the bridge works will not be affected by the strike at the other mills.

Important Bearing.

HOMESTEAD, July 14.--A meeting of the foremen, superintendents of departments and boss mechanics of the Carnegie mill was held to-day and action was taken which will have an important bearing on the situation. These men are not on a strike and they have not taken any action favorable to the workers. Today they resolved they would not operate the works under an armed guard. This decision practically means that the mills will not be run with non-union labor and the Carnegie company must settle with its Homestead men before resuming operations.

Mrs. Geo. Woods and Mrs. Cassel of Weeping Water are the guests of Mr. and Mrs. Timothy Clark.

"Persons having normal vision will be able to read this print at a distance of 14 inches from the eye with ease and comfort; also will be able to read it with each eye separately. If unable to do so your eyes are defective and should have immediate attention. When the eyes become tired from reading or sewing, or if the letters look blurred and run together, it is a sure indication that glasses are needed. The lenses sold in the cheap goods are of unequal density and have imperfectly formed surfaces. Continued use of these poor lenses will result in positive injury from the constant strain upon the muscles of accommodation to supply the defects in the glass."

Dr. Shipman will test your eyes free and fit you with perfect lenses in gold, silver, steel, zynolite or rubber frames.
