

All alone,
both in the way it acts, and in the way it's sold, is Dr. Pierce's Favorite Prescription for women.

It acts in this way:
If you're weak or "run-down," it builds you up; if you suffer from any of the painful disorders and derangements peculiar to your sex, it relieves and cures. It improves digestion, enriches the blood, dispels aches and pains, brings refreshing sleep, and restores flesh and strength. For all functional weaknesses and irregularities, it's a positive remedy. Hence,
It's sold in this way:
It's guaranteed to give satisfaction, in every case, or the money paid for it is refunded.

They're the smallest, the cheapest, the easiest to take.
But all that would be nothing, if they weren't also the best to take.
Dr. Pierce's Pleasant Pellets prevent and cure Sick Headache, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach and bowels.

HOW WAGES GO UP.
New York Press: In 1890 the day wages of the Mason Machine works, at Taunton, Mass., one of the largest iron mills in New England, averaged \$1.05 per day of eleven hours' work, or 9.54 cents an hour. Now they average \$1.71 per day of ten hours' work, or 17.1 cents per hour.

The silver bullion now in the treasury would if coined produce \$102,055,000. According to the director of the mint it would take nearly two years and a half to coin this bullion, without doing any other coinage. The estimated stock of silver in the world outside of the United States is more than sixty times the amount of bullion in the treasury. Suppose we had the free and unlimited coinage of silver the government could not, with its present mint facilities, supply silver money to the people as rapidly as the increase of currency goes on under existing conditions. The capacity of the mint is only about \$40,000,000 annually, and the addition to the currency during the fiscal year ended June 30 was \$103,000,000. The people who are calling for more circulation would not find their demand met by free silver coinage.—Omaha Bee.

GROVER and Steve ran o'er the Hill
To get Uncle Sam's daughter;
But, mind you all, June is not fall—
As yet they haven't caught her.

THE democrats are surprised at the high wages which workmen obtain in Pennsylvania iron and steel mills. On the labor question democratic talk far outranks democratic knowledge.

STEVENSON can't dodge his record by having a few of the democratic editors say he was no more of a copperhead than Cleveland. An out and out rebel would run better than a copperhead in any northern state.

MR. JOHN ROSS presents the Herald this week with a pottery log cabin, surrounded with stumps, an old-fashioned woodpile, coon skins nailed to the logs, and a rabbit in the yard. It is a most complete Harrison cabin and will last for generations.—Indianola (Ia.) Herald.

THE Journal thinks because we told a few facts about Stevenson, Cleveland's running mate, that we were throwing mud. No, Bro. Sherman, we do not throw mud, but when the democrats put up such men as Adlai Stevenson we have got to tell the truth, no matter whose foot is pinched.

THE most conservative estimates put the wheat yield this year at 550,000,000 bushels and the corn yield at 700,000,000. This is a falling off from 1891 on both cereals, but that year was the only one in which the wheat crop exceeded this estimate. Apparently this is going to be a pretty fair year for the farmers.

WITH the same brutal temper and contempt that it pronounced the war for the Union and the constitutional amendments null and void, the democratic party now denounces and opposes every attempt to secure an honest ballot in the south. In denouncing the so-called "force bill" the Chicago convention displayed thoroughly characteristic language and temper. Read the plank in question and note how the bully insolence of slave days survives in the democratic party and speaks in its platform.—Indianola (Ia.) Herald.

SOMEONE asked Lincoln during the war if God was on his side, and he answered in that shrewd, simple way of his, "It has never occurred to me even to raise the question as to whether God is on my side in this great conflict. The only thing I am anxious about is to find out where God is and get on his side." Most of the world is engaged in a struggle to get God to come over to them. What we want to do in regard to these great questions of right and wrong is simply to study and find out where God is and become his allies. I don't believe that man has a soul. I believe that man is the soul, and he has a body.—Clipping.

A WISE PROVISION.
Thomas A. Webb, a pearl button manufacturer, has just purchased a large property in Newark, N. J., for the erection of a new factory. Mr. Webb says that the new structure is entirely owing to the McKinley bill. "When the bill was passed," said Mr. Webb, "there were twelve or thirteen manufacturing plants in the country, with an average of from eight to twelve operators. Now there are about sixty plants, with an average of from fifty to sixty workmen. My own business began with eight workmen, and I now employ 103. When the new factory is completed I shall have nearly 300. My orders now amount to between \$150,000 and \$170,000 yearly. Before the McKinley act I did well with \$2500." The wages of pearl button makers were formerly \$8, \$10 and \$12 a week. They now earn \$18, \$20 and \$22, according to skill, and it is the republican policy of protection that has caused this remarkable increase in wages, with only a fragmentary increase in the cost of tin, which will quickly disappear, establishing a lower rate than ever prevailed in this country, while maintaining the advance in wages.

Surely the advance in the duty upon imports was a wise provision of law.

Financially Embarrassed
A large manufacturer, whose affairs were very much embarrassed and who was very much overworked and broken down with nervous exhaustion, went to a celebrated specialist. He was told that the only thing needed was to be relieved of care and worry, and have change of thought. This doctor was more considerate of his patient health than of his financial circumstances. He ought to have advised him to use Dr. Miles' Restorative Nervine, the best remedy for nervous prostration, sleeplessness, dizziness, headache, ill effects of tobacco, coffee, opium, etc. Thousands testify to it. About What to Eat.
If asked what I would place of highest importance in family diet I would answer without hesitation abundance of fruit. The apple is far more invaluable than we have yet estimated. It should be eaten before meals, and not after. Not a member of my family, myself included, but eats one, two or more before breakfast so long as they are obtainable, and as many before dinner—about half an hour before the meal. As soon as the fruit is begun we stop all study or work, and spend the half hour in sport or walking or conversation.
After meals we rest in the same manner for one hour. No child is allowed to study during this time. Nothing is lost, for the head is thus kept out of conflict with the stomach. Cereals, next to fruit, are of prime importance. I recommend highly such preparations as parched farinae—any food where the cooking is done before the grinding. Goia and granules are of this sort. As for meat, it must be at each one's option. To be sure, but let us be sparing in our carnivorous tastes.—St. Louis Globe-Democrat.

Fraudulent Jewels.
Since solutions of aniline dyes possess the property of imparting to genuine jewels as well as glass paste a deep, rich color if left long enough immersed in them, and since they possess also the property of imparting precisely the characteristic color of a genuine jewel, the swindler has it not only in his power to dye out glass paste, but also inferior cut gems, of the color of a ruby, an emerald or a sapphire, since fuchsine is the handsomest ruby red shade, while bleu de Paris imitates absolutely that of the sapphire, and aniline green that of the emerald.
Such a fraud, however, can be made still more complicated by using genuine oil colored rubies, sapphires or emeralds and dyeing them with the corresponding aniline dyes, thereby raising their value tenfold. It is exceedingly difficult to recognize this fraud, because the color of such a well corroded jewel can no longer be washed off, even with hot water. Only the bleaching power of sunlight might after a time assist in revealing the swindle.—Jewelers' Circular.

The constant demand of the traveling public to the far west for a comfortable and at the same time an economical mode of traveling has led to the establishment as what is known as Pullman Colonist sleepers.
These cars are built on the same general plan as the regular first-class Pullman Sleeper, the only difference being that they are not upholstered.
They are furnished complete with good comfortable hair mattresses, warm blankets, snow white linen curtains plenty of towels, combs, brushes etc., which secure to the occupant of a berth as much privacy as is to be had in first class sleepers. There are also separate toilet rooms for ladies and gentlemen, and smoking is absolutely prohibited. For full information send for Pullman Colonist Sleeper leaflet. E. L. In Paint the best is cheapest—Strictly Pure White Lead
is best; properly applied it will not scale, chip, chalk, or rub off; it firmly adheres to the wood and forms a permanent base for repainting. Paints which peel or scale have to be removed by scraping or burning before satisfactory repainting can be done.
In buying white lead it is important to obtain that which is genuine, strictly pure, and properly made. Time has proven that white lead made by the "Old Dutch" process of slow corrosion possesses qualities that cannot be obtained by any other method of manufacture. This process consumes four to six months time, and produces the brands that have given White Lead its character as the standard paint.

"SOUTHERN" "COLLIER" "RED SEAL"
are standard brands of strictly pure Lead made by the "Old Dutch" process. You get the best in buying them.
For sale by all first class dealers in Paints. If you are going to paint, it will pay you to send to us for a book containing information that may save you many a dollar; it will only cost you a postal card to do so.
