

Dr. Pierce's Golden Medical Discovery. In a way, that you understand, too, by purifying the blood. When you're weak, ill and languid, or when blotches and eruptions appear—that's the time to take it, no matter what the season. It's easier to prevent than have to cure.

For all diseases caused by a torpid liver or impure blood, Dyspepsia, Biliousness, Scrofulous, Skin, or other Diseases—even Consumption or Lung-scrofula, in its earlier stages, the "Discovery" is the only remedy that's guaranteed. If it doesn't benefit or cure, you have no money back. You pay only for the good you get.

The proprietors of Dr. Sage's Catarrh Remedy lose \$500 if you're not cured of Catarrh. They promise to pay you that if they can't cure you. What do you lose by trying it? Is there anything to be lost, except your Catarrh?

CONGRESSIONAL CONVENTION.
The republican electors of the First congressional district of the state of Nebraska are requested to send delegates from the several counties comprising said district to meet in convention in the city of Nebraska City, Thursday, July 28, 1892, at 9 o'clock p. m., for the purpose of placing in nomination a candidate for member of congress for said district and for the transaction of such other business as may come before the convention.

THE APPOINTMENT.

The several counties are entitled to representation as follows, being based upon the vote cast for Hon. W. J. Connell for congress in 1890: One delegate for each 100 votes and major fraction thereof and one delegate-at-large from each county.

Counties, Delegates.	Counties, Delegates.

It is reported that Stevenson never uses profane language, but he uses other language just as objectionable.

THE independents will nominate Van Wyck for governor and the fun will begin, as their party paper at Lincoln has sworn eternal war on Van Wyck.

It may be well to remind the democrats who have so much to say about the Homestead affairs, that there were more strikes while Cleveland was President than during any other four years of our history.

YES, it is true that the employee has the same rights that the employer has, but this does not include authority to assassinate a man because he happens to be an employer instead of an employee.

THE statement made by some of the democratic papers that the Homestead strikers are "forcibly deprived" of their rights is all nonsense. They voluntarily relinquished all their rights in the case when they left the service of their employers.

PEPPER'S latest freak is the introduction of a bill in the senate prohibiting the coinage of gold in the mints of the United States. This almost equals his efforts to abolish poverty, and entitles the whiskered Kansan to a place in the front rank of the party of the cranks.—St. Joseph Herald.

THE FLAG ON THE SCHOOL-HOUSE.

I rejoice in nothing more than in this movement recently so prominently developed of placing the starry banner above every school-house. I have been charged with too sentimental an appreciation of the flag. I will not enter upon any defense. God pity the American citizen who does not love it, who does not see in it the story of our great free institutions and the hope of the home as well as of the nation, and I think, notwithstanding perhaps a little too much tendency to note in our public schools, that it is still true that our teachers, and especially the women, are not without sentiment.—President Harrison at Saratoga.

FRICK SHOT.

Last Saturday afternoon an anarchist from New York City by the name of Berkman attempted to assassinate H. C. Frick, the manager of the Carnegie Company.

From what evidence we can gather it appears that he had been at Homestead but a few days and that he was the employee of a sewing machine company of New York. It also appears that he had frequently been in the office of Mr. Frick, where he was admitted without question. A fair inference from these facts is that Berkman had conceived a fanatical idea, engendered perhaps by a familiarity with nihilism, that he had a mission as an avenger, and believing that the Carnegie company was likely to be successful in the contest with its men proceeded to execute his self-appointed errand.

It also appears the fellow went prepared to kill Frick and then if captured to kill himself as he chewed giant powder caps and had to be choked before he would spit them out if they had exploded in his mouth they would have killed him.

Mr. Frick was shot twice in the neck and stabbed three times in the body but will recover.

A FARMER ON MONEY.

"I am a farmer and do not know much about politics, but I do see some serious flaws in the free silver bill. The aim of the friends of silver is to raise the price of that metal by putting government credit behind it. Now, my county does not produce an ounce of silver nor an ounce of anything valuable in the mineral line. If the price of silver is advanced artificially, will it not take more of our timber, more pigs, more corn, more calves to get it? Are dollars to be made more plentiful? How? I know of just one way to get dollars, and that is to find some man who has dollars and who wants something he does not have, more than he does his dollars, and who will give me his dollars for something which I prize less than I do his dollars. In other words, I trade my labor, my pigs, my cotton, my cows for the dollars of some man who needs labor, pigs, cotton, or cows more than he needs dollars.

"Now, if two employers are after one laborer, as in Montana, wages are high; if two laborers are after one 'boss,' as in some large cities of the east, wages are low; if two pigs are after one dollar, pigs are low; if two dollars are after one pig, pigs are high. If dollars, of whatever kind, get so abundant that three or four of them get after one pig, pigs will go very high; and if dollars

reach the point where they are made by the million out of silver, and copper, and tin, and represent nothing but themselves, pigs may be expected to hesitate before they will trade themselves off for something as common as leaves in October, and it will take a great many more 'dollars' to get one pig than it would take if the pig had no question of their value. But these extra dollars will do the man who sells the pig no good, because the man who sells spools of thread and calico will want more of them for his goods. This happens, not because the pig and calico are worth more but because the 'dollars' are worth less. I respectfully urge that a far more popular measure will be the passage of a law making nine eggs a dozen."

Fell Dead.

These words are very familiar to our reader, as not a day passes without the report of the sudden death of some prominent citizen. The explanation is "Heart Disease." Therefore beware if you have any of the following symptoms: Short breath, pain in side, smothering spells, swollen ankles, asthmatic breathing, weak and hungry spells, tenderness in shoulder or arm, fluttering of heart or irregular pulse. These symptoms mean heart disease. The most reliable remedy is Dr. Miles' New Heart Cure, which has saved thousands of lives. Book of testimonials free at F. G. Frick & Co., who also sell the New Heart Cure.

The following item, clipped from the Ft. Madison (Iowa) Democrat, contains information well worth remembering: "Mr. John Roth of this city, who met with an accident a few days ago, spraining and bruising his leg and arm quite severely, was cured by one 50-cent bottle of Chamberlain's Pain-Balm." This remedy is without an equal for sprains and bruises and should have a place in every household. For sale by F. G. Frick & Co.

Cholera infantum has lost its terrors since the introduction of Chamberlain's colic, cholera and diarrhea remedy. When that remedy is used and the treatment as directed with each bottle is followed, a cure is certain. Mr. A. W. Walters, a prominent merchant at Waltersburg, Ill., says: "I cured my baby boy of cholera infantum after several other remedies had failed, the child was so low that he seemed almost beyond the aid of human hands or reach of any medicine." 25 and 50 cent bottles for sale by F. G. Frick & Co.

The constant demand of the traveling public to the far west for a comfortable and at the same time an economical mode of traveling has led to the establishment of what is known as Pullman Colonist sleepers.

These cars are built on the same general plan as the regular first-class Pullman Sleeper, the only difference being that they are not upholstered. They are furnished complete with good comfortable hair mattresses, warm blankets, snow white linen curtains plenty of towels, combs, brushes etc., which secure to the occupant of a berth as much privacy as is to be had in first class sleepers. There are also separate toilet rooms for ladies and gentlemen, and smoking is absolutely prohibited. For full information send for Pullman Colonist Sleeper leaflet. E. L. A Monster Structure.

I spent a long time in wandering about the Manufactures building. It is the biggest building ever planned, and it will have one roof covering thirty acres. Senator Ingalls came out and looked at it the other day, and as he gazed, astounded at its immensity, he said: "It is an exhalation! Yesterday it was not, today it is and tomorrow it will have passed away. I can see how you can fence it in, but to roof it almost surpasses human conception!" Think of putting a massive glass and iron roof over a thirty acre field! That is what the men are doing here today, and I saw them at work putting up the great iron trusses which will support this roof.

You cannot conceive the size of this structure without seeing it. Three hundred thousand people could be seated on the floor and in the galleries, and 80,000 could be seated on the floor alone. The Coliseum at Rome, with all its galleries, could only seat 87,000 people, and it was never roofed except with canvas. You could put four coliseums on that floor, and two pyramids as big as Cheops would sit upon it side by side and leave room for the Capitol at Washington. If the great pyramid was taken to pieces and carried here its material could be stored in this building and you could look down upon its masses of stone from the galleries.

This building is about a third of a mile long. Thirty great staircases, so wide that two carriages could be driven up them side by side, will lead to wide galleries and there will be a street fifty feet wide running through the center. With its galleries it will have forty acres of floor space, and it tires one even to think of its possible contents.—Chicago Cor. Lancaster Examiner.

Electric Light on Battlefields.

The ubiquity of electricity is becoming almost proverbial. From the "brightest spot on earth" to the blood-stained battlefields is rather a far cry, but there is no end to the application of electricity. A recent telegram from Austria described some experiments of great interest which have recently been carried out successfully there. The difficulty of searching for the wounded on the night after a great battle has been one which has long occupied the attention of military reformers, and the army medical service in Austria has been endeavoring to determine how far the electric light may be utilized for this humane end.

The value of powerful search lights with reflectors has been proved in naval affairs, and at Snakin and elsewhere soldiers have found them very effective on open ground. They would be equally effective under similar conditions for assisting in picking up the wounded, but when the battle has raged over a wide extent of country, or when the fighting has occurred amid woods and brushwood, the use of this class of light is attended with difficulty.—Electrical Review.

A Dog's Political Preferences.

Out at Abilene the man who runs a transfer wagon and smashes the drummers' trunks owns a dog. He is just a common, old fashioned cur. But the dog votes, and votes right. His master every morning upon the arrival of the Texas and Pacific train gets his dogship to show off before the crowd. "Do you vote for Clark?" the canine is asked. He rises up on his hind feet, his front ones high in the air, his body perfectly erect and nods his head. "Do you vote for Hogg?" the master inquires. The dog gets down flat upon the floor and buries his face in his front legs, the very picture of negation. These daily performances have come to be well advertised in Abilene and always draw a crowd. Should Judge Clark be successful that dog will be installed in state at Austin next January, and for two years at least will be the best fed animal in Texas.—Dallas News.

A Boiling Hole.

In Noble county, W. Va., there is a fathomless sea, composed of salt water and oil, from which gas escapes with a tremendous roar. Twenty years ago a well was drilled there to the depth of 1,900 feet. Some years later water and gas escaped from the hole with great pressure, tearing out the tubing and cutting a cavern apparently hundreds of feet deep and forty feet in diameter. After it ceased to flow a farmer filled it up and built a barn over it, and again a few days ago a terrific report announced another explosion of the well, oil and water pouring out in abundance. In a single day the hole became fathomless and about forty feet wide.—Chicago Herald.

An Animal Tramp.

Mark Twain made the coyote famous—or notorious, if you please. In "Roughing It" the poor animal is described as the sneak thief of the plains, a tramp of the desert. Whether he is as bad as he is painted or not, the California legislature has put a price on his head. As a result within the six months just passed 20,299 of these lank animals have been killed in the Golden State at a cost to the government of \$101,995.—Kansas City Times.

Will Be Heard All Over Paris.

A monster bell, one of the largest of its kind, specially cast for the new Church of the Sacred Heart on the heights of Montmartre, has been completed at Amey, in Savoy. This immense instrument, which, when hung in its lofty position, will be audible all over Paris, weighs, with its clapper, nearly twenty-five tons.—Paris Cor. London Telegraph.

An Earnest Student.

Strictly Pure White Lead
is the Best Paint.

Care is necessary though, to obtain strictly pure, as the market is flooded with so-called Pure White Leads that in reality contain but very little white lead.

The following analyses of two of these misleading brands show the exact proportion of genuine white lead they contain. The analyses describe the labels and brands on the packages and give the contents as follows:

Misleading Brands	Materials	Proportions	Analyzed by
"C. F. Lawson & Co. Strictly Pure White Lead." Red label, with brush, on which is printed, "Guaranteed to be strictly pure. Forfeited if adulterated."	Barytes Oxide of Zinc White Lead Calcium Carbonate	58.10 per cent. 24.90 per cent. 13.50 per cent. 3.50 per cent.	J. Fiebing, Milwaukee.
"Masury's Railroad White Lead." White label, marked "Railroad White Lead, 25: pure." John W. Masury & Son, New York and Chicago, warranted superior.	Oxide of Zinc Barytes	55.70 per cent. 44.30 per cent.	Ledoux & Co., New York.

We have a book which gives the analyses of a large number of misleading brands. If you are going to paint it will pay you to send for it.

In Painting
use strictly pure White Lead (see that you get either "Southern," "Collier," or "Red Seal"), tint it with the National Lead Co.'s

Fail to do Our Duty.

Everybody has at times failed to do their duty towards themselves. Hundreds of lady readers suffer from sick headache, nervousness, sleeplessness and female troubles. Let them follow the example of Mrs. Herbert, Stevens Point, Wis., who for five years suffered greatly from nervous prostration and sleeplessness, tried physicians and different medicines without success. But one bottle of Dr. Miles' Nervine caused sound sleep every night and she is like a new person. Mrs. Elizabeth Wheeler, Laramie City, Wyoming, who tried all other remedies, declares that after three weeks' use of the Nervine for headache, nervous prostration, etc., she was entirely relieved.
