WEDNESDAY, JULY 27, 1892

REPUBLICAN NATIONAL TICKET.

For President **BENJAMIN HARRISON** of Indiana.
For Vice-President **WHITELAW RIED** of New York.

REPUBLICAN STATE CONVENTION.

The best thing to do is this: when you're suffering from Sick or Bilious Headaches, Constipation, Indigestion, Bilious Attacks, or any derangement of the Liver, Stomach, or Bowels, get something that relieves promptly and cures permanently. Don't shock the system with the ordinary pills—get Dr. Pierce's Pleasant Pellets.

They're the smallest, for one thing (but that's a great thing), and the easiest to take.

They're the best, for they work in Nature's own way—mildly and gently, but thoroughly and effectively.

They're the cheapest, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get.

What more can you ask? But don't get something that the dealer says is "just as good." It may be better for him, but it's pretty certain to be worse for you.

PLATTSMOUTH, NEBRASKA

JOHN A. DAVIES made a rattling speech yesterday at the convention on the silver question.

POLK was at Weeping Water yesterday making hay, as he says, while the sun was shining.

It was really too bad, after Polk had promised Field the Cass county delegation, to have it go to Chapman unanimously.

JUDGING from President Harrison's speech to the teacher's association at Saratoga the other day, the coming campaign will be another educational one.

The congressional delegates from this county go to the convention instructed to use all honorable means to secure the nomination of Hon. S. M. Chapman for congress.

The Omaha Public, the official organ of the farmers' alliance, is making a big bid for the Bohemian vote, as evidenced by the article they published Monday concerning the picnic.

EDITOR POLK of the News was at Weeping Water yesterday using his influence (?) to send the Cass county delegation to Nebraska City instructed for Field. He suffered an ignominious defeat.

The delegates to the state convention are instructed to do all in their power to secure the nomination of Lawson Sheldon for governor. Mr. Sheldon has been a resident of Cass county for a number of years, has served his county in the house of representatives, is well qualified for the office and if nominated would be elected. He is also one of the foremost farmers in the county and would beat Van Wyck so bad he would not be had been running.

A DEMOCRATIC organ piously remarks: "God reigns and all will be well." That is the reason why democracy has done so little reigning for the past thirty-two years. The mission of the United States has not yet ended, as democrats have fondly hoped, and tried to enforce, by all the engines of war within reach thirty and more years ago. The idea that such a party—the nation's destroyers—are now its exclusive patriots and most hopeful defenders is a perversion of all history and an insult to the nation's living and dead.

It turns out that Private Iams of the Pennsylvania guards, who was half-shaved, hung up by the thumbs until he fainted, and then drummed out of the regiment, was not court-martialed at all for his offense of huraubing for the would-be assassin of Manager Frick, but the punishment was inflicted by the colonel of his regiment, Streator, on his own responsibility. The public sentiment is very strong against the thumb hanging business, and the colonel will doubtless be court-martialed himself for his savagery. Putting people to the torture is a relic of barbarism that will not stand for proper military discipline these days. There was enough of this brutality during the civil war to last for the entire century.—Lincoln Journal.

FACTS AND PLATFORMS.
"Since the McKinley bill went into operation," says the national platform of the democratic party, "there have been ten reductions of the wages of laboring men to one increase."
We quote from that eminently democratic journal, the New York World:
"FALL RIVER, Mass., July 13.—The Cotton Manufacturers' association voted to pay all day help employed in the mills for fifty-eight hours' work the same wages heretofore paid for sixty hours. All the operators employed on piece work were advanced 3 1/2 per cent. The new list will go into effect from July 11."

From the same issue of the World we also quote:
"Otis Brothers, elevator manufacturers, signed an agreement yesterday with the Elevator Constructors' union granting the shorter work-day from August 1. The men will receive the same pay for eight hours that has been given for nine, and double pay for overtime."

Here are two very recent cases of increased wages "since the passage of the McKinley bill." Will some member of the democratic committee on resolutions, or some newspaper that approves the resolutions, mention twenty reductions of wages to offset these two increases? Can even two parallel reductions be mentioned?
The platform already is tumbling to pieces by reason of rottenness of its timbers.

OPPOSED TO UNION LABOR.
The Alton (Ill.) Telegraph says: "The non-union miners now employed in Adlai Stevenson's coal mines, to the number of 300, called

upon him yesterday and tendered him their congratulations upon his nomination to the vice-presidency. Mr. Stevenson made a speech thanking them for their call. Mr. Stevenson has not for years permitted a union miner to work on the premises."

The insincerity of the democratic papers in making their howl against Whitelaw Reid, in their attempts to prove that he is not favorable to union labor, has been proven on many previous occasions. The whole controversy has only developed the fact that he has yielded to every just demand made upon him in the name of labor, and has indeed assisted the laborers of the country on many occasions.

But now it comes to light, as in the article quoted above, that Adlai Stevenson, the associate of the "stuffed prophet," has never yielded a point to labor, that he has never countenanced a union laborer in his employ, and that he is opposed to unions on principle. It's an old saying that "people who live in glass houses should not throw stones," but it is none the less applicable in this instance. Democracy opened up its old mud cannons of abuse the moment the nomination was made. Without investigating its own weakness, it began to incense the union laborers of the country against Mr. Reid. As usual there was no truth in the accusation, yet it has brought out that Stevenson is a rank enemy of union labor, and that Reid is its friend. The result has been good indeed. Democracy has been censured out of its own mouth.

Wonderful Gains.
Dr. Miles' Nerve not only cures all nervous diseases, headache, blues, nervous prostration, sleeplessness, neuralgia, St. Vitus dance, fits and hysteria, but also builds up the body. "I am pleased to say that after years of intense suffering with nervous disease, headache and prostration, I tried Dr. Miles' Restorative Nerve, and in two weeks gained eight pounds in weight. I could not lie down to sleep, but now sleep perfectly easy, and am improving wonderfully. Cannot say enough for the Nerve.—Mrs. L. J. MILLARD, Dunkirk, N. Y." One customer used Nerve and gained fifteen pounds in flesh.—BROWN & MAYBURY, Cortland, N. Y. Trial bottles and elegant book free at F. G. Fricke & Co.

Colorado's Cool Retreats.
During the "tourist season"—from June until September—the Burlington route has on sale round trip tickets, at very reduced rates, to the principal resorts of Colorado.
To Denver, Colorado Springs, Manitou, Pueblo and Estes park (the most attractive spot in the whole state) particularly low rates are in force.

July and August are the best months in which to visit Colorado's unrivalled resorts, to all of which the Burlington, with its connections, offers unequalled service.
The local agent will be glad to give you any desired information.

Nothing New Under the Sun.
Not even through cars to Denver, Ogden, Salt Lake City, San Francisco and Portland. This is simply written to remind you that the Union Pacific is the pioneer in running through cars to the above mentioned points and that the present through car arrangement is unequalled. We also make the time. For details address any agent of the company, call on your nearest agent or write to E. L. LOMAX, G. P. & T. A. U. P., Omaha Neb.

Cholera infantum has lost its terrors since the introduction of Chamberlain's colic, cholera and diarrhea remedy. When that remedy is used and the treatment as directed with each bottle is followed, a cure is certain. Mr. A. W. Walters, a prominent merchant at Waltersburg, Ill., says: "I cured my baby boy of cholera infantum after several other remedies had failed, the child was so low that he seemed almost beyond the aid of human hands or reach of any medicine." 25 and 50 cent bottles for sale by F. G. Fricke & Co.

Oregon, Washington and the Northwest Pacific Coast.
The constant demand of the traveling public to the far west for a comfortable and at the same time an economical mode of traveling has led to the establishment of what is known as Pullman Colonist sleepers.

These cars are built on the same general plan as the regular first-class Pullman Sleeper, the only difference being that they are not upholstered.
They are furnished complete with good comfortable hair mattresses, warm blankets, snow white linen curtains plenty of towels, combs, brush etc., which secure to the occupant of a berth as much privacy as is to be had in first class sleepers. There are also separate toilet rooms for ladies and gentlemen, and smoking is absolutely prohibited. For full information send for Pullman Colonist Sleeper leaflet. E. L. LOMAX, General Passenger and Ticket Agent, Omaha Nebraska.

Don't Tobacco Spit Your Life Away.
Is the startling, truthful title of a little book just received, telling all about Notobac, the wonderful, harmless, economical, guaranteed cure for the tobacco habit in every form. Tobacco users who want to quit and can't, by mentioning THE HERALD can get the book mailed free. Address the Sterling Remedy Co., box 862, Indiana Mineral Springs, Ind.

How We Feed Other Nations.
The advance statement issued from the treasury department of the exports of domestic breadstuffs from the United States for May, 1892, furnishes much interesting information. As compared with May of last year, such exports have increased to an astonishing degree, being valued at \$109,956,984 in May, 1891, and \$272,476,023 in 1892.

Taking these two months, we find that with the exception of barley the exports of all the breadstuffs have grown enormously. For instance, corn, \$3,072,093, as against \$1,431,936; oats, \$473,052, as against \$12,232; rye, \$443,446, as against nothing; wheat, \$9,642,414, as against \$6,667,808, and so on. Not less interesting is it to notice which are our leading ports of export for breadstuffs. Of course New York takes the lead in this, there having been shipped from here breadstuffs to the value of \$8,568,810. During the same time there were exported from the following places breadstuffs valued as follows: Baltimore, \$3,163,500; Philadelphia, \$2,808,917; New Orleans, \$1,184,610; Boston, \$1,614,631; San Francisco, \$823,984; Duluth, \$458,278; Newport News, Va., \$325,271, and Chicago, \$244,974.

These shipments from Newport News were undoubtedly to the countries south of us, which, under reciprocity treaties, are taking more of our breadstuffs than formerly. But see how Duluth, "the zenith city of the unsalted seas," looms up as a place of export for breadstuffs, beating Chicago in this respect two to one.—New York Mail and Express.

The Largest Flower Known.
In Mindinao, the farthest southeastern island in the Philippine group, upon one of its mountains, the volcanic Apo, a party of botanical and ethnographical explorers found recently, at a height of 2,500 feet above the sea level, a colossal flower. The discoverer, Dr. Alexander Schadenberg, could scarcely believe his eyes when he saw amid the low growing bushes the immense buds of this flower growing like gigantic cabbage heads. But he was still more astonished when he found a specimen in full bloom, a five petaled flower nearly a yard in diameter, as large as a carriage wheel, in fact. This enormous blossom was borne on a sort of vine creeping on the ground.
The native who accompanied Dr. Schadenberg called it "bolo." The party had no scale by which the weight of the flower could be ascertained, but they improvised a swinging scale, using their boxes and specimens as weights. Weighing these when opportunity served, it was found that a single flower weighed over twenty-two pounds. It was impossible to transport the fresh flower, so the travelers photographed it and dried a number of its leaves to the heat of a fire.—Pearson's Weekly.

Why People Lose Weight in Sun.
To most persons the summer season is a time of excitement instead of quiet rest, as it should be. With the approach of warm weather most people begin to lay plans for vacations and enjoyments, and in a little while have worked themselves into a state of excited anticipation. Not only this, but they undertake excursions requiring considerable travel, either by land or water, so that during the heated term they have completely departed from the quiet paths of life trodden so steadily all the rest of the year.

Now it is a well known fact that the majority of people lose weight during the summer. This loss is generally accounted for by the smaller quantity of food consumed during warm weather, but we should say that the excitement incidental to vacations and traveling was as much responsible for it as the other. It is a question if our Indian summer, the most charming season of the year, would not make a better vacation period for the majority of people.—Boston Commercial Bulletin.

All in His Eye.
A man calling himself Dr. Henry visited the house of Mrs. F. K. Brewster, in Suffolk, Conn., on Thursday, and representing himself as the assistant of Dr. Morgan, of Boston, who had been treating her for an eye disease, announced that he was sent to perform an operation. Mrs. Brewster, who is seventy-five years of age, gave her consent. The bogus doctor said she had an abscess on the eye and he would remove it.
He produced an instrument, made two or three motions with it over the old lady's eyes and then exhibited in the palm of his hand as the removed abscess a substance which afterward proved to be beefsteak. Then he collected twenty-eight dollars from the old lady and left.—Hartford Letter.

A Glacier in California.
A glacier has been found in southern California, and now American pride ought to be satisfied. For many years tradition has told of such a phenomenon of nature, and recently an expedition was sent out to investigate the matter. The tradition was verified, for upon the levels of Greyback mountain, the greatest of the San Bernardino range, a glacier one mile long and on the average of 200 feet in depth was found. The icy mass, according to computations made, moves downward at the rate of forty-seven feet a year.—Los Angeles Herald.

Phosphate and Eggs.
A farmer of North Mahoning township, Pa., purchased some phosphate a few months ago. It was not all used and several pounds remained in a barrel, when a nest was made for a hen. The hen hatched thirteen chicks in sixteen days. Another hen was set at the same time, but it took her the usual time—three weeks—to bring out her brood.—Exchange.

A Clock on the Eiffel Tower.
The Eiffel tower is now the highest clock tower in the world. A gigantic clock has been placed on its second platform, and scientists daily and hourly take observations on the motion of the pendulum, it being their idea that the revolution of the earth on its axis may be visibly demonstrated by the experiment.—Paris Letter.

If Barytes and other adulterants of White Lead are just as good as
Strictly Pure White Lead

why is it that all the bogus and adulterated white leads are always branded "Pure," or "Strictly Pure White Lead?" No one ever puts a misleading brand on an article of merchandise, unless he wants to "work off" an inferior for a better.
This Barytes or Baryta, is a heavy white powder, worthless as paint; costing only about one cent per pound and is used to adulterate and cheapen the mixture. No one ever adulterates white lead with an article costing more than Lead.
If you purchase any of the following brands you are sure of having

Strictly Pure White Lead, manufactured by the "Old Dutch" process:
"SOUTHERN" "RED SEAL" "COLLIER"
For sale by the best dealers in paints everywhere.
If you are going to paint, it will pay you to send to us for a book containing information that may save you many a dollar; it will only cost you a postal card to do so.

Admitted the Facts.
Newspaper editors have to be very careful in opening their columns for statements. But aware that the Dr. Miles Medical Co. are responsible, we make room for the following testimonial from R. McDougall, Auburn, Ind., who for two years noticed a stoppage or skipping of the pulse, his left side got so tender he could not lie on it, his heart fluttered, he was alarmed, went to different doctors, found no relief, but one bottle of Dr. Miles' New Heart Cure cured him. The elegant book, "New and Startling Facts," free at F. G. Fricke & Co. It tells all about heart and nervous diseases and many wonderful cures.
3.

How's This!
We offer 100 dollars reward for any case of catarrh that can not be cured by Hall's Catarrh Cure.
F. J. Cheney & Co. Props, Toledo, Ohio.
