Multitude of People—Two
Hotels Burned at Pacific
Junction

A good sized crowd gathered at Rockwood Hall last night to hear Congressman Bryan attempt to disect Hon. R. G. Horr's speech.

Mr. Bryan was somewhat late but Hon. L. T. Gruing, county attorney of Mills county, Iowa, was introduced and entertained the audience in one of his familiar democrat-greenback speeches.

In the course of a short time Mr. Bryan made his appearance and at the request of Mr. Genung three cheers were given for the young man eloquent, but the cheers were not near as full grown as they should have been, taking into consideration from a democratic stand-point the important occasion.

Mr. Bryan was introduced by Chairman Deering and he attempted in a very feeble manner to reply to the speech of Hon. R. G. Horr.

For two hours Mr. Bryan exhorted to the audience from a democratic stand-point and instead of replying to Horr he only made votes for Field.

Mr. Bryan's speech was frequently punctuated with applause.

Joe's Opening.

As had been advertised for some weeks Joe's grand opening occurred last evening. Promptly at eight o'clock the Bohemian band made its appearance in front of Joe's store and played several pieces. The doors were then thrown open and the vast multitude of people passed in and examined his mammoth stock. Each gentleman was presented with a useful and ornamental souvenir in the shape of a pocket match safe.

A little over a month ago Joe was burned out and by grit and enterprise he has now as large a stock of foreign and domestic clothing as is carried in this city and at prices that defy competition.

To all the old customers and to all purchasers of clothing Joe extends a cordial invitation to call and examine his stock.

Pacific Junction Scorched.

Yesterday afternoon fire was discovered in the hotel owned by Mrs. Underwood of Pacific Junction, but the fire was beyond control before assistance could arrive, and gained headway enough to set another hotel on fire and also a small building. Both hotels were burned to the ground. The insurance will nearly cover the loss.

PEOPLE AND AFFAIRS.

There was great excitement in Louisville Sunday over the disappearance of Joseph Pettitt. As he left home Saturday morning and went fishing and did not come home that night the family became alarmed and supposed he was drowned in the Ohio. Early Sunday morning about fifteen or twenty men went in search of him. They found where he had set his fishing tackle but could find nothing of the missing man. After dinner the people turned out numerous and dragged the river, but still of no avail. About four o'clock yesterday afternoon some parties that had been over the river met the lonely fisherman. The parties told Mr. Pettitt that they supposed he was drowned in the Ohio. Mr. Pettitt said he had gone over the river and staid all night with Mr. Armstrong. The lone fisherman says that he has fished too long to be foolish enough to drown himself.

PLEASANT FAMILY REUNION.

At the reunion of the Rouse family at the residence of Mr. and Mrs. T. Sampson, two miles from Greenwood, last week there were three brothers and two sisters and one brother-in-law after a separation of forty-four years. Mr. Sylvester Rouse of Ohio came out to Kansas City on the excursion, and while there concluded, as his brother and sisters all lived in Nebraska, he would visit them, so arrangements were made by which they all could meet at one place together once more. Mr. John Rouse of Oberlin, Kan.; Mr. and Mrs. Cheuvront of Geneva, Neb.; Mrs. Hannah Cheuvront of Lincoln, Neb., and Mrs. James Rouse of Alvo, Neb., were immediately notified of the arrival of their brother and they all made haste to respond, arriving about the same time. This was a grand meeting after a separation of so many years, the youngest being 71 years old. After greeting they sat down to a table spread with all the good things the country could afford. There were as follows: Mr. James Rouse, 81; Mrs. Hannah Cheuvront, 81; Mrs. Polly Cheuvront, 79; Mr. John Rouse, 76; Mr. Sylvester Rouse, 71; Mr. Lemuel Cheuvront, 80; an aggregation of 471 years. After dinner the group drove up to town and had their pictures taken.

Lawyer James Mathews, wife and son of this city, were present. Mrs. Mathews is a daughter of James Rouse.

Pacific Junction Scorched.

Yesterday afternoon fire was discovered in the hotel owned by Mrs. Underwood of Pacific Junction, but the fire was beyond control before assistance could arrive, and gained headway enough to set another hotel on fire and also a small building. Both hotels were burned to the ground. The insurance will nearly cover the loss.

VERMONT'S STATE ELECTION.

The election throughout the state of Vermont passed off quietly yesterday. Forty towns give Fuller, (rep.) 7,235; Smalley, (dem) 2,724; Allen, (pro) 261; scattering, 332. The vote thus far shows a republican decrease of 1,570, or 20 per cent, and a democratic decrease of 5, or two-tenths of 1 per cent, compared with 1888. Compared with 1890 the republican increase is 1,177, or 19 per cent, and a democratic decrease of 230, or 7 per cent. If the vote remains relatively the same as in towns so far received, the republican majority in the state will be about 21,000. The vote from the largest towns has not yet been received.

NEARLY THREE THOUSAND DEATHS.

HAMBURG, Sept. 6.—Since noon yesterday, 674 new cases and 204 deaths from cholera have been reported in this city. According to the official figures there have been, since the outbreak of the disease in this city, 6,789 cases and 2,940 deaths. Little reliance is placed on these figures, however, as there is a suspicion that they do not show the full ravages of the disease.

NEBRASKA'S CHANCES.

CRETE, Neb., Sep. 6.—Weather crop bulletin No. 22 of the Nebraska weather service, issued from its central office, Boswell observatory, Dodge college, Crete, for the week ending Tuesday, September 6, says:

The past week has been slightly cooler than the normal, with an excess of rainfall in most parts of the state.

The temperature has been from 1 to 3° below the normal, except in the extreme northern part of the state, where it has been slightly above the norm.

The rainfall has been above the normal generally, except in the western part of the state, where it was below the normal.

The rainfall generally exceeded an inch and a half in the eastern part of the state, and varied from less than a tenth to about half an inch in the western part of the state.

The ground is now excellent condition for fall seeding, and some wheat has been sown and much ground plowed. Corn has made good progress, and with no frost for the next twenty days, will make a crop nearly up to the average.

Corn needs warm, dry weather to mature the crop rapidly.

BREAKS OUT AGAIN.Cholera Breaks Out on the
Stricken Ships.**CREMATING THE VICTIMS.**Additional Precautions Taken by
Officials to Prevent Further
Spread—No Communi-
cations Allowed.

QUARANTINE, N. Y., Sept. 6.—There were three fresh cases of cholera on board the Rugia this morning, and one death. Two new cases have been moved from Hoffman to Swinburn Island.

Additional precautions against cholera were instituted today. Heretofore the police patrol boats will circle night and day around the infected ships, cutting them off altogether from communications with the shore.

The new patrol officers had a busy first night's work at lower quarantine. The Washburg, a New York tug, made an effort to get alongside the quarantined steamer Normannia at daybreak and was chased off by the patrol. The matter was reported to Dr. Jenkins, who sent a request to New York to have the tug and her captain's licenses revoked, which will probably be done. The Washburg is the tug that has, it is said, made two successful attempts to communicate with the Normannia.

Watchers on Staten island say the fires of the crematory retorts on Swinburn Island were burning fiercely last night. From this it is judged the latest victims of the scourge were reduced to ashes during the midnight hours.

TRYED TO AVOID QUARANTINE.

WASHINGTON, D. C., Sept. 6.—Dr. Wymann was informed last night of what appears on its face to be a bold attempt to evade the quarantine regulations of the country. This information came in a telegram, dated, Virginia Beach, Va., and signed by J. M. Dickey, general superintendent of the Norfolk, Albemarle & Atlantic railroad. It said that the steamship Lord Bangor reported to be from England, at anchor about three miles, but attempted to land passengers by a small boat six miles south of Cape Henry in front of the Princess Anne hotel, but was prevented from coming to the hotel by Captain Payne of the life saving station.

Mr. Dickey asked if instructions could not be given to the life saving men to prevent vessels from landing passengers on the beach and scattering through the country. The collector of customs at Norfolk Va., was notified of this attempted action on the part of the steamer's officers and was requested to act in the matter.

NEARLY THREE THOUSAND DEATHS.

HAMBURG, Sept. 6.—Since noon yesterday, 674 new cases and 204 deaths from cholera have been reported in this city. According to the official figures there have been, since the outbreak of the disease in this city, 6,789 cases and 2,940 deaths. Little reliance is placed on these figures, however, as there is a suspicion that they do not show the full ravages of the disease.

NEBRASKA'S CHANCES.

CRETE, Neb., Sep. 6.—Weather crop bulletin No. 22 of the Nebraska weather service, issued from its central office, Boswell observatory, Dodge college, Crete, for the week ending Tuesday, September 6, says:

The past week has been slightly cooler than the normal, with an excess of rainfall in most parts of the state.

The temperature has been from 1 to 3° below the normal, except in the extreme northern part of the state, where it has been slightly above the norm.

The rainfall has been above the normal generally, except in the western part of the state, where it was below the normal.

The ground is now excellent condition for fall seeding, and some wheat has been sown and much ground plowed. Corn has made good progress, and with no frost for the next twenty days, will make a crop nearly up to the average.

Corn needs warm, dry weather to mature the crop rapidly.

Gored by a Bull.

Omaha Bee.

Bellin Rix, a prominent farmer residing near Bennington, was torn to pieces by a fierce bull on his premises yesterday morning. Shortly after breakfast he started for a walk around his farm. He was noticed an hour later by one of the hired men passing through a field in which the beast was kept. Later a neighbor called to see Mr. Rix on business and a search was made for him. He could not be found. At noon the man who noticed him passing through the pasture in which the bull was kept mentioned the fact. Without suspecting the awful fate of her husband, Mrs. Rix walked out to the field designated. She noticed some distance from the fence what appeared to be her husband's hat. Fearing to encounter the bull she returned to the house and sent the hired men to the field. An awful sight was presented. The farmer had been literally torn to pieces. The body had been gored and torn so terribly by the feet of the ferocious animal that it could only be identified by the fragments of clothing scattered around the scene. Mr. Rix was aware of the fierce nature of the beast, and certainly knew the danger incurred in entering the enclosure. It is supposed that the victim expected to be able to cross the field before the attention of the animal was attracted.

Fifty Years Together.

Jacob Vallery, sr., who has been identified with Cass county since 1856, and who has been the provider and protector of his wife for more than fifty years, was Monday the recipient—with his wife—of a big surprise party. A large number of friends and relatives called in the afternoon and enjoyed a big dinner and a social visit. In the evening a crowd of Plattsmouth friends and the Bohemian band went out and were entertained in royal style.

RINGLING BROS. CIRCUS.

The Great Aggregation to be exhibited in this city. The announcement that the Ringling Brothers' World's Greatest Shows, the largest and most extensive exhibition ever seen under canvas, is to be in Plattsmouth, Saturday, Sept. 24th, will be gratifying news to thousands to whom the fame of this aggregation is familiar and to other thousands who will welcome the opportunity to see it, all its magnificent completeness. This great aggregation requires three railroad trains to transport from city to city, while the exhibitions are given in three rings, on two elevated stages canvas pavilions ever erected. The menagerie is the most complete zoological collection in America, while the circus performance is a constant succession of wonders. The acrobats, gymnasts, aerialists and riders number over three hundred Europe and America's highest salaried artists; while the picturesque features of the exhibition embrace a realistic revival of the arena and hippodrome sports of ancient Rome, a magnificent spectacles, entitled Caesar's triumphal entry into Rome a series of thrilling hippodrome races, and an aggregation of other new, rare and striking features such as no other tented exhibition has ever presented to the public. The visit of the Ringling Brothers' great circus will be an event never to be forgotten in the history of this city.

Sunday evening while the good people at Dunbar were at church three young boys cut off some fifty ivory rings from the harness on their horses and stole about fifteen whips. Part of the goods were recovered yesterday and it is thought that the boys will be arrested and prosecuted.

THREE BROKE JAIL.

Three of the five prisoners confined in the Nemaha county jail at Auburn escaped at 1 p. m. yesterday by prying open a window frame which was composed of iron and wood. They were Perry Sumner, held for grand larceny; Ben Smith and Nelson Kinson, held for petit larceny; Johnson, held for murder, might have gone, but remained in the jail. The other remaining prisoner is a negro.

P. S. Barnes of Weeping Water, was in the city today transacting business in county court.

John A. McMurphy of Omaha was in the city over night and left this morning for Lincoln to attend the state fair.

COPYRIGHT 1892

A ringing noise
in the ears, headache, deafness, eyes weak;
obstruction of nose, discharge falling into throat, sometimes profuse, watery and acrid, at others, thick, tenacious, bloody and putrid; offensive breath; smell and taste impaired, and general debility. Not all of these symptoms at once. Probably only a few of them.

That's Catarrh.
A medicine that by its mild, soothing, cleansing and healing properties has cured the most hopeless cases. One that will cure you, no matter how bad your case or of how long standing. A medicine that doesn't simply palliate for a time, but produces perfect and permanent cures.

That's Dr. Sage's Catarrh Remedy.
A cash payment of \$500, not by you, as you might expect, but to you, if you can't be cured. It's an offer that's made in good faith, to prove their medicine, by responsible men, the proprietors of Dr. Sage's Remedy.

That's the kind of medicine to try.
Doesn't it seem so?
