### AND STILL THEY COME.

Two Steamers With Cholera on Board Arrive.

### THEIR GRAVES UNMARKED

The Yellow Flag also Floating From the Normannia and on Hoffman Island—Sandy Hook Will Be Used as a Refuge.

NEW YORK, Sept. 9.—The Hamburg-American steamship Wisland reached the lower bay this morning and anchored and hoisted the yellow flag, indicating that she had sickness, probably cholera, aboard. The Wisland, like the Rugia, carries both cabin and steerage passengers, and has her full complement of the latter.

There have been two deaths aboard the steamer Wyoming. Dr. Jenkins thinks the deaths are suspicious and has sent the mother of the two children to Swinburn island for investigation. Dr. Jenkins has also found two children and the mother of another family sick with cholera symptoms and sent them to the island. The immigrants came from Russia. The Wyoming will go back to lower quarantine and the steerage passengers will be landed on Hoffman island for observation.

The yellow flag has also been hoisted on board the Normannia, where so many saloon passengers are detained in spite of the fact that the scourge seems to be attacking the steamship's crew and steerage passengers only.

The yellow flag is also flying from the pole on Hoffman island.

Though the news that two more cholera ships were in port increases the gravity of the situation at quarantine, there is no alarm felt in official circles and the health authorities are still confident of being able to keep the dread invader from landing. Dr. Jenkins said last night there had been no new cases aboard the Moravia for several days and he was confident the disease had been stamped out aboard the vessel.

The British steamer Joseph John, which left Hamburg August 20, passed Sandy Hook for New York at 8:20. The vessel registers but 1,577 tons and is of the tramp species of steamer. She reports all well and no sickness aboard.

The White Star steamer, the Adriatic, which arrived at New York at 10:30, also reports all well.

215 cabin and 714 steerage passengers. All are well. She will probably go up tomorrow morning. The Spree is expected to go up late this afternoon. The Prince William, Saginaw and Asiatic went up today.

An appeal is today addressed to Governor Flower signed by a committee of passengers, first and second class, of the steamer Normannia protesting against being kept prisoners aboard that cholera infected ship. The petition is signed by a committee consisting entirely of physicians, and among other charges against Dr. Jenkins is the allegations that the health officers only visit the vessel every two or three days, make no systematic and regular inspection, and that dead bodies remain on the vessel a dangerously long time before removal by the health authorities.

Nothing can be said

in favor of the best medicine in the world that may not be said of the most worthless. In one case, it's true; in the other, it isn't—but how can you distinguish?

Judge by what is done. There's only one blood-purifier that's guaranteed. It's Dr. Pierce's Golden Medical Discovery—and this is what is done with it; if it doesn't ben or cure, in every case, you get y money back. Isn't it likely to be the best?

All the year round, as well at time as another, it cleanses and purifies the system. All blood-poison must go. For Dyspepsia, Bili-ness, Scrofula, Salt-rheum, Tet Erysipelas, or any blood-taint or order, it is an unequalled remedy.

It's the cheapest, too. With t you pay only for the good you go And nothing else is "just as goo It may be called—'the best'— But he don't the one that to help!
