## GRAND ARMY MEN HURT

Nebraska's Special Train is Wrecked in Ohio.

### A REAR END COLLISION.

James Carr Stricken With Cholera at His Mother's Home in New Jersey—Cholera Checked in New York.

KEST, O., Sept. 18.—A rear end collision of the first section of the Nebraska train and the Indiana train en route for Washington City occurred here on the Pennsylvania & Western division of the Baltimore & Ohio this morning. About a dozen people were injured. The excursionists provided cost after a four-hour delay. Several Nebraska Lincoln people were among those slightly injured. The list is: HENRY J. KNOPP, Elgin, Ill., cut about head.

MRS. JULIA M. RHODES of New Mexico, injured in face and internally.

UNKNOWN WOMAN, non broken and injured internally; unconscious when taken from the wreck.

MRS. ISABEL FELLER, Pawnee City, Neb., trampled on.

MRS. BOWEN, Lincoln, Neb., three fingers cut off and hands mashed.

P. J. HALL, Memphis, Neb., badly bruised and injured internally.

J. K. ERWIN, Elmore county, Neb., head cut.

JESSE D. SCOTT, La Fontaine, Ind., nose broken and arm injured.

All the injured were taken aboard the train and carried through to Washington. The blame for the collision has not been located.

### DID NOT INTERFERE.

FIRE ISLAND, N. Y., Sept. 18.—Not the slightest opposition was offered by the Isip health authorities or baymen to the landing of the Wyoming's passengers today. The belief among the military and civil officers in charge is that the hostile demonstrations made was due to the people not being acquainted with what had transpired during the early part of last week. They did not know that a resolution, of which copies were served yesterday, had been adopted on Tuesday immediately after the landing of the Normannia's passengers and that the Isip board of health had within a few hours announced that no further protest would be made. Suits to recover a penalty will be begun and the matter taken to the grand jury.

Dr. Voight and Manager P. T. Wall had the arrangements so complete for quietly and pleasantly locating the new arrivals that within an hour after landing everyone had possession of a room and had dined. Even those who had protested most against the removal here express satisfaction.

No sickness among the passengers is reported.

### NEW JERSEY HAS A CASE.

NEW BRUNSWICK, N. J., Sept. 18.—Captain James Carr, owner of the canal boat Henry Cahill, which is lying at the foot of Sixteenth street, New York, came to his mother's house, 12 John street this city, with his wife and sick child on Friday evening by the steamboat New Brunswick and was stricken with cholera this morning, and this evening is very low. The case is pronounced Asiatic cholera by Dr. Bala, who, inspector of the board of health.

The house has been quarantined and a pest house prepared for the patient, but it is thought he will die before he can be taken there. The city is in good sanitary condition. There is much excitement, but no panic.

NEW YORK, Sept. 18.—The board of health issued a bulletin this afternoon in which it was stated no cases of suspected cholera had appeared since the last bulletin and no deaths from cholera had occurred since Tuesday.

It reports that there is no reason to suppose the diagnosis of the attending physician in the case of Peter Callahan, a suspected case, to be correct, in that the death was due to diarrhoea and vomiting.

The report of the bacteriologists as to Mary McCormick, a suspected cholera case, is to the effect that no symptoms of cholera have been discovered.

Mayor Grant, Superintendent

Byrnes, President Martin of the board, and Dock Commissioner J. Sergeant Grand went down the bay this afternoon. At upper quarantine they were joined by Health Officer Jenkins and the party proceeded to lower quarantine and Camp Low at Sandy Hook.

### STANDOFF ARRIVES.

LUCY ALLEGHEINES KRANKHAUF, EPPENWORE, HAMBURG, Sept. 18.—I have been admitted to this hospital with permission to lead the same life as the cholera patients. I took up my quarters here this morning.

### STEARNS ARRIVES AT HAMBURG.

TWO were 24 cases and 112 deaths reported to the statistical bureau yesterday of which seventy-one cases and thirty-three deaths occurred on the previous days. The police copy yet 148 cases to the hospitals and buried thirty bodies. This is a good showing of a steady decrease of the epidemic.

Prof. Koch writes to the superintendent of the postoffice at Hamburg that, according to his knowledge, cholera has never been spread by letters or printed matter, and he considers sending such through the mails not dangerous. This ought to ease the minds of many people who are timid about receiving letters or other mail matter from cholera-infected places.

### GROVER AND ADAI.

A dispatch from Washington says that if anything was needed to arouse the indignation of the Grand Army of the Republic members now in Washington against the "military record" of General Adlai Stevenson, the democratic vice presidential candidate with Grover Cleveland, it was the publication of the dispatch from Middletown, Conn. Middletown is a great center for the manufacture of firearms and was during the war. The dispatch says that it has been discovered that in 1862 the Savage Arms company of Middletown shipped to the Knights of the Golden Circle at Columbus, O., 2,000 revolvers which were manufactured for the United States and thrown out by its agent as not being up to the required standard; that an examination of the records of the arms company discloses the fact that "General" Stevenson was one of those who stood responsible for the arms and was recognized as an agent for those to whom the revolvers were sent. The publication of this statement created considerable talk in Grand Army of the Republic circles and the democratic candidate for vice-presidency has come in for a good share of political condemnation. His record during the war, the veterans say, must have been known to Grover Cleveland, who hired a substitute and it has been said left him in the poor house at the close of the rebellion to die a pauper. Consequently the head of the democratic ticket also goes down at the foot of the list in the estimation of soldiers. The Middletown dispatch does not go into substantial details by which "General" Stevenson's name was connected with the shipment of arms, but it states that General Henry B. Carrington, who was Governor Morton's right-hand man at Indianapolis, discovered and confiscated the arms. It is believed here by Hoosier veterans that this was a part of the shipment of arms made to Indiana for the Knights of the Golden Circle. The publication has aroused indignation upon the part of the veterans toward both of the democratic candidates.

### The Reading Room.

The Y. L. R. K. A. intend to move the reading room from its present location to the upstairs rooms in the Union block fronting on Sixth street. The street entrance to the rooms is on Main street. In the new quarters the young ladies will have considerably more room, but they will be put to the expense of much furnishing. For this reason they ask the friends of the enterprise who are able to donate what they deem proper of anything which can be made use of, New carpets and matting will have to be furnished and chairs secured.

That the institution is one which does good and is worthy of help, it is not necessary to argue at the present time. This has been proven by the experience of the past, and THE HERALD hopes and believes that the citizens generally will act liberally toward the reading room.

The M. P. pay car visited Platts-mouth this morning.

## ANARCHISTIC BERGMAN.

Mr. Frick's Would-be Murderer's Heavy Sentence.

### TRIAL WAS VERY BRIEF.

Orders Have Been Given to Disinfect Hoffman Island De Byrnes's Favorable Report Other Notes

NEW YORK, Sept. 19.—The health board officials feel confident that cholera has been effectively checked in this city. Sanitary Superintendent Eison last night visited the infected houses and reported no indications, whatever, of any secondary cases.

The girl, Mary Connerty, will be discharged from the reception hospital in a few days. It is generally conceded in medical quarters that Mary was not a cholera victim.

Dr. Roberts quarantined the canal boat Henry Cahill, lying at the foot of West Thirty-first street, the captain and owner of which died at New Brunswick, N. J., last night of supposed cholera.

An inspector of the board of health left for New Brunswick this morning to procure the intestinal fluid from the body of Captain Carr. The fluid is wanted for bacteriological examination.

The health board this forenoon ordered the steamship Nevada, lying at the foot of West Twenty-fourth street, to be quarantined at her dock. John Knox, a fireman, died on board the ship last night from supposed cholera.

### AT QUARANTINE.

QUARANTINE, Sept. 18.—The day has been very quiet and unmarked by anything except the transfer of Wyoming's passengers on board the Cephus to Fire Island. It was stated that some of the passengers gave vent to their opinion of their treatment in very loud tones.

The steamer La Bretagne, which arrived from Havre at 3:54 this morning, carried 227 cabin passengers. She is likely to be detained for three or four days.

The steamer Norge, from Copenhagen, came into the bay with fifty-nine cabin and 700 steerage passengers. All reported well on both steamers.

Dr. Byrnes's report to midnight of the 17th was received from Swinburne Island at 11 this morning. It reads:

"One admitted, one died in hospital, three transferred to convalescent ward, ten sick patients and thirty-one suspects and convalescents."

Orders have been given to disinfect Hoffman island, now that the Wyoming's passengers have been taken off, so as to be in readiness for new arrivals.

The steamers Kugia and Suevia are now anchored off Stapleton. Dr. Jenkins having allowed them to come up. The Kugia will discharge her cargo into lighters tomorrow, and will then go back to Hamburg. The Suevia probably in a day or two will be allowed to come up, having no sickness on board.

Dr. Byrnes in his midnight census report from Swinburne island to Dr. Jenkins, says: "Dr. Abbott has just returned from the ships. He says all vessels O. K. He brought from the steamer Bohemia the body of a child which had died after a few hours' illness. No diagnosis. Will hold an autopsy and report to you as soon as possible. Our patients are improving rapidly. One new case of measles in our hospital. Census Admitted—Deen, three; transferred to Hoffman, five; to convalescent ward, one; transferred to sick ward, two, total sick eleven, suspects and convalescents twenty-five. The names of the dead are: Emil Taskowski, aged two years, from steamer Bohemia; Topy Radwitsky, aged two years; Nels Kellywell, 1 year from Wyoming."

### ANARCHIST BERGMAN GUILTY.

PITTSBURG, Pa., Sept. 19.—Alexander Bergman, the anarchist who tried to kill H. C. Frick, was placed on trial in the criminal court this morning. Bergman conducted his own case and pleaded not guilty. Frick took the stand and testified to the fact of the attempted assassination as already told in these dispatches. This evidence was corroborated by Vice Chairman Leishman, the only witness of the assault, and Dr. Litchfield described

the nature of Frick's wound. Bergman was perfectly cool during the proceedings of the trial, which was very brief, and the jury quickly found him guilty. He was then sentenced to twenty-one years in the penitentiary and one year in the workhouse.

### MURDOCK.

Mr. P. Eychland, his wife and the two youngest children started the 14th for Washington, D. C., to attend the National reunion. They will be gone some time, and will stop over to see some of their old friends in Ohio and Pennsylvania.

Mr. G. W. Mosker, cashier of the State bank of Murdock, moved his family here from Greenwood the 14th.

J. C. Eickhoff and his son Mathew, went down to Oklahoma Monday, the latter to stay and put in about 100 acres of wheat.

One may form some idea of the magnitude of the volume of business done at this station by the following: The charges for freight forwarded for August, \$3,225.27; for freight received, \$310.03.

The contract for painting our school house was let to Charles Van Every of Wabash, which insures good honest work.

H. Moyer is putting up a good-sized barn here in town.

There is some talk of a billiard hall and a saloon being started here before winter. Does Murdock need them? Why not have a butcher shop in place of them?

Wolf & Tool received four car loads of lumber inside of five days and are looking for more.

Work is pushed on Mr. Tool's house night and day to have it done so the family may get a decent home once more.

The carpenters commenced work on Mr. Wolf's residence, also on the new school house Tuesday.

William Schiefert treated himself to a very nice phonon, which he purchased of the Henney Buggie company, Freeport, Ill., at the state fair.

### Gossip Around Court Rooms.
