

CHAIRMAN GADY TALKS.

The Outlook Bright for the Entire Ticket.

THE CHOLERA IS CHECKED.

No More New Cases Reported Touching Incidents—Fired on by Guards—Reports From New York.

WHERE THE CHOLERA WAITS.

CAMP LOW, SANDY HOOK, N. J. Sept. 29.—All cases of cholera, or suspicious symptoms here, are isolated intents and not taken to the hospitals. The official census of the camp taken today shows: Commissioned officers, 4; warrant officers, 2; employees, including mechanics, 7; telegraphers and reporters, 18; passengers, 94; for which in the hospital, 7; dead, 2. Total passengers now alive, 942; total persons now in camp, 1943.

The medical summary shows: One death from cholera; one case, one death from peritonitis.

Mrs. Guteldoms, the woman who was suspected of having become infected with the disease, is now reported by Dr. Rauch, the consulting cholera expert, to be rapidly improving and to be on a fair way to complete recovery.

The dead now at the camp are: Francisco Moreno, aged 24 years, died at 10 p. m. yesterday, a passenger by the Rugia, cause, Asiatic cholera; Louise Scheidt, aged 38 years, married, died at midnight, cause peritonitis, following premature confinement on Hoffman Island.

The sick in the hospital are: Mrs. Schlesinger, aged 27 years, a passenger from the Normannia, ill from the effects of premature confinement; Henry Albert, aged 1 1/2 years, diarrhoea, recovering; Marc Albert, aged 3 years, diarrhoea, recovering; unknown infant from the Rugia, effects of starvation. The mother of the unknown child before mentioned died on board the Rugia during the voyage and it is alleged that the infant was neglected by the ship's stewardess and subsequently by the officials at Hoffman Island.

No new cases of sickness are reported in camp.

A touching incident occurred tonight when the evening mail came into camp, caused by the eagerness with which Mr. Scheidt begged for a newspaper in which to read the account of his wife's death. The poor man is nearly broken hearted and his two little children do not realize their loss and are continually asking for their mother.

The two officers of the Hamburg steamer here have been creating trouble by their familiarity with female passengers. Gen. Hamilton sent for them and gave them a severe reprimand and threatened to punish them if their conduct is again complained of by the people in camp.

REPORTS FROM NEW YORK.

NEW YORK, Sept. 29.—The board of health published the following bulletin at 4 o'clock this afternoon: No cases of cholera in this city since the last bulletin. There is a suspected case, Aup Jo Wan, Fourteenth Mott street, who died today and has been removed to the foot of East Sixteenth street for examination.

Treasurer Pierpont Morgan of the chamber of commerce emergency fund today received \$1,000 additional, the fund swelling to a total of \$195,221.

SKETCHES OF JENKINS.

QUARANTINE, S. I., Sept. 29.—Dr. Jenkins reported today his denial that any sick people had been intentionally sent to Dr. Hamilton at Camp Low. He pointed out the fact that for ten days there had been no sickness among the passengers at Hoffman Island. He says that they were all right when they left for Camp Low and he does not seem to believe that the two deaths reported at the camp are due to cholera.

FIRE ON BY THE GUARDS.

FIRE ISLAND, L. I., Sept. 29.—The guard tonight fired upon a boat which had too persistently tried to land passengers. The identity of the boatman is unknown.

CHADSMAN GADY TALKS.

Chairman A. E. Gady of the republican state central committee was in Omaha yesterday. In speaking of the political situation, he said that reports were beginning to come in from all over the state and they were most flattering.

Our men who strayed away two weeks ago," he said, "are coming back, and the people's party is making no gains whatever, unless it be right here in Douglas county. In all the rural counties they are losing ground. In some cases it is not much, and in others it will amount to 75 or 80 per cent. Even

if it was only half this, our gain would be tremendous. Out through the state the prospects could hardly be brighter. The little ripple of dissatisfaction that was stirred up awhile ago has entirely passed away, and if there is any of it still felt it is on the part of the individual and cannot be detected. There is no concerted action in that direction or it would make itself manifest. Mr. Majors is desirous of the success of the entire ticket, and he personally assured me that he and his friends were doing their utmost to that end. He said he felt that if he was to run ahead of the balance of the ticket out through the state he would be charged with treachery, and his future in politics demanded that this should not be the case. There are so many things entering into the situation here in Douglas county, that it would, of course, be impossible to hold any individual responsible to tell what might occur here. It is always impossible to tell what this county is going to do, and I am unable to tell just what the situation is here. I am inclined to think that whatever jangling there may have been here will, in the end, prove beneficial. That is the way it used to be in New York city when Tammany and the County Democracy got to fighting. It would help all the rest of the ticket down to where the trouble was, by creating interest and getting out a big vote. So I am convinced that even if Douglas county should not be agreed on some of the less important matters, it would not hurt the national and state ticket in the least."

ONE DEATH FROM CHOLERA.

NEW YORK, Sept. 23.—Louis Weinberger, who was taken sick a few days ago with Asiatic cholera and removed to a hospital died this morning. The health department reports no new cases of cholera this morning.

The steamer Cepheus left Fire Island this morning with the passengers of the steamship Wyoming, who were landed here today.

Two cases suspected of being cholera are being investigated this morning—Lieb Wisniewitz of Division street and Margaret Cagliola of Avenue C.

CRACOW, Sept. 23.—Since the cholera appeared in Podgorze, across the Vistula river, there have been only four cases, but all have been fatal. In Cracow there have been eleven cases and two deaths. Four cases and two deaths have been reported at Volowice.

HAMBURG, Sept. 23.—The official figures yesterday were 149 new cases and forty-nine deaths from cholera. The official figures are far below those given by the newspaper correspondents here.

CAMP LOW, N. Y., Sept. 23.—The health of the camp is rapidly improving. There were no suspicious cases today.

NOTES OF THE PLAGUE.

HAMBURG, Sept. 23.—Eighty new cases and two deaths from cholera occurred here yesterday, an increase of four cases and a decrease of one death.

QUARANTINE, N. Y., Sept. 23.—The White Star steamer Germanic, with 233 saloon passengers, has arrived. All are well. The steamer Suevia was this morning allowed to proceed to her dock after inspection.

PARIS, Sept. 23.—Dunay, member of the chamber of deputies, his wife and child, have all been attacked with a choleraic disorder. It is feared it is Asiatic cholera.

BERLIN, Sept. 23.—The emperor has written an autograph letter of sympathy to Hamburg, and donated 10,000 marks to the relief committee.

BANK CLERKS ARRESTED.

KANSAS CITY, Sept. 23.—James A. Mack and E. W. Black of the American National bank of this city, have been arrested, on complaint of a United States bank examiner, on the charge of embezzlement and altering figures on the bank books. Between them they stole \$17,000. The amount of the embezzlement of ex-Cashier Curtis, arrested in Chicago, is believed to be \$15,000.

KEARNEY COTTON.

KEARNEY, Neb., Sept. 23.—The Kearney cotton mill yesterday shipped a consignment of 70,000 yards of cotton cloth to points in Iowa, Kansas and Missouri. These are the first cotton goods manufactured in Nebraska to be shipped outside of the state. The cotton mill is now making a number of grades of cloth and they are having a demand far in excess of their supply. This shipment will be followed by others from day to day, and when every loom is running and the mill is turning out 20,000 yards of cloth each day, it cannot help but add materially, not only to the wealth of Kearney, but to the state of Nebraska.

QUIET AT FIRE ISLAND.

The State of Nevada Ordered to Lower Quarantine.

MRS. ANNA SAIN'S FATE.

Sentenced to be Beheaded and Her Right Arm Cut off For Poisoning Her Husband. Other News Notes.

PROGRESS OF THE CHOLERA.

NEW YORK, Sept. 21.—The health department received this afternoon from Prof. Briggs the result of the bacteriological examinations made in the case of John Knox, the fireman on the steamer State of Nevada who died aboard of that vessel last night, and Louis Weinager, who was found sick on Sunday night last and was taken to the reception hospital. The report states that both cases were genuine Asiatic cholera. The health board reported the fact of the death of the State of Nevada fireman from Asiatic cholera this afternoon.

Another case of suspected cholera was reported to the board of health this afternoon. It was that of Patrick Stewart, who was found sick and removed to the reception hospital. Stewart is a boiler maker in the Brooklyn navy yard.

QUARANTINE, S. I., Sept. 21.—Dr. Jenkins ordered back to Lower quarantine the Allen line steamer State of Nevada on account of the recent death of a stoker after her arrival at her dock. Dr. Jenkins says that there was an interesting story attached to the recall to quarantine of the State of Nevada, but contented himself for the present by saying, "The State of Nevada came from Glasgow, a perfectly healthy port, her cabin passengers were discharged. It is my intention to hold her for the twenty days rule and inform the steamship agent that I would not allow her to go up unless he obtained the consent of the collector of the port. I subsequently received word from the collector that if the steamer was all right she should be allowed to go up." The steamship City of Paris at 5 o'clock p. m. was allowed to proceed to her dock.

CAMP LOW, SANDY HOOK, N. J., Sept. 21.—Perfect confidence is restored here among the detained people by the announcement in the commandant's report, issued after the daily inspection, that no new cases have been found in the last twenty-four hours, and the sick in the hospital are all reported as being in a fair way to recovery, except the sad case of the unknown infant, whose mother and two little sisters died on the Rugia while at sea. The child was left to the tender mercies of the ship's stewardess, through whose neglect it is reported now to be dying from the effects of absolute starvation. That word is the plain diagnosis given of the case by the doctors, and they state that the child will not live.

This case has given rise to some very severe strictures among the people here and expressions of the most bitter indignation are heard on all sides at the wanton cruelty of the steamship people.

The official report issued after camp inspection today is as follows: Sick—Annie Schlessinger, 27, Normannia, confinement, recovering; Henry Albert, 1 1/2 years old, Normannia, intestinal trouble, recovering; Marie Albert, 3 years, Normannia, diarrhoea, recovering; Mrs. G. Douise, 32 years, Normannia, cholera, improving.

The last named woman and her four children are completely isolated in the most remote corner of Ten Mile camp. Ten Mile assistants who were sent down last night have been put to work in the disinfecting corps in place of the men who refused duty yesterday.

General Hamilton, after issuing the statement, reported this afternoon to the Associated press representative that he would leave for Washington tomorrow night en route to his home in Chicago.

QUIET AT FIRE ISLAND.

FIRE ISLAND, N. Y., Sept. 21.—All is quiet here and the passengers of the Wyoming are in good health.

ST. PETERSBURG, Sept. 21.—

In April last Mrs. Anna Sain, wife of a professor in the state college at Tamasheous, Indiana, was found guilty of poisoning her husband and in accordance with a medieval law was sentenced to be beheaded and her body to be affixed to a beacon and buried. She is but 22 years old. She married the professor in 1880 and has one child. She confessed the crime, saying she poisoned her husband in order to secure the insurance, as by her extravagance she had become largely in debt. Her case was carried to the court of appeals, and that court

has not only affirmed it, but ordered that her right hand be cut off as an additional punishment for having several times forged her husband's name to small checks some time before his death. The sentence is a most terrible one, and it is thought efforts will be made to get the czar to commute it.

MURRAY.

Seeing no items from this vicinity for quite a while, we will take the liberty of writing some.

The Murray band seems to be making improvement. They practice about three nights in the week.

A Bryan club has been organized here, with H. L. Oldham as president and C. E. Banning as secretary and they will soon be wearing caps and badges.

The Christian church is about completed and will soon be ready for dedication.

Mr. Wm. Chambers of Sparta, Ill., has been here visiting his nephew, Wm. Brown. He was accompanied home by Miss Lulu Brown, who will attend school there this coming year.

Miss Lucy Edmonds departed for Lincoln Monday, where she expects to attend Colner university this winter. No wonder Will does not visit Murray so often lately.

Miss Boss Walker and Mabel Young have gone to Council Bluffs to attend a convent this year.

Miss Alma Parrott is teaching young ideas at Murray this fall. School is progressing nicely under her management.

Miss Laura Will of Maryville, Mo. is wedding the birch at the New Hope school. She comes highly recommended and is doing good work.

Miss Bertha Porter presides at the Buck school and we hear good reports from there. Success.

Mrs. Myra Root is holding forth at the brick, No. 7, and patrons of the school have been fortunate in securing her services, as she has taught in this vicinity several years.

D. J. Pittman is rejoicing over the arrival of a fine nine pound boy that came to gladden his home. He will remain 21 years.

Miss Mabel McCannithy of Washington county is visiting her many friends in this place. She expects to remain some time.

Miss Pauline Oldham has been on the sick list this past week.

Thursday evening, Sept. 8, was one of the notable events of the season, it being the twenty-first birthday of James Loughridge. At about 8 o'clock friends and acquaintances began to gather at the residence of Wm. Loughridge, about forty in all. Many were detained from coming by the threatening appearance of the weather. A grand good time was indulged in by all present and refreshments were served consisting of ice cream and cake. After leaving many presents the young folks departed wishing that James would have many more twenty-first birthdays.

Mr. R. S. Root has gone to Cedar county on a prospecting tour with a view to purchasing land in that county.

Mrs. Mary Rankin of Broken Bow is here visiting her parents, and hopes to be benefited by the refreshing air of Cass.

Mr. Troy Davis and sister Cora have gone to Lincoln to attend the Western Normal College recently located at that place.

Remember always take your prescriptions to Brown & Barrett's.

Pears' Soap

Skin blemishes, like foul teeth, are the more offensive because they are mostly voluntary.

The pores are closed. One cannot open them in a minute; he may in a month.

Try plenty of soap, use it plenty of time, and often; excess of good soap will do no harm. Use Pears'—no alkali in it; nothing but soap.

All sorts of stores sell it, especially druggists; all sorts of people are using it.

Is Your Husband Cross?

Perhaps your cooking stove is the cause of it.

Well cooked food produces good digestion and a sweet temper.

At a top of indignation, within the chimney flue, and looked quite dreary as he said, 'There's naught for me to do! I and my brothers, in the stove, will never appear more. They call it a "Wire Gauge Door!"'

If you Want the Best, Buy the Charter Oak, With the Wire Gauge Over Doors.

TAKE NO OTHER.

Either Be Without Bread. XI Bishop's Residence, Marquette, Mich., Nov. 7, 1882.

The Rev. J. Rosshel, of above place writes: I have suffered a great deal, and whenever I now feel a nervous attack coming I take a dose of Pastor Koenig's Nerve Tonic and feel relieved. I think a great deal of it, and would rather be without bread than without the Tonic.

SAN FRANCISCO, Cal., June 19, 90. From this fact I write to say that I have been suffering for 25 years from the time my first child was born with spinal and brain trouble, and as I grew older the pain seemed to grow worse; I heard some time ago of Pastor Koenig's Nerve Tonic. Am on the second bottle now and feel the pain in my back very much relieved, indeed.

MRS. L. M. JOHNSON.

FREE—A Valuable Book on Nervous Diseases sent free to any address. This medicine free of charge.

This remedy has been prepared by the Reverend Pastor Koenig, of Fort Wayne, Ind., since 1856 and is now prepared under his direction by the

KOENIG MED. CO., Chicago, Ill. Sold by Druggists and by mail, 50 cents per bottle.
