Improved "Reliable Process" Gasoline Stoves.

CALL AND BE CONVINCED. NO TROUBLE TO SHOW GOODS.

I. PEARLMAN,

OPPOSITE COURT HOUSE PLATTSMOUTH, NEB.

THE DEMOCRATS GIVE IN

Correll, Republican, Elected President of the Senate.

MATTES, BABCOCK, NORTH

The Democratic Senators Vote With the Republicans on President—Frank Wilson Will Get the Secretaryship.

CORRELL FOR PRESIDENT.

LINCOLN, Neb., Jan. 6.—The senate was slow in getting together this morning, and it was 10:30 when the lieutenant governor called the body to order.

After roll call the senators were requested to record their votes again for president pro tem. There was nothing in the roll call to attract attention, except that four democratic senators, Babcock, Mattes, North and Thomsen, passed when their names were called. Then before the result had been announced, Babcock, Mattes and North recorded their votes for Correll while Thomsen voted for Dysart.

The secretary announced the vote as follows:

For Senator Correll—Babcock, Clark, Correll, Eggleston, Everett, Graham, Hahn, Lobeck, Lowley, Mattes, McDonald, Miller, Moore, North, Pope, Scott and Tefft.

For Senator Dysart—Campbell, Dale, Darner, Dysart, Gray, Harris, Johnson, McCarty, Mullen, Packwood, Sanders, Smith, Stewart, Thomsen, Young.

For Senator Mattes—Hole. Senator Correll was declared elected president pro tem of the senate.

Moore of Lancaster offered the report of the committee appointed yesterday to confer with a like committee from the house in reference to fixing the time for the joint convention of the two houses to canvass the vote on state officers. The report fixed the time at 11 o'clock Friday.

An adjournment until 2 o'clock Tuesday.

IN THE HOUSE.

LINCOLN, Neb., Jan. 6.—Speaker Gaffin called the house to order at 10:30 a. m. In the absence of the regularly-elected chaplain, Representative Johnson of Nemaha county offered prayer. Ninety-five members answered to roll call. Carpenter of Jefferson offered the following:

Resolved, That this house do not employ any female employe; except typewriters.

Burns of Lancaster opposed the resolution. He said that this house had no right to draw the line against female labor. Porter of Merrick also opposed the resolution was not intended to preserve the character of the ladies, but of the gentlemen members of the house. Mr. Elder opposed the motion and said he was willing to take his chances with the ladies. Committees on employes reported as follows:

One third assistant clerk, custodian and in book keeper in clerk's office, Messenger in chief clerk's room, Two typewriters one engraving clerk; the number of assistants cannot be determined at this time. The enrolling clerk, and the number of assistants to be determined later. Sergeant-at-arms and one assistant, one chaplain, postmaster, assistant and mail carrier doorkeeper and assistant timekeeper, one bill clerk and assistant, not needed now; one custodian of cloak room, one proof reader and one copy holder, thirteen pages, six janitors, two watchmen. Total 44.

THE MAN WHO WON.

Erastus M. Correll the new president of the senate, was born in Canada, August 4, 1845, while his parents, residents of New York, were visiting in the queen's dominion. He is a man of more than ordinary educational attainments, having attended Eureka college and the University of the Pacific. After leaving New York he went to Rockford, Ill. While he did not enter the service in '61, he has come in contact with numerous hostile bands of redskins, and still lives to preside over the senate. He was a member of the regular session of the Nebraska legislature in 1881, also the special session of 1882. In addition to this he was elected to the presidency of the Nebraska editorial association in 1881 and 1886,

and was seven years quartermaster general under Governors Dawes and Thayer. Mr. Correll was always republican and an untiring worker for the cause of republicanism.

Personally Mr. Correll is one of the finest looking men in the senate and is always courteous and obliging. He is the editor and proprietor of the Hebron Journal and is reported to have a number of delinquent subscribers, all of which is an evidence of a charitable nature.

BAD BLAZE AT OMAHA.

OMAHA, Neb., Jan. 6.—A fire broke out at 8 o'clock tonight in the four-story brick building of the Omaha Printing company, at Tenth and Douglas streets, destroying the contents of the composing, stationery and storage rooms on the second, third and fourth floors, respectively, and the whole interior of the building from the second floor to the roof. Office furniture on the first floor and machinery in the basement were badly damaged by water.

The damage to the building is estimated at twenty thousand dollars, with an insurance of five thousand dollars. The stock and equipments of the printing company were valued at \$75,000. Its loss is about \$45,000. The fire started among old papers in the composing room, no one being in the room at the time.

RAINMAKER IN COURT.

Rainmaker Swisher's Crocks, Tubes and Tunnels Have Been Displayed.

Is Not Very Pretty Appartus.

If a cloud burst wipes away the Lancaster county court house this morning, there need be no surprise. All of Rainmaker Swisher's apparatus stands in all its crudity on the table in the county court. Colonel Long said he felt tolerably certain the thing wasn't loaded, but it is always that kind of affairs that go off.

The apparatus attracted many curious visitors. For the benefit of many ambitious young men who are thinking of starting out in life rainmakers, the Journal took an inventory of the necessary articles. The most striking pieces are two stone churns, one about six gallon and the other about four. On each is an inverted funnel, surmounted by a jointed tin tube with an elbow at the top. Seven other sections of pipe, and two extra elbows are provided. There is also an extra funnel. An oblong box of galvanized iron with hinged cover is carefully wrapped in gunny sacking. A good sized electric battery with which a couple of feet of insulated wire seems on friendly terms, stand on the table. The minor accessories consist of a pair of old balances, a wash basin, a glass funnel two bottles, a glass dish, a small pitcher and a quart tin cup. Among the weights of the scale is a rattlesnake's rattle. All this stuff had been packed in straw in a trunk.

The case was called for trial yesterday, but a difference of opinion immediately arose. The attorney for McMurtry wanted a full description of the operation to say the least, and preferred an optical demonstration of Swisher's ability to make rain. The judge concluded he could not be compelled to do so and a lively argument ensued.—Lincoln Journal.

The democrats and populists joined forces yesterday in the senate and elected H. A. Edwards permanent secretary of the senate, and it was currently reported on the streets of Lincoln that Grover Cleveland had sent word that none but those who stood firm need look for office. Which clearly shows that its anything to beat the republicans. Although the democratic senators strongly assert that the tie up has nothing to do with electing a United States senator, and that when it does come to electing a man for senator that it will be a three cornered fight, but nevertheless the friends of Ken assert that he will be the coming man. It has also revived the hopes of McKeighan and Bryan. The republicans still have hopes of re-electing Senator Paddock, and when it comes to a vote they do not believe all of the independents will vote for a democrat.

RUSO-FRENCH POWERS.

A Formal Agreement Between France and Russia.

COAL MINERS REBELLOUS.

Thousands of Them are Likely to be Involved in the Big Coal Mines Strike in the Ruhr Districts—Other News.

FRANCE AND RUSSIA ALLIED.

ROME, Jan. 8.—There is no longer any doubt that a formal agreement has been signed between France and Russia. The holy see has been confidentially informed that Sig. Ressa, the Italian ambassador at Paris, worked upon all the leading republicans to hinder the Russo-French alliance and to break the present friendly relations between France and the papacy.

He especially aimed at a rupture between President Carnot and the pope and tried to enlist the support of the Free Masons. With the opportunists and radicals Sig. Ressa used arguments which appealed to them as liberal sectarians. To the moderate republicans he set forth the incompatibility of French civilization with the autocracy of the czar.

The pope was apprised of the danger of these intrigues, and gave instructions to the nuncio, who warned the czar's representative, who had resumed diplomatic work. These instructions were first given in 1888, and had a special result in the Cranstadt manifestations. Thanks to the papal and other influences the situation has at last been determined and crystallized in a formal agreement.

The pope is convinced that the new year brings a decisive crisis on the continent. His address to the cardinal reflects his keen preoccupation with the political situation and he holds himself ready to make an appeal to the nations when the day of complication shall come. He is finishing at this moment an encyclical on the perils of the situations in Europe, but its publication will depend upon eventualities.

The monarchists groups and other opponents of the papal policy toward France take advantage of the Panama scandals to urge the pope to retract his steps or at all events to use the greatest reserve towards the republic. The pope not only remained inflexible as to his attitude toward the republican government, but he has declared that the Panama affair will favor the development of his democratic policy. It is probable that the vatican will make some official statement of this opinion.

THOUSANDS WILL BE INVOLVED.

BERLIN, Jan. 8.—The coal miners of the Ruhr district show signs of striking in sympathy with the men of the Saar district. The agitators from Saar-Louis have been at work there for several days. This afternoon 3,000 miners met and heard with approval appeals to help their comrades in the Saar district. A resolution to strike tomorrow was passed unanimously.

The cause of these men and the thousands they are likely to carry with them is a desperate one. They are totally unprepared for even a day of idleness. They are penniless and have no hope of help from Berlin, London or Brussels or other coal districts.

The Krupp works in Essen, which the men are especially anxious to injure, are safe from inconvenience for several weeks at least, as the managers have accumulated a stock of 3,000 tons of coal. Other iron workers of the same region are equally well supplied with coal and in view of the prevailing slackness of trade are ready for the worst the miners can do.

A meeting of 3,000 miner's delegates from all parts of westphalia was held in Bochum this afternoon. The socialistic element had complete control from the beginning and strong resolutions of sympathy with the Saar strike were passed, and the meeting decided in favor of a general strike to begin tomorrow in support of the Saar men. It is not believed that all the miners will endorse the action of their delegates.

IN FAVOR OF HARMONY.

ROME, Jan. 8.—The vatican has caused an inquiry to be made into the extent of the opposition to the Satolli mission. The pope holds

absolutely to his policy that ecclesiastical affairs in the United States shall develop themselves along moderate lines and in a spirit of harmony with the institutions of the United States. From official sources your correspondent learns that all the arch-bishops who took part in New York conference have affirmed the thirteenth school proposals which Mgr. Satolli placed before them in the name of the pope.

WILL SUPPORT SATOLLI.

ROME, Jan. 8.—Impressions gains ground that however great or small may be the measure of Satolli's success in America. Rome will back him up in the hope that by making what may be described as concessions, the vatican will obtain the assent of the bishop to the envoy's scholastic scheme.

WORK OF TRAIN WRECKERS.

COLOGNE, Jan. 8.—An attempt was made this afternoon to blow up the Cologne express near Rauxel. A dynamite bomb was placed on the track about 300 yards from the station, but exploded prematurely. The track was torn up for some twenty yards and the buildings shaken on their foundations. Their report gave the alarm and the train was signaled. The passengers were terrified and several refused to proceed after the track was repaired. The track walkers were sent out ahead before the train started and dispatches ordering similar precautions at stations ahead were sent out. No other bombs were found. No arrests have been made. The news of the attempt to wreck the train caused the greatest anxiety in the Dortmund district. It is believed that the explosion was the first gun in the strike of the coal miners which is expected to begin early in this week.

OPPOSED THE AGENT.

Details of Conspiracy Against Archbishops Satolli and Ireland.

ST. PAUL, Minn., Jan 8.—Archbishop Ireland would not talk today about the story that he had forwarded charges to the pope that Archbishop Corrigan and others had organized a conspiracy for the overthrow of Mgr. Satolli and himself. He had read the story, but would say nothing about. However, Rev. John Conway, editor of the Northwestern Chronicle, who stands nearest Archbishop Ireland of all ecclesiastics in the northwest had been unable to get away last night on his trip to England in the interest of the Hill Catholic college here, and this evening he gave the following statement to the Associated press:

"The news from Chicago regarding the conspiracy against Archbishops Satolli and Ireland has been received in St. Paul with much surprise. Many will no doubt be astonished at it. Most people will be except the conspirators themselves and those who follow ecclesiastical questions very closely. Journalists who are directly interested in church matters knew by a journalistic intuition that a conspiracy was being hatched."

"The people at large heard rumbling noises, but they never dreamed that such a plot was concocted. The libelous pamphlet written by Archbishop Corrigan's Italian secretary, the effusions of Miss Eades, a garrulous old maid who is Roman correspondent of the New York Catholic News; the dispatches purporting to have come from Boston and other cities outside of New York, yet all having the same purpose; the plethora in the New York Sun and other papers has hinted clearly the existence of a conspiracy against the representative of the holy father."

All First-Class Druggists.

From present date will keep on sale the important East India Hemp remedies. Dr. H. James' preparation of this herb on its own soil (calcutta), will positively cure consumption, brouchitis, asthma, and nasal Catarrh, and break up a fresh cold in 24 hours. \$2.50 per bottle or 3 bottles for \$8.50. Try it.

CRADDOCK & Co., Proprietors. 1022 Race street, Philadelphia.

A good improved 100 acre farm for sale. Enquire of J. M. Leyda, Plattsmouth, Neb., if.

*Crown cough cure warranted to cure by Brown & Barret.

Dr. SYDNEY RINGER, Professor of Medicine at University College, London, Author of the Standard "Handbook of Therapeutics," actually writes as follows: "From the careful analyses of Prof. Arrivabene and others, I am satisfied that

VAN HOUTEN'S COCOA

is in no way injurious to health, and that it is decidedly more nutritious than other Cocoa.—It is certainly "Pure" and highly digestible.—The quotations in certain advertisements (from Trade rivals) from my book on Therapeutics are quite misleading, and cannot possibly apply to VAN HOUTEN'S COCOA.

The false reflection on VAN HOUTEN'S COCOA is thus effectually repelled, and the very authority cited to injure it, is thereby prompted to give it a very handsome testimonial. It
