THE Plattsmouth Journal claims all the credit of electing Judge Allen to the senate.

THE editor of the Journal has gone into spasms because a republican was not elected to the U.S. senate from Nebraska.

THE Journal with its usual brazen face comes out and says: "I told you so" in regard to the electing of Judge Allen to the U.S. senate.

If it be true, as reported, that Gresham is to be secretary of state, then MacVough, Carl Schurz and the rest of the hoppers will be provided with comfortable berths in diplomatic service.

THE railroads and Wall Street gamblers will have it all their own way now, they all supported Allen for U.S. senator and claim that to the victor belongs the spoils and we guess they will get them.

TEN live Indians who participated in the killing of the cow boys at Pine Ridge agency have been taken to Deadwood and charges of murder have been filed against them and they will be tried in civil court.

DOWN in Kansas the independents and republicans are both doing business in the same room and at the same time independent of each other. If this is not a novel way for a legislature to do we will give it up.

IN all the senatorial contests in the northwestern states, where no party has a majority, the republicans have kept in the middle of the road and have made no corrupt bargains while democrats and independents have made all sorts of bargains some of which are of the very worst kind of corruptness.

THE amount of bounty to be paid on sugar this year is put at \$8,000,000, which is \$2,000,000 lower than the estimate. Louisiana, of course, will do some more kicking about the alleged inadequacy of this premium. Perhaps the Democrats, in their tariff revision bill, ought to abolish the bounty and stop this grumbling.

THE impression seems to be general that Senator Allen will not reflect the wild and visionary elements of his party. It is pretty certain that he was not on the hot hunt for under obligation to the party to whose contingent he owes the office, and there is strong suspicion of a contract, understood if not written, with the powers that be in the nation. The hope is that he will be as much of an American and Nebraskan as it is possible for a demo-pop to be. -Norfolk Journal.

PRESIDENT HARRISON, it is stated, will shortly ask congress to annex Hawaii to the United States. When the report of Minister Stevens arrives here next week it is the intention to prepare a message to congress reciting the circumstances and incidents which led up to the revolution at Honolulu, the part this country and her representatives took in it and the instructions on which Minister Stevens acted. The message will succinctly present the status of affairs on the Sandwich islands, and recommend the immediate adoption of an annexation bill.

R. G. DUNN, & Co's., weekly review of trade says the confidence in trade circles is shaken by the financial situation caused by two important events, the defeat of the anti-silver legislation in the senate and house the concerted deposit of gold by New York Banks in the sub treasury, in exchange for legal tenders. It is not by all realized that the gold reserve of \$100,000,000, to be used for the protection of the note circulation, was expressly intended to be used for the purpose, and as fast as it is so used the notes go into the treasury, in place of gold taken out. The banks, by placing the gold they do not need in the treasury, instead of notes to the extent of \$5, 800,000 this week, reasonably hope that their confidence may lessen the disposition to withdraw gold.

A CLEVELAND TARIFF BILL.

It is understood that Mr. Cleveland himself is to stand sponsor for the tariff revision bill which is to be framed at the beginning of his administration. He intends to follow the Polk idea of having the bill drawn up by the secretary of the treasury. The ways and means committee will, consequently, be relieved of this much labor, and be saved likewise from such credit or discredit as may attach to the work. Nobody will have anything to do with the getting up bill except Carlisle and Cleveland. Of course the business interests which are to be affected by the changes in the tariff will not be heard in their own behalf. The idea that those interests have any rights at all that the government is bound to respect is a republican superstition which is not going to have any influence with the incoming administration.

But John G. Carlisle's name is not going to be connected with the bill about to be framed, as was directly and conspicuously as Robert J. Walker's was with the measure drawn up by that gentleman in the Polk administration. It is to be the president's and not the treasury secretary's bill. The tariff of 1891 was called the Walker tariff; the tariff of 1893 or 1894 is to be known in history as the Cleveland tariff. Nobody knows yet on what lines the bill will proceed. Of course a general assault will be made on all the raw materials of manufacture. This Mr. Cleveland recommended in that historic message of 1887, which ably assisted the Mills bill of 1888 in knocking the author of the message out in the latter year. The duties on wool, lead, zinc, iron ore, flax and such articles will be abolished. Perhaps soft coal will be put on the free list, also although democratic tariff framers, in deference to the desires of democratic coal barons, have usually been a little bashful upon attacking this product.

The cut in the duties of the crude materials will suggest, and in fact render imperative, a cut on the manufactured articles. This is also in the line with the recommendations of the Cleveland deliverance of 1887. But the question here arises, where is the revenue for the support of the government to come from? The income now barely meets the outgo, and democrats have been asserting that it could not meet the outgo many months longer. A measure however, which makes as many cuts as the Cleveland bill is likely to do must reduce the revenue to the extent of \$30,000,000 or \$40,000,000 a year at least, and thus further broaden the gap between receipts and expenditures. How will the money be obtained to meet this deficiency? The duty will have to be restored on sugar, an income tax will have to be created, or both will have to be restored. Either would be exceedingly unpopular, and arouse a sentiment against the democracy which would defeat that party in the next elections. The country awaits the framing of the Cleveland tariff bill with interest. There is a general desire to learn how its author that is to be proposed to deal with the deficiency which is rendered inevitable by tariff reduction along the lines laid down in his message of five years and two months ago, or along any other lines. -Globe Democrat.

ALLEN D. BEEMER, has been nominated by Governor Crouse as warden of the penitentiary. His record as a soldier and civil officer is pointed to by his friends as proof of intelligence, cool judgment and executive ability. He served in the Eleventh Pennsylvania cavalry from 1861 to 1865 until the surrender of Lee at Appomattox, and under General Kautz was provost guard at Richmond for three months after the war, practically having charge of that city. He came to Nebraska in 1867 and settled at West Point, owned the town site of Beemer, which bears his name. He served two terms as sheriff of Cuming county.

OUR contemporary, the Journal has come out a full fledged independent since the election of Allen to the United States senate and now the poor old democratic party is without a newspaper in Cass county. If there is a good democratic editor in the state or any where else that is looking for an opening right here in Cass county is the place, as all the democrats are disgusted with Sherman and they say they must and will have a good democratic newspaper in the county and that they will give it good support. So look out for another paper in this city before long, there is an opening and it will surely come.

THE refusal of Grover Cleveland to reappoint any of his old cabinet is positive proof that they were all failures.

A GERMAN STATISTICIAN FINDS THAT

Friday is not the unlucky day of the week after all, the figures showing that Monday is entitled to that distinction. After a careful computation he is able to show that 16.74 per cent of all accidents occur on Mondays, 15.31 per cent on Tuesdays, 16.31 per cent on Wednesdays, 15.47 per cent on Thursdays, 16.38 per cent on Fridays, the same per cent on Saturdays, and 3.99 per cent on Sundays. The low average of Sunday is caused of course by the general cessation of manual labor of that day. No explanation is given of the high percentage Monday, but it is safe to charge it to the relaxation following the "continental Sunday." It is not reasonable to suppose that Monday would be as prolific of accidents as any other week day if there were no Sunday resorts to put the workmen out of tone for beginning the work of the week on Monday morning. -Lincoln Journal.

NEXT Wednesday February, 22 President Harrison will himself run up the American flag on the great ocean steamer City of New York, when the famous vessel transfers its allegiance from Great Britain to the United States. President Harrison's administration has done more than any other to build up an American navy and replace the American flag on the seas again. The substitution of the American flag for the English jack on the steamship City of Paris and City of New York is the beginning of an American merchant marine which will rival any on the high seas.

THE only bill passed by the legislature and signed by the governor, aside from the appropriations for the legislature is Jensen's bill providing for a recount of the vote on the constitutional amendment, which was defeated last fall and the legislature has cost the state over \$100,000. Thus the reform goes on.

THE Journal is coming around all right for J. Sterling Norton, it is now working for him, teeth and toe nail, for a position in Cleveland's cabinet and says that "his great talents for an executive worker are everywhere acknowledged."

THE St. Louis Globe-Democrat observes that Cleveland's personal comfort will not be promoted by the information that the new senator from Nebraska, like the one from Kansas, is an uncompromising free-coinage man.

THE citizens of Nebraska City are all worked up over the fact that their distillery is likely to be closed up, and they say if it is done it will cause a drought, which will be likely to kill the city.

THE trouble with Cleveland in making his cabinet is the men that he invites won't have anything to do with him, while those who will accept he does not want.

THE populists of Kansas have introduced a bill into their legislature creating 200 as new state offices.

NOTES FROM EXCHANGES.

From the Eagle, Tom Wiles dreamed that he was going to die and prepared for the event accordingly. Dr. Thomas has knocked the dream business cold and will have Tom to work attend to his affairs as usual in a short time.

Mr. and Mrs. W. Morse was surprised at their home last Saturday evening by a small army of friends who had a social time, leaving the host and hostess at the late hour with many expressions of good wishes while they sojourn in the home they will soon move to the country.

The family of Dr Switzer was sorely afflicted last Friday, one little girl fell from a bench and broke her arm, while three other children had strong symptoms of poison, being attacked with vomiting which was with difficulty overcome in the case of two of them while the third, at last accounts could not be considered out of danger. Dr. Butler had all the cases in charge last week.

From the Republican, Ben Ewing and family start back to Ohio the last of the week for a visit at their old home.

Attorney Haldeman says the independents are opposed to the annexation of the Sandwich islands for fear that it would tend to decrease the price of pork. There is no danger of that, pork will continue to be in demand as the central figure in sandwiches.

Mr. Mitchell and family have returned to Weeping Water after an absence of eleven years in Wheeler county. Mr. and Mrs. Mitchell were early settlers here and will gladly

be welcomed back by all former acquaintances. They have not sold their property in the west, but return in order to have the better advantages of society to be obtained in an older settled community and to school their children. Mr. Mitchell is looking the field over with the expectation of entering some kind of business here.

From the Ledger, Dr. C. F. Davis returned from Lincoln armed with a diploma as a "Registered Pharmacist." He was examined by the State Board of Pharmacy on Wednesday and they promptly issued his certificate.

The report comes from Lusk, Wyo. that Mr. and Mrs. Wesley Wolfe are the parents of a fine boy baby that registered at their home a few days ago, which causes unlimited joy in the home of the grand-parents, Mr. and Mrs. John Cladant, and young Faete Dan is as happy as a claim.

MURDOCK.

A very happy event was the marriage of Miss Emilie Kupke to Mr. Julius Rinke at the home of the bride at Mr. C. Kupke's. The ceremony was performed by Rev. J. Baumgardner, at the new Lutheran church at 9:30 o'clock in the morning, after that a large audience of invited guests repaired to Mr. Kupke's home, where a bountiful repast was served. Very many both costly and useful presents were bestowed upon the newly wedded couple, which will be held in high esteem by them.

The same day February 9th another but quiet wedding occurred about five miles south west of here the contracting parties were Mr. Jno Meyer and Miss Lena Rudolph, both of Elmwood precinct. This young couple will make their home two miles north of Elmwood on a rented farm. We congratulate.

Mr. H. McDonald, our druggist, was at Lincoln before the board of examiners of applicants to become Pharmacists, in compliance with the state law. He passed and will have his diploma shortly.

Literary Notes.

Harper's Weekly, published February 15th, will be noteworthy for the number and beauty of illustrations, and the variety and value of its articles. Prominent among the former will be a front-page picture of Tobogganing at Montmorency Falls, Canada, from a photograph; a double-page illustration of the "Yale Promenade," drawn by W. P. Snyder; and a characteristic full-page hunting scene by A. B. Frost. An illustrated article on "Tammany's Neglected

Streets;" will be of special interest to New York readers. There will also be illustrated articles on the new monitor Monterey, and the whaleback steamer which is to be used for the transportation of visitors to the World's Fair. There will be numerous portraits, accompanied by biographical or personal sketches, including those of the late Mrs. Whitney, A. Conan Doyle, Elenora Duse, the Hawaiian commissioners now at Washington, and S. B. Dole, president of the newly formed professional government at Honolulu. The number will also contain the usual attractive variety of short articles, stories, and able editorials on the question of the day.

PEOPLE AND AFFAIRS.

When the independents strike their sober second thought they will remember that their new senator, Judge Allen, was elected at the dictation of German and Brice of the democratic steering committee. Then they will be able to call to mind that Gorman is one of the most corrupt of the Tammanyites and that Brice represents the greatest monopoly in the world, the Standard Oil Company. At their dictation the democrats were whipped into line for Allen, and there is nothing fairer than the presumption that is pledged to carry out the wishes of the men who made his election possible. -Kearney Hub.

A Fremont young unmarried man who sat in a little game of draw all Saturday night and lost his roll of bills containing about \$25 squandered on the rest of the gang Sunday morning. Finding that he could not testify against the other fellows without giving himself away, he concluded not to prosecute the case and the other fellows were so grateful for his generosity that they gave back his money. -Fremont Tribune

There will be a Manufacturers' winter Carnival held in Lincoln on February 20th to 25th inclusive, under the auspices of the Manufacturers' and Consumers' Association of Nebraska. Factories will be in full operation in the building, and the exhibits will consist of the products of Nebraska manufacturers.

A mistake appears on the new Columbus one cent postage stamp printed by the U. S. Government printing Co. The word Columbus is spelled "Columrus." -Louisville Courier-Journal. We advise the editor of the Courier-Journal that the next time he goes to look up a mistake on the postage stamp he puts his glasses on, for there is no error in the word Columbus. Look again Brother Mayfield and you will find that it is spelled with a "b" and not an "r" as you immanaged.

EXPENDITION AGAINST HONDURAS

NEW YORK, Feb. 14.-A local paper will say in the morning that a piratical expedition against one of the Central American states is being fitted out at Kay West, Fla., by Cubans and Americans. The company as filibusterers has been gradually augmented at the Florida seaport until several hundred fighting men, armed with repea ing rifles and abundant ammunition, are ready to embark on the expedition.

It said a small steamer was chartered at the northern port and is now en route to Kay West, where it was expected to arrive today. The hold is well ballasted with cannon, Gatling guns and field artillery, sufficiently formidable when in desperate hands to make war against the government of Honduras. The United States steamer Kearsage dropped anchor at Kay West yesterday, much to the surprise of everyone in town, and it is believed she was ordered there to prevent the pirates from setting sail.
