DOUGLASS IS RECOGNIZED.

Kansas Legislature Will Hereafter Have But One House—The Independents Take Seats in the Legal House.

TOPEKA, Kan., Feb. 27.—Tomorrow Kansas will have but one house of representatives. The populists after caucusing all day on the decision of the supreme court that the republican house was the legal house decided to take the step. They will, however, demand that the house pass an appropriation bill for the payment of the salaries and per diem of the officers and members of the populist house up to date. The populists decided also that no bills should be passed excepting those necessary to keep in motion the machinery of the state and that an adjournment is to be reached as soon as possible. The senate empowered their election committee to inquire into the election of Chief Justice Horton of the supreme court. The populists say they believe Mr. Horton was illegally declared to be elected in 1890 over the populist candidate.

MISER'S HIDDEN TREASURE. HOLLY, Mich., Feb. 28.—About \$20,000 in cash belonging to the Fagin misers, the two brothers who were found frozen to death in their house five miles north of here Saturday, has been unearthed up to today. Last night \$15,000 had been recovered, and this morning a pot containing \$5,000 in gold was dug up in the cellar. It is not known to which brother belonged. Another mystery was cleared up today by the finding of a certificate of deposit for \$7,500. It was the money received in the sale of John's farm. The property belonging to the Fagins already recovered and accounted for amounts to \$37,000. The old shanty where the brothers lived is being torn down piece by piece in the search for their hidden wealth.

MANIAC IN THE PULPIT. WEST UNION, Ia., Feb. 27.—Rev. R. Sanford of the Methodist church at Sumner, was seized with temporary insanity while occupying the pulpit Sunday, and for a time pendentium reigned. For five minutes he was a raving maniac. He raved, swore, threatened violence, smashed the bible over the pulpit, jumped on it, cursing and calling down the wrath of God all the while. The audience was simply paralyzed, the people ranted to their seats. A town official happened to come in just at this time, went forward and took hold of Mr. Sanford, spoke a few words to him and reason returned. He was taken home, but in a critical condition physically and mentally.

INAUGURAL ADDRESS. NEW YORK, Feb. 27.—St. Clair McElway, editor of the Brooklyn Eagle who has been several days at Lakewood, and during that time had a conference with President-elect Cleveland, writes his paper as follows: "Cleveland's inaugural address as president of the United States will contain 1,700 words and will be more general than specific in its character. Cleveland has carefully written out what he desires to say but will speak at the inaugural without manuscript."

TOO VIVID A PICTURE. FORT DODGE, Ia., Feb. 24.—Mrs. William Wilbur of Rowan has been adjudged insane and sent to the asylum. The immediate cause of her losing her mind was a graphic picture of hell drawn in the pulpit of her pastor. The preacher's description of the torments of the damned made such a vivid impression upon Mrs. Wilbur's mind that her reason was overthrown and it is feared that she is hopelessly insane.

WALSH TURNS DEMOCRAT. NEW YORK, Feb. 27.—A special from Grand Forks, N. D., says that George Walsh speaker of the house of representatives, has renounced the republican party and gone over to the democrats. He declares the senatorial contest at Bismarck ought to end the existence of a republican party in the state.

BOSS SHEPHERD'S STRIKE. CHIHUAHUA, MEXICO, Feb. 23.—There is great excitement throughout the state of Chihuahua over a silver and gold strike reported from the mining district of Batopilas. The strike was made on one of the properties of Alexander E. Shepherd, as "Boss" Washington, D. C. One of the veins of silver runs \$2,000 to the ton, while another is gold of the richest nature. One sample which was about the size of a pancake was tested and its value estimated at \$42. A primary strike was made about one year ago, and only lately the fabulous wealth of the property has been revealed.

HARRISON'S MESSAGE.

He Calls and Extra Session of the Senate to Convene on March 4.

WHEREAS, public interests require that the senate should be convened at 12 o'clock on the fourth day of March, to receive the communications as may be made by the executive.

Therefore, I, Benjamin Harrison, president of the United States, do hereby proclaim and declare that an extraordinary occasion requires the senate of the United States to convene at the capital at Washington on the fourth day of March next at 12 o'clock at noon, of which all persons who shall at that time be entitled to act as members of that body are required to take notice.

Given under my hand and the seal of the United States at Washington this twenty-fifth day of February, in the year of our Lord, one thousand, eight hundred and ninety-three, and of the independence of the United States of America the one hundred and seventeenth BENJAMIN HARRISON.

By the president. WILLIAM F. WHARTON, Acting Secretary of State.

This is the usual course pursued at the outgoing of each administration to enable the senate to "advise and consent" to the cabinet selections by the incoming president. It is also customary at the same session to send in the names of those selected for the most important foreign posts and the leading officers at home.

Cleveland's proclamation, issued under similar conditions four years ago, was dated February 25, and the proclamation of today follows that document closely. There was some talk today, in connection with the issuing of the proclamation, about the question whether or not a president had ever convened congress as a whole in special session by proclamation issued just previous to his retirement from office. An examination of the records shows that this was never done. The earliest date at which a new congress ever assembled after an inauguration of a president was May 15, 1797, when President Jefferson called the two houses together to consider the suspension of diplomatic relations with France. In 1841 President William Henry Harrison convened congress in special session on May 31, by proclamation issued March 17, but before the assembling of the body he died and Mr. Tyler was in the chair. The occasion for this special session was condition of finance and revenue which demanded attention. It may be of interest in connection with the discussion of the probabilities of a special session, to state that since 1841 the congress has been called in special session but four times. In 1856 because of the failure to pass the army appropriation bill in 1891 because of the war in 1877 because of failure to pass the legislative and executive appropriation bill, and in 1879 because of a fight over the appropriation for United States marshals, etc. in the same bill.

THE SUGAR BEETS BEAT

To Provide for the Encouragement of Raising Beets.

PERFORMS ROUTINE WORK

Chaplain Hall Informs the House That Representative Ruggles is Improving—Other Bills Considered.

The following bills came up on the reports of committees:

House roll, No. 315, by Oakley to provide for the establishment and management of private hospitals, asylums or institutions for the treatment and the custody of the insane, feeble-minded or inebriates, was recommended to pass which report was adopted.

House roll No. 165, by McKesson to provide for the encouragement of the sugar beet industry and the paying of a bounty to the growers and producers of sugar beets, was recommended to pass by the committee.

Felton insisted that it was not a proper bill, as soon as he could get the floor and said several unimportant things. He was followed by Soderman with about the same kind of a speech.

Elder wanted to see the bill go on general file and made an eloquent appeal for the bill that evidently caused the scales to fall from the eyes of some of his radical brethren.

Nason, who is one of the most untiring workers for Nebraska, dwelt at some length upon the fairness of the bill and concluded by saying that Nebraska could be made the great sugar producing center of the world if the people would only stand up for Nebraska and foster her interests and industries.

Horst came in in his usual way and moved that the bill be indefinitely postponed. Then he rose to a point of order claiming that the resolution passed on the 20th of January while the republicans were absent and it still remains a mystery as to whether a quorum was present or not, barred any further action upon the bill but the speaker righteously sat down on him.

THE AMENDED CHARTER.

Dobson's bill, house roll No. 343, is the bill that contains the charter proposed by the labor unions. An addition of four sections is made to the old charter which are in substance as follows:

The election at the expiration of every two years of a city assessor to be compensated at the rate of \$1,200 a year. It provides that this officer shall list all property at its cash value and in case of his neglect or refusal to do so shall be fined in any sum not less than \$25 nor more than \$50 upon the complaint of any resident voter who claims to have a grievance.

Also a building inspector to be paid \$1,000 per year to enforce the ordinances and collect a specified sum for all building permits.

It also seeks to create city depositories under the same regulations governing state depositories. That all interest shall be covered back into the treasury and prohibiting him from appropriating the money to his own use.

The office of water commissioner is made appellate and a sidewalk and bridge inspector added to the list to be paid \$800 a year.

The board of public works is abolished and the mayor given the power to appoint the chief of police and patrolmen and members of the fire department and the following changes in salaries are made:

Treasurer cut from \$1,600 to \$2,500; deputy city clerk from \$1,200 to \$800; captain of police from \$80 a month to \$75; street commissioner from \$800 to \$1,000; water commissioner from \$1,000 to \$1,200. All work shall be done by day labor, and eight hours to constitute a day. The head of the police department will be legally known as chief hereafter instead of marshal.

Railroads are also compelled to pay all abutting damages to property when erecting viaducts and that a penalty of \$100 to \$200 per day be imposed upon them for a refusal to do so after having been given thirty days notice. Also compelling street car companies to furnish a thirty minute service.

The mayor's salary is raised from \$1,000 to \$2,000 per year and many other minor changes.

Land to Lease. To the right party we will lease our section of land for a term of years. Good chance for man with plenty of help of his own. Will assist tenant to stock the farm. Apply to E. G. Dovey & Son, Plattsmouth, Nebraska.

MURDOCK. Rev. A. Haas, brother of Mr. F. Haas, from North Loup, Neb is in town helping to invoice the stock of goods in the new firm of F. Haas & Son, where he has a share in.

A music entertainment is a certainty for this place. It will be under the efficient management of Mrs. Bishop of Elmwood Neb., because her scholars will mostly take part in it. The time is set for March, 17th.

CRAZED WITH ITCHING

And Pain from Eczema. Scratched until Blood Came. Scales Like a Fish. Cured by Cuticura.

I had a very bad case of Eczema on my neck. It was just terrible. At times it seemed as if it would drive me crazy with itching and pain. Through the day it would itch, causing me to scratch until the blood would come, and during the night it would scald over so that I would scratch scales off like those of a fish. I consulted with the family physician for one season. He gave me temporary relief, but my trouble would come back at about the same time each year. Then I began using CUTICURA REMEDIES, which have entirely cured me.

Miss HANNAH M. WILLIAMS, Lawrenceville, Dearborn Co., Ind.

Fine Head of Hair.

My head became very sore and all my hair fell out. I spent all I could make in doctoring, but nothing helped me; bought CUTICURA REMEDIES, and in six weeks' time my head was well, and I then used the CUTICURA for my hair. I now say that there is not a finer head of hair in Northern Indiana than mine for only a year's growth.
