LAUGHTER AND HEALTH

According to the census of 1890, Chicago takes rank, by virtue of her population of 1,098,570 people, as the eighth largest city on the globe.

Peculiar Advertising. Advertising a patent medicine in which the proprietor of Kemp's Balsam does for coughs and colds does it indeed wonderfully.

All First-Class Druggists. From present date will keep on sale the important East India Hemp remedies. Dr. H. James' preparation of this herb on its own soil (calcutta), will positively cure consumption, bronchitis, asthma, and nasal Catarrh.

Arrested and Set Free. Dr. J. H. Hanford says in the Western Plowman: "If the first cough is properly treated, the first step in the direction of consumption is arrested, the lungs develop, the breath set free, we need fear consumption."

Ely's Cream Balm is especially adapted as a remedy for catarrh which is aggravated by alkaline dust and dry winds.—W. A. Hoover, Druggists Denver.

My catarrh was very bad. For thirty years I have been troubled with it—I have tried a number of remedies without relief. A druggist advised Ely's Cream Balm. I have used only one bottle and can say I feel like a new man.

RHEUMATISM CURED IN A DAY.—"Mystic Cure" for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious.

Among the many novelties which will be presented in the building known as, "The MacKaye Spectatorium" in Chicago, perhaps none will attract more attention, it is said, than the absolute avoidance of the scenery methods of the present day.

"A Stitch in time saves Nine." You need a blood purifier. Why not take Gering & Co.'s Compound Extract of Sarsaparilla? It will do you good. If it does not we will refund the money. Gering & Co., druggists.

Having sold my stock of jewelry and business to M. S. Briggs' and C. H. Jequette, I desire to extend to my patrons my thanks for their past favors and assure them that they will receive the best of treatment from the new firm, and cordially invite them to continue their patronage.

Respectfully GEO. VASS, Ex-Jewelry and Music Dealer.

Mystic Life Renewer. This wonderful Health Builder and Constitution Restorer is indeed a veritable renewer of life; because it possesses such marvelous powers to cure all forms of Failing Health, Indigestion, Dyspepsia, Nervous Diseases, Heart Affections, Female Weakness, Broken Constitution and all wasting diseases.

Women's Onward March.

There came a time in the history of my life when I suddenly realized that I can tell a brierwood from a meersicum while it is being smoked. It was borne in upon me that by years of subtle training I had come to know a "Perfeto" from a "two-for-a-nickel."

I can smell this moment the peculiar peanut nuttiness of an old clay pipe and the almond nuttiness of a new Henry Clay cigar, and I can recall to a whiff the experimental odor of a corn-cob brimming with rank plug. Yet I never smoked but once in my life. Then I choked on burning mullein leaves recommended for a cold!

The Use of Poetry. Nearly all the other arts have an official standing. They are endowed, perpetuated, made part of the apparatus of life.

But the future of poetry is immense, because when actualities oppress, when utilities task, when, "tired of all these, for restful death we cry," all we need do is to open our books and without struggle to partake the strife, without effort to attain the ease, without putting off mortality to have part in the immortality of those who have lived.

A Strange Selection. It is an easy and very profitable business to smuggle rifles into Morocco. A weapon may be bought in Gibraltar for \$10 and sold in the interior for five or six times that sum.

One smuggler told a traveler that he ran his cargo into Tangier bay after dark and unloaded the rifles on the beach not a quarter of a mile from the custom house.

"Who assists you in unloading?" asked the traveler. "I generally employ the porters of the custom house," was the innocent reply.

Then, noting the surprise and amusement of his hearers, he added: "They are more skilled in unloading than other laborers."

Hypnotism and Dentistry. For a quarter of a century I have been hoping that the principles of hypnotism as now developed might be applied so as to bring relief to patients during dental operations.

Smoke and Cold Weather. There can be no doubt that the smoke blanket modifies the temperature of the city. There is nothing new in the fact. Gilbert White of Selborne, who died 100 years ago, wrote, "When a thermometer hangs abroad in a frosty night, the intervention of a cloud shall immediately raise the mercury 10 degrees, and a clear sky shall again compel it to descend to its former gauge."

Blackwell's Bull Durham Smoking Tobacco

Smoking Tobacco

Made a record long years ago, which has never been beaten or approached. It has not to-day, a good second in popularity. Its peculiar and uniform excellence pleases the men of to-day as it did their fathers before them.

BULL DURHAM is a mild and pleasant stimulant which quiets the nerves and in no way excites or deranges the system. It gives the most solid comfort with no unpleasant effects. Made only by Blackwell's Durham Tobacco Co., Durham, N. C.

Invalids and Gambling.

Too many invalids are given to gambling for the purpose of amusement or pastime. Those who visit Florida, Colorado or California on account of climate, who leave home, friends and business on account of their health, who have anxious friends, or probably some relatives, who are hoping for all or some benefit from the change, cannot defeat the object of their trip in any more certain way than by a resort to gambling.

We have often seen pulmonary invalids coming west for climatic benefit who slept all morning with closed windows and tightly drawn blinds that, by the exclusion of sounds and light, they might make up during the day for the rest lost during the night—a night often in a close room with burning gas lamps, and, as is generally the case, so small that what fresh air it may contain would hardly suffice for one man.

Infected Hotels.

A well known physician recently published an account of the experience of a patient at a so-called health resort. Here is a part of the story: "The patient in question was suffering only from overwork; his family history was clear, and there was no tuberculosis to be traced in his immediate kin or among his ancestors."

A Conflict of Authority.

The late Lord Chief Justice Cockburn was an inveterate enemy to drafts, and on the opening day of the Surrey assize several years ago gave orders that all the windows should be closed. Upon arriving at the court the following morning he was surprised to find that this injunction had been neglected, and upon inquiring was informed that the high sheriff was the culprit.

A Narrow Escape In Russia.

We had just left a station near the Irish river. The road was near the precipitous river bank. Our horses started at a mad pace, and the driver could not control them. They galloped straight toward a precipice that a turn in the road brought just ahead of us. I thought we were lost. M. de Ujfalvy stood on the carriage steps, revolver in hand, ready to shoot the middle horse, hoping that if he fell dead the others would halt. Some Cossacks who saw the danger rushed to us shouting, "Don't fire." One of them grasped the bridle of the middle horse, and by an almost superhuman effort stopped him. It was time. We could look down into the abyss.—Cor. Manchester Times.
