L. Louis is, of course, very thankful for the money, but as he is not a sufferer, nor has this part of the state been drought-stricken, he was busy last night writing an explanatory letter, and will return the money to his kind friends with many thanks, and info. that all is well, and there is an over production of crops in this section.—Nebraska City News.

Will people never learn that a "cold" is an accident to be dreaded, and that when it occurs treatment should be promptly applied? There is no knowing where the trouble will end; and while complete recovery is the rule, the exceptions are terribly frequent, and thousands after thousands of fatal illnesses occur every year ushered in by a little injudicious exposure and seemingly trifling symptoms. Beyond this, there are today countless invalids who can trace their complaints to "colds," which at the time of occurrence gave no concern, and were therefore neglected.
