From the Denver Republican we note that Arch Coleman is becoming quite a "piker". In the jewelers five-mile handicap race there this week, Arch won first prize—a diamond scarf-pin—while Glenn Carruth came in twenty-sixth in the race. Evidently Glen can walk faster than he can ride.

J. STERLING MORTON has been the hero of many battles, he has been licked out of his boots "steer" times and always come up smiling making the same talk for principle. Today he is convinced that free silver at the ratio of 16 to 1 would bankrupt the nation, and he is not the kind of a man to accept such a doctrine even though the dose be offered as a panacea by the democratic party to which he has been wedded since infancy. He boldly speaks out against the dangerous theory and is prominently mentioned as the sound money candidate of the democratic party for the presidency. If he should accept the nomination the free silver question would at once receive its quietus, confidence would be restored and an era of prosperity would be entered upon.

Just as the populist convention declared for Bryan the electric light went out in the building and left the crowd completely in the dark. This doubtless means that Bryan will be left in the dark in November.—Ex.

Tom Watson may not be Conkling, but he hits off the situation with a directness that is interesting, and when democrats think he will lay down to save the democratic party they are evidently mistaken in the calibre of their man.

Death of Johnny Stevens. Johnny Stevens, a resident of this city for years, went out to the Soldiers' home at Grand Island not long since to pass his declining days, but the sands of life were nearly run and on Tuesday he passed to his final reckoning in the other world. The interment took place yesterday, Charley Parmele being the only friend of earlier days that was present. Johnny used to work for the Parmeles and they did not forget his faithful services. He was a member of Tom Potter's company, the great railway manager, in the war, and came here soon after his discharge, where he began working for C. H. Parmele. Mr. Parmele sent him to Grand Island last April, where he could be well cared for and for a long time he has seen to it that he was made comfortable, as he was both feeble and penniless.

Mr. Morton Will Speak. Secretary J. Sterling Morton, who was requested by some three hundred of our citizens to deliver an address on the financial question, has concluded to grant their request and will speak at the opera house on Saturday evening next. It is doubtful if the hall will accommodate all who will desire to hear him.—Nebraska City News.

Mrs. Rhodie Noah, of this place, was taken in the night with cramping pains and the next day diarrhoea set in. She took half a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got no relief. She then sent me to see if I had anything that would help her. I sent her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and after the first dose relieved her. Another of our neighbors had been sick for about a week and had tried different remedies for diarrhoea but kept getting worse. I sent him this same remedy. Only four doses were required to cure him. He says he owes his recovery to this wonderful remedy.—Mrs. Mary Sibley, Sidney, Mich. For sale by all druggists.

Last summer one of our grand children was sick with a severe bowel trouble. Our doctor's remedies failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief. We regard it as the best medicine ever put on the market for bowel complaints.—Mrs. E. G. Gregory, Fredricktown, Mo. This certainly is the best remedy ever put on the market for dysentery, summer complaint, colic and cholera infantum in children. It never fails to give prompt relief when used in reasonable time and the plain printed directions are followed. Many mothers have expressed their sincere gratitude for the cures it has effected. For sale by all druggists.

El Hill, Lumber City, Pa., writes, "I have been suffering from Piles for twenty-five years and thought my case incurable. DeWitt's White Hazel Salve was recommended to me as a pile cure, so I bought a box and it performed a permanent cure." This is only one of thousands of similar cases. Eczema, sores and skin diseases yield quickly when it is used.

The Copious Showers. At Aurora, Hamilton county, rain fell last night to a depth of four inches. At Wahoo this morning at 7 o'clock a fall of three inches had been recorded and it was still pouring down in torrents. Eastern and central Nebraska was thoroughly drenched last night and from appearances today there is more to follow.

The Old Settlers' Reunion. The eight annual reunion of old settlers will be held at Union August 13 and 14. A man who misses an old settlers' reunion this year is neglecting an important part of his education. There will be eloquent orators and bands of music. And there will be more. There will be a chance to mingle with the men and women who have done most to make Nebraska. A man who could not put in a couple of days at an old settlers' reunion simply listening and come away with material for two months' thinking would be narrow and barren in mind. A meeting of the committees will be held tomorrow at which it is expected to complete the arrangements. A grand time is anticipated.

A Rate War. Present prospects favor a lively rate war in passenger business during the coming month between Chicago and Salt Lake and intermediate points. The western passenger agreement has been boldly broken and efforts of two days have failed to patch up the troubles. Low rates are already openly offered by one road, a big competition, practically operating as a cut in rates, is being paid by another, and the remaining through lines are reduced to the necessity of falling in line or getting none of the business.

The trouble began over the rates for the meeting of fire chiefs of the United States, which is to be held in Salt Lake beginning August 10. Western roads decided to make special rates for the meeting on the homeseekers' excursion plan, the fare being the cost of a one way ticket plus \$2. All the lines were quietly working up business for the occasion when the Chicago, Milwaukee & St. Paul announced an open rate of \$30 from Chicago to Salt Lake and return, that being \$14.50 below the agreed rate on the homeseekers' excursion plan. About the same time the Union Pacific jumped over the traces and announced that it would run cheap side trips, give stop-overs and other privileges which it had originally been decided should be denied. The St. Paul gave as its reason for allowing the low rate that the Burlington was offering a big commission on the sale of its tickets, a commission which practically acted as a reduction of \$14.50 and that it had taken the protested action in self-protection. The Burlington, on the other hand, declares the St. Paul had secured an immense proportion of the business by offering things which the road had decided against; that it had tried to get legislation in its favor, and failing, had been obliged to make the reductions.
