Children Cry for Pitcher's Castoria.

oxygen starvation
You can starve the body in more ways than one; you can give it food and not feed it. It needs oxygen. The oxygen you get from the air is carried to all parts of the body by the red corpuscles of the blood. One drop of blood contains millions of these. When these are deficient in blood, we call it poor blood, and it shows itself in general weakness, lack of appetite, and loss of weight. What you want is something which will make more red corpuscles.

Scott's Emulsion
of cod-liver oil, with hypophosphites, is something more than an oil. Its peculiar action depends on a number of substances—active principles—which will increase the red corpuscles of the blood.

Beatty's Organs and Pianos.
Hon. Daniel F. Beatty, of Washington, New Jersey, the great Organ and Piano manufacturer, is building and shipping more organs and pianos than ever. In 1870 Mr. Beatty left home a penniless plow boy, and by his indomitable will he has worked his way up so as to sell so far, nearly 100,000 of Beatty's Organs and Pianos since 1870. Nothing seems to dishearten him; obstacles laid in his way, that would have wrecked an ordinary man forever, he turns to an advertisement and comes out of it brighter than ever. His instruments, as is well known, are very popular and are to be found in all parts of the world. We are informed that during the next ten years he intends to sell 200,000 of his make; that means a business of \$20,000,000, if we average them at \$100.00 each. It is already the largest business of the kind in existence. Write or call upon Daniel F. Beatty, Washington, New Jersey, for catalogue.
