THE NEWS' LEAFLET NO. 8 (Cut this out and put it in your pocket for reference.) One of the misleading statements often made by silver stump speakers is as follows: "All we ask for silver, is that it shall be admitted to the mints on equal terms with gold. If I have one thousand dollars worth of gold bullion, I can take it to the mints and have it coined. Why should I not enjoy the same privileges if I happened to have a thousand dollars worth of silver bullion? Why should my gold be admitted to the mint and my silver shut out?"

This question never fails to elicit loud applause. "That's a cinch—good boy—hit him again." The answer is nevertheless obvious. If I have one thousand dollars worth of gold bullion and take it to the mint, the government coins it for me and stamps it \$1,000. If I have a thousand dollars' worth of silver bullion and take that to the mint the government, so long as the ratio remains 16 to 1, coins it and stamps it, at the present price of pure silver, \$2,900. This is not equity of privileges between the two metals; it is gross partiality and favoritism of silver. The government has no right to do it. It has a right to do it, on its own account, if having said that a silver dollar shall be equal to a gold dollar, it stands ready to make that guarantee good. It has no right to let any dollar which it has issued, whether of silver or of paper, fall below par. If it does it is guilty of bad faith. It has no right to take 50 cents worth of silver which does not belong to the government, but to a private citizen, coin it, stamp it "one dollar," and give it back to the owner. An irredeemable silver dollar, intrinsically worth only half its face value, is a cheat.

"Why," says the silverite, "it used to do it. All we ask is that the government shall return to its ancient practice." No, it never did it. When it coined 371 1/4 grains of silver on private account, for the owner, that silver was worth 100 cents in gold. Now it is not. That is the difference, and a great difference, too. The intellectual and moral perceptions of the man who cannot see it must be feeble, indeed.

If the proposition in the Chicago platform were to let the owner of a thousand dollars' worth of silver bullion take it to the mint and have it stamped \$1,000, the same as the owner of the bullion has a right to do, there would be none of this anxiety and excitement, on the part of business men, that is every where apparent. It is because the free silver movement contemplates the putting of false valuation upon bullion coined for its owners, that economists and financiers regard the Chicago platform as first dishonest, and then inexplicably dangerous to the interests of the whole people, without distinction of class or pecuniary condition.

Ell Hill, Lumber City, Pa., writes, "I have been suffering from Piles for twenty-five years and thought my case incurable. DeWitt's Which Hazel Salve was recommended to me as a pile cure, so I bought a box and it performed a permanent cure." This is only one of thousands of similar cases. Eczema, sores and skin diseases yield quickly when it is used.

Cart of Thanks. Of unusual interest to every reader of this paper is the announcement made elsewhere in this issue by the St. Louis Globe-Democrat, unquestionably the greatest of American newspapers. The mail subscription price of the Daily and Sunday Globe-Democrat is reduced at one blow, from twelve to six dollars a year, placing it within the reach of all who desire to read any daily paper during the coming great national campaign. The Weekly Globe-Democrat remains at one dollar a year, but is issued in Semi-Weekly sections of eight pages each, making practically a large semi-weekly paper. This issue is just the thing for the farmer, merchant or professional man who has not the time to read a daily paper but wishes to keep promptly and thoroughly posted. It is made up with especial reference to the wants of every member of the family, not only giving all the news, but also a great variety of interesting and instructive reading matter of all kinds. Gored by a Bull. Oakley Andrews, the well-known butcher at Syracuse, had a narrow escape from death yesterday. He went out to the farm of Mr. Leech for the purpose of purchasing some steers and on arriving at the farm he left his team in the road in charge of a companion and went into the cattle yard alone. He had hardly gotten into the field when he was attacked by a bull. The animal made a lunge at the left, looking him on the inside of the left thigh, when Mr. Andrews caught the bull by the horns and held on until his strength failed him, when he fell to the ground. The bull continued to attack him, goring him several times in the breast and stepping on him. The animal got tired and quit and then Mr. Andrews dragged himself to his wagon and was taken to Syracuse for medical treatment. His injuries, while severe, are not dangerous, and he will soon recover. It was indeed a narrow escape.—Nebraska City News.

Rev. Asa Sleeth Retired. The M. E. church conference now in session at Hastings, Neb., has passed a resolution extending sympathy to Rev. Asa Sleeth, of Pawnee City, Neb., and placed him on the conference claimant list. Rev. Sleeth was formerly pastor of the M. E. church of this city and it will be remembered that his son disappeared from Beatrice, leaving his clothing and bicycle on the banks of a stream near there, and has not since been heard from, although a number of those who claim to know have asserted that the boy simply ran away from home. Since the disappearance of the son the father has been prostrated, and it is now asserted that his nervous system is a total wreck and he will never again be able to preach, so he has been placed on the retired list by the conference. This will indeed be sad news to his many friends in this city and extend to him their heartfelt sympathy in his hour of affliction.—Nebraska City News.

A Great Debate. Secretary Keefe, through the efforts of the state central committee, is fast arranging for a great silver debate here the 7th day of October at the county fair. Admission to the fair that day will be only fifteen cents. The largest crowd ever seen on the fair grounds will surely be present.

The paper will be illustrated with portraits of Ian MacLaren, views of his various homes, and scenes in and around "Drumtochty." McClure's for October will have a paper on Li Hung Chang by the Hon. Chester Holcombe. Mr. Holcombe, who is the author of an important book on China, "The Real Chinaman," was for years interpreter, secretary of legation, and acting minister of the United States at Peking, China, and was brought into close relations with the Viceroy. The paper will give his personal observations with Li Hung Chang's heroic labors for the advancement of China. It will be fully illustrated.

\$100 Reward \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & Co., Toledo, O. Sold by Druggists, etc.

In a recent letter to the manufacturers Mr. W. F. Benjamin, editor of the Spectator, Rushford, N. Y., says: "It may be a pleasure to you to know the high esteem in which Chamberlain's medicines are held by the people of your own state, where they must be best known. An aunt of mine, who resides at Dexter, Iowa, was about to visit me a few years since, and before leaving home wrote me, asking if they were sold here, stating that if they were not she would bring a quantity with her, as she did not like to be without them." The medicines referred to are Chamberlain's Cough Remedy, famous for its cures of colds and croup; Chamberlain's Pain Balm for rheumatism, lame back, pains in the side and chest, and Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. These medicines have been in constant use in Iowa for almost a quarter of a century. The people have learned that they are articles of great worth and merit, and unequalled by any other.
