OPENING OF THE FAIR.

The Best Stock, Floral and Horticultural Display Ever Made in Cass County.

Secretary Keefer and President Windham are busy as bees today getting everything in readiness for the crowds of people that are expected to throng the fair grounds tomorrow.

The race track is as smooth as a billiard table and THE NEWS speaks by the card when it says the fastest horses ever seen at a county fair in this state are already on the ground and will make Thursday and Friday great days.

The city schools will close every afternoon during the fair in order that teachers and pupils may attend.

Secretary of State Piper and Superintendent Corbett and other state officials will be at the grounds Wednesday and will speak down town in the evening.

On Thursday and Friday afternoons Professor Sexton, the world-famed aeronaut will mount to the clouds in his monster airship which has made hundreds of trips to cloud land.

From the entries already made something extra good in bicycle riding may be expected.

Price of admission to the fair on Wednesday has been reduced to 15 cents, so that everybody can hear the great silver debate between Governor Crouse and Hon. David Overmeier of Kansas. This will be an event that should bring 5,000 people to the grounds.

The balloon ascension on Wednesday, when two trained dogs will be sent several thousand feet high, and at the crack of a pistol they leap from the balloon and come down in a parachute, is the most thrilling act ever witnessed on a fair ground, and will positively take place as advertised.

Two Iowa couples were married by Judge Spurlock this afternoon at the cosy parlors of Mr. and Mrs. Pearlman. The judge kept his equilibrium and could have tied up several more without regret or loss of sleep.

Judge Spurlock has such a penchant for speaking the fateful words that most folks are delighted and some even want to get married over again. His fame has spread over a large part of Iowa and half way through Missouri, the result of which is lively times at the court house when they come in droves just to get Mr. Spurlock to tie the knot.

Van Vredenburg's Famous Painting. An exquisite painting in fourteen colors of Van Vredenburg's oil painting, "Our Bench Show," representing a yard of playful puppies (size, 10x36 ins.) is given to every subscriber with the December issue of Demorest's Magazine (published November 15).

This issue is bound in a beautifully printed cover, and is replete with illustrations and reading matter pertaining to the X-mas holidays. It is sold for 20 cents a copy. The Van Vredenburg alone in this one number is worth more than the price of a year's subscription. It is the cutest picture we have seen and appeals to every lover of art and to everyone who is fond of dogs. Any of our readers who wish this beautiful picture can, by cutting out this notice and sending it to the Demorest's Magazine, 110 Fifth Avenue, New York, with 20 cents in stamps, receive it by mail, carefully packed, and at the same time a copy of the X-mas Demorest. The magazine, by the way, has been phenomenally successful during the past year, having increased its subscription list to 350,000 names—a clear gain of 100,000. There must be something in a magazine that can do that.

THE NEWS' LEAFLET NO. 18.

(Cut this out and put it in your pocket for reference.)

One of the most frequently repeated assertions of the friends of silver is that the lack of silver money has caused the fall in the price of wheat and other farm products, and that the addition of more money to our currency would bring the price of wheat up to \$1 per bushel or more. They indignantly deny that this would be because of the depreciation of silver as a standard of value, but say that the mere addition of more money to the circulating medium of the country would cause prices to advance.

Here is a table which shows the amount of silver money in the country in each year since 1871, and the average price of wheat in each year. It will be seen that the amount of silver money in the United States in 1895 was twelve times as much as in 1871, and that the price of wheat when we had the most silver money was just two-thirds what it was when the silver was one-twelfth of the amount which it is today. Does this look as though "more silver money in the country" would make the prices higher?

Table with columns: Year, Silver Currency in the U.S., and Av. Price of Wheat. Data points from 1871 to 1895 showing a significant increase in silver currency and a corresponding decrease in wheat prices.

The fact is, the fall in the price of wheat is due entirely to different causes and is the result of an enormous production in other parts of the world with cheap labor and cheap transportation. Senator Peffer says in his report to the senate on the low prices of farm products that wheat in India, where wages of farm hands run from 6 to 10 cents per day, is produced at a cost of about 13 cents per bushel. Adding the cost of transportation to this, it is possible to put wheat of India into the markets of London at a total cost of 50 cents per bushel, which is much less than the cost of producing it on the average farm in the United States. In other parts of the world, where labor, land and transportation are also cheap, the production has also enormously increased, thus filling with their low price the markets of the world which formerly drew their supplies from the United States.

Send It to His Mother in Germany. Mr. Jacob Esbensen, who is in the employ of the Chicago Lumber Co., at Des Moines, Iowa, says: "I have just sent some medicine back to my mother in the old country, that I know from personal use to be the best medicine in the world for rheumatism, having used it in my family for several years. It is called Chamberlain's Pain Balm. It always does the work." 50-cent bottles for sale by all druggists.

Mrs. William Hinton, who resided with her husband across the river from this city, died at 12:30 yesterday afternoon after a painful illness with an abscess on one of her lower limbs. W. Johnson. We did not learn the particulars of the funeral.

Arranging His Interruptions. The New York Sun tells this story illustrating Candidate Bryan's propensity for playing to the galleries: "I was in Washington," said a man in the Fifth avenue hotel recently, "when the boy orator of the Platte was a member of congress. You know that to attract attention a speaker must be interrupted in the course of his speech. The oftener he is interrupted the better the speech. It's a trick of some congressmen to arrange for interruptions ahead of time. Bryan was one of those congressmen. He came to me one day and said: 'Look-a-here, now; I'm going to speak tomorrow and I've got one interruption. I want to get one more. Now, when I say so and so, I want somebody to ask me this,' and he handed me the question. 'They'll think, you know, that it's a stumper, but I've got the answer for it. I'm ready for them.' Well, of course, I got a man to interrupt him with the question. I just tell you this now to show that even in those days the boy orator was playing to the galleries, and he hasn't got over it yet."

Cheap Excursions to Buffalo Bill's Wild West and Congress of Rough Riders of the World.

It is not more than once or twice in a life-time when a community so situated as the one in which we live is placed upon a level with the greatest centers of the world, such as London, Paris, Berlin, Vienna, Rome, Madrid, New York, Boston, Philadelphia and Chicago, in respect to one of the really most important features of life. Reference is made in this instance to amusements. The greatness of civilized development can be measured by the diversions of the people. In the cities named above it is unanimously agreed that the greatest of all the world's amusement exhibitions is Buffalo Bill's Wild West and Congress of Rough Riders of the World. This was the sensation of all Europe for five years. It was the one distinctive feature at the World's Fair at Chicago in 1893. It was the one great attraction in New York in 1894. Last year it was exhibited in over 100 of the principal cities of the East. This year it will tour the Western States and will exhibit at Omaha October 10 and Lincoln on Wednesday, October 14.

The management states positively and without any reservation that it will be the same exhibition, man for man and horse for horse, that has made it the most marvellous exhibition of any kind in all history. Excursion trains will be run from here on all lines of travel and especially low rates will be made for the round trip. This is one exhibition that can be conscientiously endorsed, and its announcements may be relied upon implicitly. It is well worth a day's journey to see. It would require a column to enumerate its details and its fame is so great that it is unnecessary to do so, even were the space available.

A packed house greeted Bill Nyo and Wm. Hawley Smith last night. There was not a vacant seat in the opera house. Mr. Smith is noticeable in not using any of the arts of the professional elocutionist. His ideal is nature and he aims not to stray far from it. He is a success as a humorist, but his strong hold is in his rendition of selections of an opposite nature. He appealed strongly to his audience, and was recalled after every number.—Rochester, (N. Y.) News. At the Presbyterian church in this city, October 19.

While neither as expensively finished nor as fine to look at as a palace sleeper, it is just as good to ride in. Second class tickets are honored and the price of a berth, wide enough and big enough for two, is only \$5.

For a folder giving full particulars, call at the nearest B. & M. R. R. ticket office. Or, write to J. Francis, Gen'l. Pass'r. Agent, Burlington Route, Omaha, Neb.
