

# Great July Clearance

# Sale of CLOTHING..

As a general thing July is the dullest month in the year, but we are going to change the program this year. While our sales have been good this spring, our collections have been very bad. Money has been hard to get hold of and the time has come when we must have it. Our stock is in good shape, but we intend to "trade dollars," as it were, by giving you Clothing, during July, at cost, or below for

## CASH AND CASH ONLY.

We cannot afford to sell Clothing at such prices and charge it on the book. Therefore, when you come, come with the CASH. This sale not only includes our Childrens, Boys' and Men's Clothing, but our entire line of Furnishing Goods.

Children's all wool suits at \$1.50, \$2 and \$2.50; Boys' all wool suits at \$3, \$3.50, \$4 and \$5; Men's all wool suits at \$5, \$6.50, \$8 and \$10. You can hardly appreciate these prices until you have examined the goods. No cotton field material in these suits. The wool is from "woolen sheap." Remember, this sale lasts just one month.

news. The following facts were told by a professor in one of our western universities: "For about ten years I have made a specialty of examining and reporting upon cases of real or suspected poisoning. As a number of my cases have been connected with mercuric trials I have had considerable notice in the daily papers. This reputation for making analyses for poisons has brought me a queer class of patrons.  
"Every year I have one or more old men come to me with samples of food to be examined for poison. These men, without exception, have married young wives, and when the husband is taken sick and does not recover as quickly as he thinks he should he begins to suspect that his young wife wants to get rid of him and is poisoning him gradually through the medium of his food. Of course he does not wait his wife to know of his suspicions, so he quietly gets a sample of the food he suspects, and at some unusual hour for work, generally either early in the morning or very late in the evening, he comes to me and tells me very secretly that he wishes to have an examination for poison made.  
"Now the odd part is that though I have made a number of such analyses I have never found poison present in any case. Then the husband is very much afraid that his wife will find out he suspected her, and he gets out of my laboratory in the quickest and quietest manner possible. So every year I expect to see some elderly man coming apprehensively up my office stairs with a well concealed sample of food about him to be examined for poison. Every year he comes, every year I make my analysis and find no poison, and every year the old gentleman gets information that he considers cheap at the price."—Chicago Journal.

**THAT OLD FUR GARMENT** is worth almost as much today as the day you bought it; but you don't know it. As long as the hair is on the skin it is GOOD. Moth eaten or worn spots can be taken out without even showing a seam.  
The only question is what can be done with it. Its out of style and worn. Maybe it needs new lining, or should be stylishly trimmed. The old coat would make a beautiful full sweep cape, and capes are just the thing this season. There's that old fur garment you haven't worn for years, because it is all "fagged out." Why, that will make a beautiful collarette; just the thing for fall and spring wear. Then just look at that garment. It is entirely "gone up." The hair stands the wrong way on it and it is worn and matted. "Its no earthly use." Well, it does look bad, but by the process of glazing the fur is brought out and cleaned and then, when remodeled, it is like new.  
During July and August of this year, we will make a specialty of ALTERATIONS and REPAIRS. Our system of measurement is such we can fit you as well by mail as by personal measurement. We make NEW FUR and PLUSH GARMENTS to YOUR ORDER. ALL WORK GUARANTEED. Write to us.
