LOUISVILLE BOYS WERE VICTORIOUS.

Treat the Blencoe, Ia. Team With a Complete Shut-out.

Tom Parmele's Band of Ball Players Put Up a Fine Game, Making But Two Errors—Pleasure of the Game Marred by a Continuous Shower of Rain—A Brief Description of the Game.

Tom Parmele's colts added another scalp to their long string yesterday when they defeated the Blencoe, Ia. team by a score of 7 to 0. It was a pretty game, although Blencoe never had a chance to win, as their inability to hit Jamieson prevented run getting. And Jamieson is about the best pitcher in the pitching line that has happened for many days in these parts. His work yesterday was simply superb, he allowing Blencoe but one scratch single and striking out seventeen men. In that may be read the story of the game. His work was backed by clean and sharp fielding which Louisville can be depended on to put up when it is needed. Blencoe was also in evidence when it came down to pitching, as Turner held the heavy hitting colts down to twelve hits which were scattered through the nine innings and performed the feat of striking out nine men including the old veteran, Jones. Had he been supported as well as Jamieson the score would have been closer. The visitors played good ball, but their fielding was off at critical times. Many of them seemed troubled with nervousness and fumbled the ball when clean fielding was highly important.

Blencoe opened the ball in the first when Rooney struck out. Bob Brown hoisted a fly to left which Fetz captured and then Shafer got into the game by making the hit of the season. He baited a ball to Fetz so hot that that estimable gentleman could not handle it and failed to get him out. Turner ended the agony with an out from Clement to Reihart. The remaining innings were simply repetitions of the first for Blencoe except that never again did they see the ball. Jamieson got down to work, and the way the ball came to the plate was a caution.

In the entire nine innings twenty-nine men went to bat, and only one man got beyond first base. For Louisville, Clement punched out a fly into right which the fielder dropped, and Jamieson followed with a three-base hit which scored Clement. But Jamieson's hit didn't win him much. Shafer had his eye on him and when the long pitcher wandered off too far he slapped the ball to Brown and Jamieson was out. Jones made a single and went to third on Rooney's fumble of Irwin's hit. Reihart struck out and Adams fouled out, ending the inning. In the second Parmele went out from Deur to T. Brown, and Pflug fouled out. Then Fetz made a hit of his life. He landed square on one of Turner's curves and lifted it clear out of the lot. When it came back to the diamond Fetz had completed the circuit and added another tally to the list. Clement ended the inning with an out from Turner to T. Brown. Jamieson singled in the third and Jones advanced him to second with a sacrifice and he went to third on a passed ball. Irwin singled and Jamieson scored. Irwin went to second on Reihart's single, and both men advanced a peg on Adams' sacrifice. Parmele could not do them any good, however, and made the last out. Pflug opened the fourth with a single and went to third on Fetz's hit and scored on Clement's single, as did Fetz. Clement was advanced two bases to third on errors, but was left there, as Jamieson went out from short to first, and Jones and Irwin struck out. In the sixth Fetz struck out and Clement singled. He stole second and scored on Jamieson's single. Jamieson was caught by Turner at second base, and Deur completed a double play by throwing Jones out to first. In the eighth Pflug struck out and Fetz went to first on T. Brown's error, but was caught at second. Clement singled and stole second. He went to third on Rooney's fumble of Jamieson's hit and scored on an error of T. Brown. Jones for the second time struck out and ended the game.

While the score was one-sided, it does not detract from the merits of the Blencoes, who can play fast ball. They are the equal of any other team in the amateur line around here, and their defeat is almost wholly due to inability to hit Jamieson. They are a gentlemanly set of players and understand the game thoroughly. There was a fair crowd present, although the rain fell continuously, and marred the pleasure of the game.

Out in Colorado it has been raining every day for a week, and the damage caused by the hard rains in the vicinity of Denver reaches into thousands of dollars.

POLITICAL NOTES.

At the silver Mass convention in Weeping Water Monday Mike Morrissey of this city was chairman, M. Davis of this city secretary. Mike Cayvey pushed the button and John Leyda did the rest.

H. D. Travis was chairman of the democratic county convention and D. C. McEntee was secretary. Quite a contest ensued over the election of chairman of the county central committee between Dr. Hungate, Chas. Grimes and D. C. McEntee. Hungate was elected by a close vote.

In printing the fusion ticket yesterday, we forgot the name of Fred Patterson for surveyor. Fred has been running for that office ever since the Indians were fired off of Gospel Hill, and the habit of being defeated, has become so fixed, that to elect him might cause an attack of heart failure. Republicans must see that Fred escapes unharmed.

Phil Thierolf blossomed out as a first-class medicine mixer Monday. The cops were to have coroner and the democrats surveyor on the deal, but Phil wanted Sattler for coroner and he said he would trade surveyor for coroner and give \$1.50 to boot. The democrats agreed and Phil went over to the pop circus where the situation was explained and the swap made in short time. Phil was the only democrat on the grounds that day who scored a point.

A Special Meeting.
The city council met in special session last evening to consider the compromise of the water company suit, and an ordinance in settlement of the matter was passed, which will be found in another column. Walter White has been a careful guardian of the taxpayers' interests, and from the first he and Sattler have opposed any extension of the franchise as being inimical to the best interests of the public. The fact, however, being well known that the city could not hope to win the present suit entered largely into controlling the members who voted to stop the fight at once. Time will tell as to the wisdom of the council, and if it should prove bad for the city the zealous efforts of Walter White, seconded by Sattler and Heisel will not be forgotten. Had the city authorities placed any confidence in the water company's attorneys here the matter would have been settled long ago. One fifth of the tax levy of the city has been required to pay water rentals, and it certainly looks as if some relief was due.

A Fine Jewelry Store.
Henry Boeck, who owns the best business corner in the city, recently placed a partition in his room and put in a fine front on Sixth street for Straight & Saelzer, who crowded their stock into the rear room, thus using the new Sixth street front. The corner room, with its elegant windows extends back sixty feet, and is already occupied by Henry Snyder, who has put in one of the finest lines of jewelry, watches, clocks and fancy stationery to be found in the state. The fixtures are of polished walnut, and instead of shelving rich walnut cases with glass doors grace the sides of the room. Omaha can not boast of more elegant quarters, and Henry, having proved himself a fine workman and good salesman, will no doubt continue to have a flourishing trade.

He will continue to sell goods at prices below Omaha, and hopes to merit the best class of trade in high grade goods.

Letter From A. H. Weckbach.
WIEN AUSTRIA, July 16, 1897.—Editor of THE NEWS: As I promised to write you when I went away, I will now try to keep my word. I left New York June 17, in a palace steamer, and was on the ocean eight days, but never missed a meal. I landed in Hamburg, where I stayed two days and a half, and then went to Berlin. I tell you, that's the town for your "whiskers." I stayed there three days and saw many things I had never seen before. It's a fine city, with fine people. I then went to Stuttgart, which is an interesting city; from there to Mannheim, and then down the Rhine, and if there is a heaven on earth it is along the blue waters of the beautiful Rhine. No one drinks water here—it's all wine, and the finest kind, too. The scenery between Mannheim and Kolln is grand, I tell you. From the last place, I went to my old home where I was born, in the little village of Waldhausen. After a nice visit there I went to Wurtzberg, Darmstadt, Muenchen, Strasburg, the cathedral town, and I am now at Wien, (Vienna) the city which is said to have the most beautiful parks in the world. I will stay here a few days, then I go to Carlsbad, and from there to Switzerland. I will be home in September, and then can tell you better than I can write of my trip. Tell Barney Miller his St. Bernard dogs are coming by telegraph, to look out for them.

With best regards, I am yours,
Very truly,
A. H. WECKBACH.

INFORMATION AND OPINIONS.

The Nebraska City News, the democratic organ of Otoe county, is opposed to fusion. If it will come up this way and sample the soup dished out by the fusionists it will have ample reason for declining that sort of aid.

Chief of Police Melick of Lincoln has resigned.

Uncle David McCaig was in town yesterday and the fact that he had a conversation with Dr. Jekyl (Chapman), lends us to think that the democratic management has been given up in disgust, and that the cops are now to be the object of his kindly care. This means several more votes for the republican ticket.

The silver dollar is today worth 43 cents, or would be worth only that amount if it were not backed up by the gold dollar. It continues to decline, but the country refuses to go into bankruptcy on that account, and every day furnishes proof that the Bryan theory of finance is thinner than moonshine.

The "furriners" have discovered a taste for buckwheat cakes, consequently large amounts of the grain and flour were sent abroad last year.

The government has established a mail route to that part of the Klondyke in Alaska Territory, whereby the miners can hear from home oftener than heretofore, and without going 100 miles to a postoffice. Uncle Sam never sleeps.

The Union Pacific took a whirl at record breaking Wednesday and sent a train from North Platte to Omaha, 291 miles, in 275 minutes, this beats the record for that distance, and it will be some time before this rate can be excelled. The same train passed through here via the M. P. for St. Louis yesterday, carrying Union Pacific receivers and officials.

The terms of thirty senators will expire in 1899. In the first senate of the United States there were only 26 senators all told.—Ex.

In Montana sheep are sheared by machinery propelled by waterpower. California has a new grain harvester, with a cutting front of 52 feet, which reaps, threshes and sacks 180 bushels of wheat an hour. The American farmer is keeping up with the times.—Ex.

The British navy has no armored vessels which will compare with the New York and Brooklyn. The visit of the Brooklyn to the Queen's jubilee has stirred them up and the First Lord of the Admiralty has recommended a supplementary naval estimate to the house of commons for four vessels of a like kind, and says "they are a necessity in view of other foreign navies."—Ex.

A Grand Opportunity.
There are today thousands of young people on the farms and in the villages who are tied down by lack of education to work they heartily dislike. Are you one of them, my friend? If so, the Grand Island Business and Normal College can put you on the road to success if you are ambitious and willing to study. It makes no difference how backward you are provided you are plucky and mean business. We teach everything necessary for a successful start in life. If you are short of money we will accept a good note without interest for tuition or if necessary we will furnish everything—tuition, board, and books and give you time to graduate and pay for same afterwards. Business, Normal and Shorthand courses. Board \$1.50 per week. Established 12 years. College Record sent free or catalogue for 6 cents in stamps. This is your chance of a lifetime. Will you let it slip by. Address,

THAT OLD FUR GARMENT

Is worth almost as much today as the day you bought it; but you don't know it. As long as the hair is on the skin it is GOOD. Moth eaten or worn spots can be taken out without even showing a seam.

The only question is what can be done with it. Its out of style and worn. Maybe it needs new lining, or should be stylishly trimmed. The old coat would make a beautiful full sweep cape, and capes are just the thing this season. There's that old fur garment you haven't worn for years, because it is all "fagged out." Why, that will make a beautiful collarette; just the thing for fall and spring wear. Then just look at that garment. It is entirely "gone up." The hair stands the wrong way on it and it is worn and matted. "Its no earthly use." Well, it does look bad, but by the process of glazing the fur is brought out and cleaned and then, when remodeled, it is like new.

During July and August of this year, we will make a specialty of ALTERATIONS and REPAIRS. Our system of measurement is such we can fit you as well by mail as by personal measurement. We make NEW FUR and PLUSH GARMENTS to YOUR ORDER. ALL WORK GUARANTEED. Write to us.
