THE country is just now swarming with oily tongued strangers, selling all imaginable kinds of fake goods. Beware of them. When you want to buy anything, go to the reputable merchants who are with us all the year round, who pay taxes and help to bear the burdens. The stranger is playing a game; and he plays it so that he will always win, and you will always lose.

MR BRYAN seems to be sorry that Mr. McKinley regards the \$900,000,000 of paper, government paper, and silver, as obligations ultimately redeemable in gold. The government says that all its money is to be maintained at par. But if the government refuses to exchange its papers for gold and its silver for gold, is it not true that paper and silver are not at par with gold? It looks that way to us. If silver were its own redeemer it would be worth only 50 cents in the coined dollar .- Ex

So an amendment to the pension law will be adopted probably this session excluding from the benefit of a widow's pension any wife of an old soldier may take unto himself after the first of July next.

THE government is taking steps to help those who went to Alaskaka and are without food. This looks much like an expensive display of sentiment. Just why the national government should pour out its money to help harly expedition any more than to at home, we confess is not clear to our obtuse intellect. Sentiment should not be too conspicuous in affairs of state, and the expenditure of money gerous precedent that may be followed with even less reason at another time.

REPRESENTATIVE MAXWELL is making an effort to amend a house rule for the purpose of permitting wider latitude of debate. It must be obvious to the most casual and shallow thinker that while Representative Maxwell could himself not participate to any effective extent in debate, however wide a latitude the rules might provide, his efforts to still further excavate the cave of the winds is certain to warm the cockles of the populist heart, and that's what he is in Washington for. The house now debates and debates until the winds whistle mournfully around the capitol and the echoes are regretted from Hatteras to Mendicino. The trees for miles and miles around Washington are kept constantly lashing the earth as if a tropical storm were in progress, and the city has no tall buildings, because of the danger of having their upper stories blown off. Latitude, also longitude, of debate, are dear to the populist heart. They care nothing for depth. trespassing on the Indians. It is the superficial area they dote on. TEXAS SNAKE STORY.

A Rattler and a Mexican Affeat on a Plank For Hours.

"I have heard of many men being placed in odd predicaments," remarked Captain Jenkins, "but one of the most peculiar situations that ever befell an individual was assuredly that of an ignorant Mexican a good many years ago near Indianola, Tex., at the time the town was so nearly destroyed by a tropical hurricane or cyclone. I have heard the story many times, although it happened so long ago. It was during the extreme height of the cyclone. Houses in Indianola were going to pieces like most potent factor just now is, first the so much paper, boats were being wrecked, and it looked decidedly bad for the individuals who were located in exposed portions of the coast. It was about this time that a little Mexican settlement on one of the coast islands adjacent to Indianola began to go to pieces, the water having risen over the top of the sand dunes and the waves smashing the loosely constructed buildings of the settlement into kindling wood. Jose Baretti, one of the inhabitants of the settlement, was separated from the remainder of his family, and, clinging to a long plank, was driven into the inner bay over the ruins of the settlement.

"When the day broke, he was out of sight of land. The waves had calmed down and the storm was gone. As he cast his eye about in the early dawn, to his horror he found the other end of the plank occupied by an immense rattlesnake. As soon as the snake observed the Mexican he began to writhe and coil in an odd sort of manner, and apparently to make attempts to reach the behold. The hours went by. The snake kept up his natics, but for some reason did not get any nearer the Mexican. The unfortunate fellow was afraid to leave the plank, knewing that he would drown, and at the same time he was in until midday, when a fishing smack manga. came sailing along on the lookout for castaways.

"The Mexican was seen from the on board more dead than alive. Ran and Caught the Car.

A short man with a fat, red face ran out of the Erie railroad depot at the foot of West Twenty-third street the other forenoon and chased a crosstown car which was midway between Eleventh avenue and the ferry. He was a fast runner and held his hat in his left hand as he gained on the car. The passengers on the rear platform, in a spirit of mirth, encouraged him: "Don't give up. You'll make it.

Among the horses were a span of carriage horses presented to Mrs. Davis by the citizens of Richmond during the heyday of the Confederacy; also a splendid saddle horse, the pride of the ex-president him-

On the 11th of May, the next day after the capture, and while on our way back to Macon, as officer of the guard over the distinguished prisoners, I rode by the side of Mr. Reagan, later a senator from Texas. I found him a very fine gentleman. During that day's march a courier from Macon notified us in printed slips of the \$100,000 reward offered for Mr. Davis' capture, and which notice connected Davis with the assassination of President Lincoln. When Mr. protested that Mr. Davis had no connection whatever with that sorrowful

Besides the suit of men's clothing worn by Mr. Davis he had on when cap tured Mrs. Davis' large waterproof dress or robe, thrown over his own fine gray suit, and a blanket shawl thrown over his head and shoulders. This shawl and robe were finally deposited in the archives of the war department at Washington by order of Secretary Stanton.

The story of the "hoopskirt, sunbonnet and calico wrapper" had no real existence and was started in the fertile brains of the reporters and in the illus trated papers of that day. That was a perilous moment for Mr. Davis. He had the right to try to escape in any disguise he could use.
