

ACCIDENTAL SHOOTING AT UNION.

County Treasurer Eikenbary Shot in the Right Ankle.

While in the Act of Crawling Through a Hedge Fence the Shot Gun Was Discharged, the Contents Lodging in the Ankle and Foot—Amputation of the Foot Thought to Be Necessary.

From Wednesday's Daily. County Treasurer A. E. Eikenbary, who has been kept quite close in his office attending to his duties, went down to his home near Union a few days ago for rest and recuperation. Today, about noon, while out rabbit-hunting, as he went to crawl through a hedge fence, the shot-gun which he carried was in some way discharged, and the entire contents of one barrel was lodged in his ankle and foot.

He was carried to the nearest house and Dr. Humphrey of this city, and a physician from Union were summoned. It was given out that the foot would be amputated as no hopes of saving the limb was entertained, the ankle being torn away badly.

Mr. Eikenbary's host of friends in this city deplore his unfortunate accident and sympathize with him in his sufferings.

Funeral of Mrs. Gebhardt.

The deceased formerly resided here, and is well-known to many of the old settlers. The pall-bearers will be F. R. Guthmann, Fred Geos, Fred Lehmann, Geo. Weidmann, C. Heisel and F. S. White.

New Diphtheria Cases.

The weather of late has been especially fine for the growth and spread of diphtheria, and several severe cases have been reported. James Mitchell's little folks are among the afflicted, but are convalescent. It is hoped further spread of the disease may be prevented, and that the schools will not have to be closed, though several parents are keeping their children at home on account of the disease.

The progressive issues of Westfield, Ind., issued a "Woman's Edition" of the Westfield News, bearing date of April 3, 1896. The paper is filled with matter of interest to woman, and we notice the following from a correspondent, which the editors printed, realizing that it treats upon a matter of vital importance to this sex: "The best remedy for croup, colds and bronchitis that I have been able to find is Chamberlain's Cough Remedy. For family use it has no equal. I gladly recommend it." 25 and 50 cent bottles for sale by all druggists.

Jollification at St. Louis.

ST. LOUIS, Jan. 11.—The employees of the "Budweiser department" of the Anheuser-Busch Brewery association were remembered with a special gift today. The reason for the celebration was the filling of the five hundred millionth bottle of "Budweiser." These astonishing figures show the great popularity of this beer in American households and all over the world. Five hundred million bottles of a single brand is a record that has been reached by no other brewery in the world, and the officers of that monster enterprise have cause to be jubilant.

Snow Along Railroads.

All the railroads in the state reported snow along their respective lines yesterday morning. The snow throughout Nebraska is of about the same depth as that in Omaha, says the Omaha Bee. In Kansas the snow along the railway lines is about six inches in depth. In Wyoming there has been no snow since Monday, but the thermometer has been steadily falling. The Union Pacific reported temperature ranging from 12 to 24 degrees below zero from the different stations in Wyoming this morning.

LOWER LIMB HAD TO BE AMPUTATED.

Details of the Sad Accident Which Befell Treasurer Eikenbary.

Upon Examination of the Physicians Found That Amputation of the Injured Limb Was Imperative, and the Operation Was Successfully Performed Last Evening—Other News.

From Thursday's Daily. THE NEWS succeeded this morning in learning the full details of the unfortunate accident which befell County Treasurer Eikenbary yesterday afternoon.

It seems he was out quail hunting in his father's orchard, about 2 p. m., and having seen a covey of birds across the fence in another field, he started to cross the fence with his shotgun which he was carrying in his left hand, or under his left arm, the muzzle pointing forward. He was on the top board of the fence with his right limb over, when the board broke and in the fall the gun, which was cocked, was discharged. The entire load of fine shot entered his ankle from the muzzle of the gun, which could have been only a few inches away. The ankle joint was shattered and the two bones of the leg—the tibia and fibula—were fractured for four inches above the joint. The articular surface of the ankle joint was blown to fragments, making a most ghastly and painful wound. The bones were so badly broken and flesh lacerated by the force of the explosion that amputation was found imperative. As soon as the accident happened Mr. Eikenbary called for help, and he was carried into the house.

Doctors Wallace and Davis of Union were quickly called and a telephone message was sent to this city for Dr. Humphrey, who made quick time in reaching the bedside of the injured man. After a careful examination of the wound, the three physicians agreed that amputation was necessary and at 6 o'clock last night, Dr. Humphrey performed the operation, assisted by Dr. Wallace and Dr. Davis.

At 3:30 this morning the patient was recovering nicely from the shock of amputation and seemed in a fair way for complete recovery.

OBITUARY.

John Frederick Stull was born in Germany, May 13, 1831, and in 1834 he came with his parents, Henry and Elizabeth Stull, to the United States settling in Pike county, Ohio. He learned the trade of blacksmith, serving an apprenticeship of two and one-half years at Piketon. He then opened a shop of his own and worked there for two years more. In 1859 he went to Kentucky, then returned to Ohio and lived for a time at Columbus. From the latter city he went to Illinois, and worked at his trade and in the fall of 1855 moved to Council Bluffs.

He met an old Ohio friend there by the name of Sayers, and that gentleman gave him employment. He made a trip out as far west as Salt Creek, and then back to Plattsmouth in February, 1856, where he remained and erected the first blacksmith shop in this county. He continued in business for a time; then took up a preemption claim out on the Platte bottom, where he lived up to the time of his death—January 1, 1898.

He married the lady who survives him December 25, 1856. His wife was also born in Germany, her maiden name being Agatha Hengstler. Six children are living—Jacob, Frederick, Lawrence, Henry, Amelia and Agatha.

The deceased was a member of the German Presbyterian church, and was a kind neighbor and devoted friend. His loss will be keenly felt by his family, to whom he was greatly attached.

Was Too Fractious.

Uncle Sile Greenstate of Elmwood was in town today selling cigars. He says Charley Rivett has reformed and won't play any more jokes on his friends. The latest on Charley was the taking a man out at the rear window of a building, whom Charley was waiting out in front to serve some papers on. This was shown on the stage there recently in a tableau called "Rescued From the Arm of the Law," in which the man escapes by way of the window with a ladder, while the man representing Constable Rivett was munching crackers out in front. The joke was too practical, and Charley has decided to quit.

Rheumatism Cured in a Day.

A few weeks ago the editor was taken with a very severe cold that caused him to be in a most miserable condition. It was undoubtedly a bad case of la grippe, and recognizing it as dangerous he took immediate steps to bring about a speedy cure. From the advertisement of Chamberlain's Cough Remedy, and the many good recommendations included therein, we concluded to make a first trial of the medicine. To say that it was satisfactory in its results, is put very mildly, indeed. It acted like magic and the result was a speedy and permanent cure. We have no hesitancy in recommending this excellent Cough Remedy to anyone afflicted with a cough or cold in any form. The Banner of Liberty, Libertytown, Maryland.

OLD CATERER ON TERRAPIN.

When It Is Ready, the Satisfaction Is in Eating It All Yourself.

James Prosser, a famous colored caterer of this city, dead long ago, furnished the following formula for preparing and serving terrapin, which was published in a gastronomic journal at the time when he was on earth:

"You can't enjoy terrapin unless the day is nippin. Temperature and terrapin go hand in hand. Now, as to your terrapin. Bless you, there is all the more northerly is the terrapin found the better. You eat a Florida terrapin—you needn't despise it, for terrapin's terrapin everywhere—but you get a Chesapeake one or a Delaware bay one, or better still, a Long Island one, and there is just the difference between \$10 a dozen and \$16. Warm water kinds washes the delicate flavor out of them. Don't you let Mr. Bergh know it, but your terrapin must be boiled alive. Have a good big pot, with a hot fire under it, so that he shan't languish, and when it has got on a full head of steam pop him in. What I am going to give you a recipe for a single one. If you are afeared of a tableclothful of sifed flour, just use your multiplication table. Just as soon as he caves in watch him and try his flippers. When they part when you pry them with your finger nail, he is good. Open him nicely with a knife. Bilin him dislocates the snuffbox. There ain't overmuch of it, more's the pity. The most is in the joints of the legs and side lickers, but if you want to commit murder just you smash his gall, and then your terrapin is gone forever. Watch closely for eggs and handle them gingerly. Now, havin' got him or her all into shape, put the meat aside. Take three fresh eggs—you must have them fresh. Bile 'em hard and mash 'em smooth. Now want three table-spoonfuls of cream, salt and pepper (red pepper to a terrapin is just depravity) and two wineglassfuls of sherry wine. Wine as costs \$2.50 a bottle ain't a bit too good. There never was a gozeia in all Portugal that wouldn't think itself honored to have itself mixed up with a terrapin.
