

A Magazine Which Builds Houses.
The readers of the Ladies' Home Journal are about as responsive a clientele as any magazine possesses. About six months ago the Philadelphia magazine started to publish a series of practical architectural plans, showing how artistic houses could be built at moderate cost. It employed a special architect, and his work was certainly artistic. Besides the plans it agreed to furnish complete specifications of each house at a minimum cost. Thousands of people liked the plans given and the series has been a great success for the magazine. This spring the building of over 500 houses, varying in cost from \$1,500 to \$7,000 each, will be started in different parts of the country by Journal readers, in addition to over one hundred houses which have already been built.

A GOOD LETTER.
From the Clerk of the Circuit Court, FERNANDINA, Fla., Feb. 28, 1896.
MR. GEORGE SCHREIBER, Druggist, City.
Dear George:—Please send a bottle of Chamberlain's Cough Remedy. I would not feel easy if I knew there was none of this valuable Remedy in the house. I have given it a fair test and consider it one of the very best remedies for croup that I have ever found. One dose has always been sufficient, although I use it freely. Any cold my children contract yields very readily to this medicine. I can conscientiously recommend it for croup and colds in children.

Yours respectfully, GEO. E. WOLFF, Sold by all druggists.

Mr. Ward L. Smith, of Fredericktown, Mo., was troubled with chronic diarrhoea for over thirty years. He had become fully satisfied that it was only a question of a short time until he would have to give up. He had been treated by some of the best physicians in Europe and America but got no permanent relief. One day he picked up a newspaper and chanced to read an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He got a bottle of it, the first dose helped him and its continued use cured him. For sale by all druggists.

He recently had some very handsome cloth signs painted which he has just put up about town and he has also increased his force of cigar makers. INFORMATION AND OPINIONS.

Two English concerns which recently completed plans for lighting the city of Malaga, Spain, with electricity have been compelled to send to the United States for the requisite plants. After having vainly tried to obtain what they needed in Great Britain, they have finally sent their orders to Pittsburg. Thus the American product has gained another victory, which has been properly recognized and commented upon by our consul at Malaga.—EX.

The telegraph office at Wyoming, Ohio county, on the Missouri Pacific, has been re-established, says the Auburn Post. It has been closed for about two years, but the recent improvement in business on that part of the line was sufficient to warrant the change. Will our demo-pop friends take the above as an evidence of returned prosperity or did Mark Hanna do it?

Mrs. Pittman received the certificate for \$3,000 from the Modern Woodmen of America, Thursday of last week, that being the amount of insurance her husband, the late J. H. Pittman, was carrying in that order. It was received just two weeks after the day that Mr. Pittman was buried, which shows prompt work on the part of the officials.—Nehawka Register.

Gen. L. W. Colby of Beatrice passed through the city last evening enroute to Iowa, says the Nebraska City News. He says that his boy came home Tuesday night, having been gone eight days, and with \$2.50 visited Nebraska City, Rulo and all the small stations along the line. The boy has had all of the touring that he wants for several years and promised not to try the experiment again.
