THE LARGEST CIRCULATION Of any Cass County Paper.

YOUR Uncle Sam is getting his fighting clothes on and pretty soon you will see the Spanish flag fly.

JOHNIE get your gun is no longer a misnomer. We are to have war and Johnnie old boy will have an opportunity to get in his work.

AN enthusiastic Colorado woman is ready with a troop of cavalry, but is totally indifferent whether she goes to the Spanish seat of war or the Omaha exposition.

PRESIDENT MCKINLEY has planted a sapling in the white house grounds thus re-establishing a custom instituted many years ago and regularly observed until Grover Cleveland hit it with a sand bag.

AS THE seeding time approaches many people will feel constrained to roast J. S. Morton for his action as secretary of agriculture in cutting off the government supply of seeds. It costs something to be a patriot.

SPAIN has not solved the question of naval coal piles on this side of the Atlantic. It is believed by good judges that a Spanish fleet in American waters could soon be reduced to helplessness by cutting off its fuel supply.

THE Central City Democrat, which has been scientifically named, sets its foot down against a bird term for Gov. Holcomb. "That will not do, boys; it won't do at all," says the Democrat. "Our people would beat the twelve apostles if they were running for a third term."

THE democrats in their city convention here last week, spiked fusion very effectively, so far as this county is concerned. Populists who would consort with them after such a square slap in the face as was given, would be very cheap sort of men. From those we have heard talk, fusion is squelched for this year in old Cass.

MR. BRYAN is evidently not in it for his health. He made a speech at Lawrence, Kas., Wednesday night on the silver bug a bo which netted him \$175. His crocodile tears for the suffering and down trodden laboring people are thus wiped away and his head aches for the suffering masses assuaged by the healing balm of money not earned. Oh, demagoguery, thy name is surely Bryan.

THE populists have been slapped in the face so many times by the remnant of Jeffersonianism in Nebraska it would seem that they would some time come to their senses and give the demagogues the rebuke they deserve. The latest insult is the withdrawal, through democratic influence of several candidates from the populist city ticket. Let the populists vote republican ticket and they will be voting for their friends. At least, not for men who are seeking to use them as cat's paws.

PLATTSMOUTH can well afford to donate liberally to the cause of the suffering Cubans. Everybody can afford to give something but it ever so little. None of us would suffer from the loss, if necessary of one or two meals, that some starved creature of the little isle might enjoy one wholesome feast after many days and weeks of fast. F. E. White's remarks at the meeting last night that Plattsouth should send five car loads of provisions to the sufferers was well timed. Every one should respond.

SINCE John P. Sutton, of Lincoln, has heard of a possible alliance offensive and defensive with Great Britain he shows a disposition to consider it purely offensive, especially to himself. This is all wrong, John should remain neutral in a case of this kind and not harrow up the feelings which have been slumbering since 1812. England has a navy that is a pretty good thing to have around in case of a dispute with a foreign power, its monster battleships forming the most convincing argument in favor of a proposition that a government ever had the pleasure of considering.

SECRETARY GAGE says the financial resources of the government are equal to any drain which a war could bring. This is the judgment of an able and conservative man, who is in a position to know what he is talking about. The government could undoubtedly get, right here at home, all the money which it would need to carry on the war. The capital of the outside world, too, would be at our command. Of course she would not depend on loans for all the extra expenditures of war. Increased taxation would be resorted to at the outset, though not to anything like the extent seen during the war of secession. This war would be short, and expenditures would be made on the gold basis. Consequently the cost of war would be far lighter this time than it was a third of a century ago.]

INFLOW OF GOLD.

The enormous sums of gold that are coming to us on both sides of the continent—more than \$1,000,000 a day since February 25—are a source of national strength far too little appreciated.

They add largely to the ability of the people to support the government in case of need.

They greatly increase the volume of money in the country, every dollar meaning, as a bank reserve, from \$4 to \$6 of available money with which to meet the needs of commerce.

They mean that the country as a whole is buying far less than it is selling; that it is living far within its means—a circumstance that is as suggestive of thrift and prosperity in the case of a nation as it is in the case of an individual.

They mean that our national credit and the credit of all our enterprises are unimpaired in foreign markets. Otherwise American securities—national, state, municipal railroad and industrial—would now be flowing in upon us from timid foreign holders and we should be exporting gold to pay for them.

At a season when we usually export gold, and with a "war scare" on, we are still importing gold in phenomenal quantities. The fact is reassuring in an extraordinary degree.—New York World.

BOSTON reports thirty-nine steamships of American register in readiness to mount either 6-pounders, 2-inch rapid-fire guns or torpedo tubes, and the owners say they can be turned over for immediate service. Their speed is rated from ten to fifteen knots.

THE Spanish bluster about how dear they hold the honor and integrity of their country, and how they will sacrifice everything for it, sounds very much like the talk which Greece put up when the Turks got after them and at the first smell of real battle the Greeks ran like frightened hares. If Spain can fight she must show us.

THE gulf railroad organized by Matt Daugherty and a few other cowboy capitalists, which was to run clear across the state gulfward, failed of a filing in the state house yesterday because the fee was too high. Its a great pity to nip so promising a venture so summarily. The idea of squelching a ten million dollar railway by charging \$500 for filing its corporate papers is bad and the state in this particular instance may never know what it has lost.

THE Nebraska National guard is in a state of cold perspiration, having found from the oath taken that the president can order every company to the front with little ceremony, and make yellow fever food of the Nebraska heroes of Pine Ridge. The dodging of Spanish bullets is not half so bad as the trial to keep out of reach of Cuban microbes. The latter enemy strikes terror to the Nebraska soldiers heart as he is only familiar with clear sunshine and pure air.

A SPECIAL to the State Journal in reference to the Rock Island case does a majority of our jurymen from the country a grave injustice. "Mrs. Hennings was plainly entitled to a judgment for every dollar she sued for, and the eight jurors who held to that theory, are backed by everyone not interested, who heard the testimony. We never heard as much talk and speculation about jury fixing as we have heard in connection with this case, but the farmers are not charged with any complicity in the deal.

WAR with Spain is now almost a certainty. The report of the committee appointed to investigate the Maine explosion has been received at Washington and it is given out that the report alleges the cause was a dynamite mine or torpedo located on the outside of the vessel. American residents of Havana have been notified by this government to leave and a vessel has been sent to bring them away. The note from the government to Spain with reference to the disposal of the torpedo fleet coming this way has been entirely ignored. Insult is being added to injury and before the sun rises on this day of next week there can be no question but what the conflict will be on in all its fury, and the supremacy of the American navy will be put to a crucial test. However much war may be deplored, there is but one opinion, from the lakes to the gulf and that is in favor of punishing the barbarous Spaniards. McKinley has, with rare wisdom, staved off the day of conflict which he foresaw several weeks ago must come, and the country is on a pretty fair war footing. The work that has been accomplished in the last month on the navy and coast defenses being almost marvellous.

THE Chicago Times-Herald points to increased prices of a few protected commodities as proof of the efficacy of the Dingley law. But when it comes to quoting silver as a commodity the Times-Herald tears its shirt in its efforts to prove that you cannot make value by law. By some special dispensation known only to goldbugs, everything in the world responds to law save only silver.—World-Herald.

The "protected" articles to which the World-Herald refers, the list of which was published by the Chicago Times-Herald, are all farm products. Foremost among them are wheat and corn. Has not the World-Herald said over and over again that protection did nothing for wheat, or any other farm product; that it robbed the farmer for the benefit of the trusts and manufacturers? And was not "our Mr. Bryan" elected to congress in the First district on that issue?—Fremont Tribune.

HE LED HIS YOUNG PUPIL ASTRAY

But Amended by Making Her His Wife.

PROMINENT SCHOOL TEACHER

Of Cedar Creek Narrowly Escapes Punishment—Tramp Injured by Jumping From the Cars—A Birthday Surprise Party—Notes.

Gilbert S. Hoppel, a Cedar Creek school teacher, was charged with leading astray a winsome lass of the same vicinity, by the name of Emma Wolff. Hoppel is twenty-five years of age and the young lady is fourteen. Hoppel was arrested by Deputy Sheriff McBride and Constable Denson yesterday and brought down and landed in jail. This morning the young lady, who is of good family, and her friends came down and when Hoppel asked to settle the matter by marrying the young lady his wish was finally granted. The mother gave consent, a license was issued and the ceremony performed and the two appeared as happy as a pair of doves. The offense was a very serious one and Hoppel was fortunate in getting out of it so easily. The girl was quite handsome and is related to some of the best people at Cedar Creek. She was a pupil of Hoppel and this made the offense doubly repulsive. We hope she may never regret her bargain.

A Narrow Escape.
Saturday night freight No. 77 which goes west about 11 o'clock came near killing a man near Oropolis. Isaac Updegrave, a journeyman, was being his way to Omaha in search of work. With two companions he was riding on top of a box car when one of the brakemen came along and informed him, with the others that he must get off the train. His companions, who seemed to have more nerve than he, showed no disposition to leave the train, especially since it was running at a speed of twelve or fifteen miles an hour. Updegrave climbed down the ladder at the side of the car and swung himself off. He states that he was thrown under the wheels in some manner, but cannot explain how, he extricated himself from this perilous position and was thrown, or knocked by the fast moving train several feet and sustained four or five broken ribs and other serious bruises about the hips. The train was at once stopped, the engine detached and the injured man brought to this city and taken to a room at the Perkins house where he now lies. He has suffered a great deal from his injuries but Dr. Cummins, who is in attendance, informs the reporter that he will recover, though he will have to remain in bed for many days and perhaps weeks.

Updegrave lives at Clair, Mich. where he has a home and family—a wife and five children. He says he is not a drinking man and that being out of work he was on his way to Omaha in search of employment. He seems to be a man of good intentions and good habits and we trust he will soon recover. The family has been notified of the man's sad condition.

Gave Him a Pass Home.
A tramp by the name of Frank Croase, who walked in here Saturday was given a ticket today by the authorities and shipped to his home at Ottumwa. Some time ago he sustained a broken ankle and walking so far on the railroad track his ankle became so badly swollen he was unable to walk further. Saturday night he was given lodging at the tramp rendezvous adjoining the council chamber and Sunday was cared for at the county jail. He was in a bad fix and it was the proper thing to send him to his friends where he could receive proper treatment.

A Birthday Party.
A few friends and relatives gathered at the home of Mr. and Mrs. C. H. Reid on Chicago avenue Saturday evening in honor of Mr. Ass Waincott, it being his twenty-first birthday. The evening was spent in music and social chat, and at a late hour refreshments were served consisting of coffee, cake and fruits. The party dispersed after partaking of these good things, leaving many good wishes with the young gentleman and hopes for many happy and successful returns of the day.

There were present Misses Stella Herington, Lilly Manspeaker, Hattie Yunker, Cora Jones, Jessie Barbee, Maud Nickle and Mrs. Lena Layton; Messrs Dalilo Gibson, Elmer Yunker, James Roberts, Asa Waincott; Mr. and Mrs. Geo. Waincott, Mr. and Mrs. Chas. Waincott, Mr. and Mrs. Joseph Waincott and Mr. and Mrs. C. H. Reid.

Death of Tay Morrow.
Miss Effie, daughter of Mr. and Mrs. William Morrow, of Murray, has been in town taking charge of the Vienna bakery which her father traded for, a few days ago. Last evening she received a telegram announcing the death of her twelve-year-old brother, William Tay, whom she did not know was dangerously ill. She departed on the late M. P. train last night for Murray to attend the funeral which occurs tomorrow at 10:30 o'clock from the Christian church in Murray. The little fellow has suffered for some time from heart trouble and has not been strong, but the immediate cause of his taking off was malignant sore throat. Elder Dungan will conduct the services, assisted by Rev. Oldham of Murray. The remains will be interred at Eight Mile Grove cemetery.

HAVELOCK ITEMS.

From the Times.
Charles Sherman is minus a hat, just because he stuck his head out of the coach door while the train was running its fastest between Lincoln and Havelock Tuesday morning. He worried through on his trip by borrowing a cap from Billy Lancaster, the checkman.

Dr. Mathews, one of Cass county's best veterinary surgeons, was in Havelock Thursday on his way to Saline county. Mr. Mathews, whose home is at Plattsmouth and is well known here, is driving through to Saline county selling one of his own hog cholera preventative remedies.

Teddie Krause, an old Plattsmouth boy, but more recently of Missouri Valley, Ia., went to work in the boiler shops here Tuesday morning. His son, Eddie, had preceded him by a day.

Dovey's Prices.

Doveys have been in business here for more than a quarter of a century and never have they sold shoddy or inferior goods in all these years. The prices they quote in the big ad in this paper may seem like they are too low for the class of goods they carry, but they are the result of close buying and a determination to sell more goods at closer margins. It will pay you to read their ad and inspect their goods.

Get Off the Earth.

Just as well be out of the world as to be out of fashion is an old and trite saying. It applies aptly in many things but in nothing quite so apt as regards one's clothing. One cannot appear well, feel comfortable and look dressy with a suit of clothes on which fits very much like a gunny sack over a fence post. A suit or trousers made by a tailor is a thing of beauty and exceeding joy. While they cost a trifle more than a good hand made or eastern so-called custom made (in sweat shops) the fit is so much more satisfactory and the service so much better that you will always get better values for your money. We carry a large assortment of suiting and pants. Cleaning and repairing neatly done. J. C. PRATT, Merchant Tailor, Bank of Cass County Block.
