WAR NOTES.

France emphatically denies that she is unfriendly to the United States and insists the strictest neutrality is being shown.

The Nebraska boys at San Francisco are, it seems, to be taken on the next trip to the Philippines which sails in a few days.

The celebrated Cadiz fleet has not yet sailed and it is not likely to sail and leave the Canary islands and Spanish coast unprotected.

At last it is definitely stated that Blanco has been entirely cut off from cable communication with Madrid and other points. This will hurt the broazy Blanco worse than skipping a meal now and then.

The forts at the mouth of the harbor of Santiago have been dismantled by Sampson's cannon and troops may be landed as soon as they arrive which will be Saturday evening or Sunday morning.

It is believed on good authority that Porto Rico will fall the first of the week when 10,000 American soldiers will invest the island under command of General Coppinger. A naval attack on San Juan will be made simultaneously.

The war revenue bill provides for a bond issue of \$400,000,000, and there will be no juggling with the currency, the inflation idea having been stamped out. The government is doing business as an individual. When it needs more money than it has, it will borrow, and pay back as good as it gets.

Some more Spanish islands have been discovered in the Pacific ocean, the Ladrone group which are 3,500 miles from Honolulu and 1,500 miles this side of Manila. The island of guahan has a fine harbor well fortified and would make a grand coaling station. It is claimed the armored cruiser Charleston will capture the island on its way to Manila and the Monadnock will be left to hold it as an American coaling station.

Will Have to Work.

Chief of Police M. Morrissey again showed his fitness for the position by taking the two St. Louis toughs, Henry J. Lewis and Charles Smith, out of jail and making them work. Their first job consisted in unloading a car of coal for the power house, which would have cost the city several dollars, after which they will be called upon to clean the streets.

Several of the other jail inmates were given scythes and set to mowing weeds. This paper has urged continuously the making of these worthless tramps do something to earn their bread, but without avail.

Chief Morrissey is the first officer since Pat Murphy was chief of police to push the matter and give the tramps something to do. The tramp class will soon learn what kind of a chief Plattsmouth has, and will steer clear of this town. We hope the chief will continue the good work so auspiciously begun.

To Recruit Up.

Mrs. M. L. Hayward this morning received a letter from her son, Capt. Wm. H. Hayward, Chattanooga, Tennessee, in which he states that the Second regiment of Nebraska is to be increased 300, and the ratio will be an increase of 25 for each 60 members of a company. This will give company C, of this city, 25 more members, who will be recruited from this city, if such a thing is possible.

Sergeant Paul Jessen will be here in a short time in behalf of company C, and Lieut. Henry Wiley for the battalion. Those who desire to enlist can leave or send their names to the News office, and they will be turned over to the recruiting officers when they arrive.—Neb. City News.

A Flag for All.

The city park commission is having a flag pole made of gas pipe at the shops which will be over 100 feet long. It will be raised in Garfield park as soon as completed and a handsome flag will float from the top which can be seen from every point in the city and for miles in the country. Garfield park being one of the highest points about town. The pole will be set six feet in the ground into a bed of concrete, which will make it perfectly solid.

Will Give Bond.

Hans Rothman, accompanied by Henry Ofa, want to Omata today to look after Mr. Rothman's son, Henry, who was severely assaulted by toughs in the metropolis a few days ago. The boy is well enough to come home, and would be glad to do so, but is being held there as a witness against the men who assaulted him.

An effort will be made to give bond for young Rothman's appearance, so he can come home. Mr. Ofa having gone along to help secure the bond.

District Court Proceedings.

First National bank of Greenwood vs Thomas Reece et al. on trial to court today.

Theodore Decker vs Rudolph Decker court finds in favor of plaintiff and grants relief prayed for. Supercedas bond fixed in sum of \$2,000.

Bennett & Tutt displayed today a very fine crate of strawberries raised by W. B. Roberts, a mile south of town. Joe Opelt also had a premium box, raised by C. D. Cummins. They are fine samples of what can be done in this vicinity in the way of fruit growing.

Letter from Chattanooga.
The following letter is from a son of Capt. Murphy of Arapaho, a nephew of Mrs. Byron Clark and Mrs. James Hunter, of this city.

CHATTANOOGA, TENN., May 21, '98.
DEAR MOTHER:—We arrived in Chattanooga this noon, and passed Murfreesborough a few miles back, and can see Lookout Mountain and Missionary Ridge. I am going up to the top of Lookout Mountain tomorrow. We crossed the Missouri, Mississippi, Ohio, Wabash and Tennessee rivers. All the way from Nashville we passed through mountains. There are 35,000 men here at present. One soldier was killed and ten wounded in a wreck five miles from here. We are going to have new equipments soon. I think the boys got about two bushels of flowers a piece on our way; had a good time at Mt. Vernon, Illinois. Chickamauga Park is about 12 miles from here. We will whip it out of the Spaniards when we get to Cuba, and I wish we were going right away. The people here don't like the northern soldiers a little bit. The towns around here are dead, and the people are behind the times. The soil is a red clay, and the scenery is beautiful. Everything is different down here—Negroes everywhere. Stamps cannot be bought in camp, so send me some. Do not worry about me, I'll come home to you all right. I send love to all. My address is Co. I, 2d Regt. Neb. Vol. Inf., Chickamauga Park, care of C. J. Bils.

Your loving son, LEE.
Unprecedented Rains.
From the government rain gauge record at the B. & M. depot we learn that during the first nine days of June a little over four and one-half inches of rain fell; a record of rainfall never before reached in this part of Nebraska. The ground is not only saturated, but it is soaked clear to bedrock—the rain having been falling for two months in frequent showers. Crops are greatly damaged by the excessive moisture, and the outlook for wheat is not so good as it was at this time last year.
