INFORMATION AND OPINIONS.

If there is to be another great slaughter at Santiago persisted in for the "honor of Spain" it will not be the fault of General Shafter, who has made use of the discretion allowed him to give General Toral ample time to make up his mind to a surrender. The bombardment will of course result in a useless effusion of blood, but if the Spanish ministry will have it so, on the head of the queen regent and her cabinet be the responsibility.

***

A new law has been passed by congress which enables everybody to use postal cards of their own design. This will be a great convenience to business men. All you have to do is to get cards of the proper size, use one side for writing or printing what you wish and the other side for the address only—affixing a one-cent stamp on the side containing the address.

***

The plumbers in Kansas City have struck for an increase of wages, from $3.25 per day to $3.75. The present wage is certainly pretty fair and we fear the striking plumbers may miss all the plums, if they continue in their demands.

***

War news are scarce today. With Gen. Miles at Santiago something will certainly happen very soon, either the surrender of Torral or the taking of the city by force.
