F. SAYLOR; For Attorney General: S. D. JACKSON; For Com. Public Lands and Buildings: G. R. WILLIAMS; For Congressmen: E. F. BURKETT; For Senator: WM. H. NEWELL; For Representatives: T. F. ADMIRAL DREWY, who hails from Vermont, is being slandered in his absence by some newspapers claiming he is a democrat.

The father who rears prize fighters could not be expected to do any nobler thing than to succumb, but it doesn't necessarily follow that he should become a wife murderer.

The democrats have ceased their wholesome admiration for Mark Hanna and have transferred all their affection over to Secretary Alger. There is no accounting for popocratic taste.

An exchange says a populist editor in the southern part of the state wrote: "The masses are for Poynter." The printer, with a wisdom greater than the editor, set it up: "Them asses are for Poynter."

If Thurston is a corporation scavenger, as the demopop press would have us believe, what of his friend, W. V. Allen, who is his closest chum in Washington, and who carries a pocket full of railway passes.

The czar of Russia heads a movement looking to an international conference to bring about lasting peace. The idea is a good one, but the world is not quite up to that point yet.

The Hawaiians are said to be inclined to vote the republican ticket, having not forgotten that it was a democratic president and leading democratic statesmen that kept them from becoming a part of this country for so long.

The rank of admiral should be restored, and George Dewey would bear the well-earned honors most gracefully. Farragut and Porter were both admirals in their day, and neither was the superior of Dewey as a naval hero who wins battles without loss of men or property.

MARK HANNA has been interviewed at St. Paul and he says McKinley will be nominated again for the presidency and will be elected. Inasmuch as Hanna said the same thing and proved it in 1896 his last utterance will give the popofiscerats another violent spasm of political jinnjams.

GOV. STONE of Missouri has scanned the horizon and he says that there are no issues arising out of the war, and that the only issue democrats can win on is that of free silver with its 16 to 1 ratio. Most people realize that the free silver issue is a corpse, so dead that few people mention it save in a whisper.

SINCE Poynter says he is not a prohibitionist, exactly, although he has been identified with those who were, we should like to hear from Billy-green, the pop congressman. If he is a prohibitionist the country ought to know it, and the length of time he wants to destroy and drink up all the vile whisky in the country ought to be given him, so we might know what to depend upon.

SOME of our democratic editors are awfully shocked because Ote Hedlund, the one-time deputy auditor, has been appointed secretary of the republican state central committee. Ote is all right, and never a question of his integrity has been raised by those who know him, and if their man, Gaffin, will shake the Dorgan influence off, it will then be time for that crowd to talk of other people.

ONE of the funny situations of the campaign is shown in the attitude of the Lincoln pop organ, which is fighting the Omaha stock yards with a vim and vigor worthy of a better cause, while at the same time it supports Stock Yards Poynter for govern-

ment, and the stock yards selection, Mr. Gibbet, for lieutenant governor. Re-... The increase was more than 100 per cent in favor of the Dingley law as against the Wilson law.

In the history that will be written during the middle of the twentieth century the first place in American statesmanship will be held by three—George Washington, Abraham Lincoln and William McKinley. The prediction may seem premature, but the present always falls short of its estimation of the probabilities of the future.

FORTY years ago the owners of capital as well as the owners of the mills and factory system of our country were waiting for some questions of public policy to be settled. The election of President McKinley seems to have accomplished that purpose.

INFORMATION AND OPINIONS. In the sixth congressional district both candidates for congress live at Kearney. One is Brown and the other is Greene. The latter has more than once painted different portions of the district red, in view of which and Brown's superior fitness, it may well be hoped that Brown will be able to give Greene a pair of black eyes in the fight.

Fifty varieties of bananas are said to grow on the Philippine Islands some being very sweet and delicious. While attending the old settler's picnic down at Union Saturday, G. M. Hitchcock, of the World-Herald was nominated for congress to run against Dave Mercer. He has not yet accepted, and may conclude to wisely keep out of the fight.

Here appears to be a sign for the young emperor of Germany. At the Plattdeutscher Fest in New York last Tuesday stereopticon portraits of Dewey and other of our heroes were wildly cheered; so was a portrait of Emperor William I of Germany, but when a picture of the present German ruler was shown it was greeted with hissing.

A big invoice of professional beggars from Omaha and the east is being unloaded on the country towns of the state, where they reap a rich harvest for a time. No honest man or woman in Nebraska has to beg for a living, and those who do so may be set down as professional and often times petty thieves. The quickest way to get rid of them is not to feed them.

A recent article in an English review asserts that the annexation of the Philippines would sound the death knell of the cigarette trust in America. The Manila cigar coming in free, would be cheap enough, the essayist thinks, to cut down also the sale of expensive Havanas. The yearly output of this cigar is something like 100,000,000, one factory alone turning out 38,000,000, and the manufacture could be doubled or tripled to meet an expanded market in America. And then 2 cents would buy a better cigar than 10 cents does now. It may readily be conceived, therefore, that the man or youth who feels inclined to smoke and being conscious of the direful results of the cigarette habit, will not think twice, but buy a good 2-cent cigar.—New York Times.

In response to Edgar Howard's tearful appeal for funds to pay railroad fare for the howling reformers, who are about to go over the state loaded with spurious argument favoring their retention in office, one old farmer of Sarge county who is growing richer while the poor grow poorer, has handed in \$3.75, and there are over 2,000 congressional townships yet to hear from. It is no ways likely that every farmer will feel like risking his good money in so uncertain an enterprise, when he knows that the men for whom this pay-as-you-go fund is being created all have pastboards that answer the purpose, and would use them and emerge from the campaign considerably better off than when they began. Seriously, when Howard talks about reformers paying their fare he indulges in the veriest tommyrot. He knows that this state administration is all tangled up with the railroads and is deeper in the mud than any previous administration ever was in the mire. He knows it would be impossible to inaugurate reform among the fellows who made such precipitate haste to violate their platform promises, and he ought to keep still on the delicate subject of passes instead of all tangled up with the railroads and is deeper in the mud than any previous administration ever was in the mire. He knows it would be impossible to inaugurate reform among the fellows who made such precipitate haste to violate their platform promises, and he ought to keep still on the delicate subject of passes instead of all tangled up with the railroads and is deeper in the mud than any previous administration ever was in the mire.

Notice to Coal Dealers. Sealed bids will be received at the office of the county clerk until noon, September 6, 1898, for hard and soft coal to be delivered at the poor farm, court house, jail and to paupers. The board reserves the right to reject any and all bids. JAMES ROBERTSON, County Clerk.

Bob Moore of Lar'ayette, Ind., says that for constipation he has found DeWitt's Little Early Risers to be perfect. They never gripe. Try them for stomach and liver troubles. F. G. Fricke. Old papers for sale at this office.

of vampires as ever organized a ring for the purpose of individual profit. He should therefore hasten to hand the old farmer back his \$3.75 and tell him to give it to the poor; that the reform forces of the northwest have money enough to pay their hotel bills and passes enough to spin the unit-verse.—Bixby.

Secretary Day, Senator Davis, of Minnesota, Senator Frye, of Maine, Whiteley Reid, editor of the New York Tribune, and a great white of the Supreme court have been appointed as peace commissioners who will go to Paris and settle the terms and amount of territory which we are to have.

The mustering out of the volunteers is going to be an elaborate ceremony, far different from the short process of '95. Some suspects that he has paid for the purpose of hastening to hand things that were not contracted in the army, in his pension experience, and he will guard against similar fraud this time. Every man, on being mustered out, will be subject to a searching physical examination that an authentic record can be filed away for future reference in case he some day comes up as an applicant for a pension.—Ex.

We are not hearing much in these days about bimetalism or monometalism for the people are all busy trying to recover the lost ground from 1893 to 1897. What they are seeking is the American dollar, whether gold, silver or paper.

Bismarck once said that the success of the United States in material development is the most illustrious of modern times. The leading statesmen of all the nations of the world are saying even more than this today. The success of the United States in all the equipment of a great nation is simply the surprise of the world. It may appear a little egotistical for the republicans to claim all the glory of this modern development, but as a modest way of calling things we ask our friends to compare the administration of William McKinley with that of Cleveland.

All Quiet at Manila. MANILA, Aug. 28.—8:50 p. m.—Steamers are entering the river as usual. The Americans are temporarily maintaining the former Spanish tariff. Business is brisk. The United States war ships Olympia and Raleigh have gone to Hong Kong to go into dock. Admiral Dewey has transferred his flag to the Baltimore. General Merritt will sail on the steamship China on Tuesday on his way to Paris to attend the sessions of the peace conference. No agreement has yet been reached with Aguinaldo upon any subject, although circumstantial rumors are current that everything has been settled to the mutual satisfaction of those concerned.

The Letter "M" and the War. The letter M played its part in the war. Just think of its prominence in the events of the last few months. It stands for Maine, Mine, McKinley, Madrid, Matanzas, Miles, Manila, Montejo, Maria Christina, Mariano, Maria Teresa, Marblehead, Minneapolis, Mole St. Nicholas, Manzanillo, Morro, Morraine, Massachusetts, M. S. his, Merino, Montenegro, Merry del Val, the marines (at Guantanamo), Monterey, Monadnock, Monte, (the Spanish general besieged at Mearbor), Meiklejohn, Monet, McCallin, Maximo, monition, munititions, Morton Howitzers and Montgomery. Recently the government at Washington has purchased half dozen transports, the names of which begin with M, and it may be added that among the most annoying drawbacks in camp thus far have been measles and mud.—Morning Oregonian.
