HERE is no fusion in winning victories in Nebraska: 1896, 21,000 majority; 1897, 14,000 majority; 1898, 3,000 majority. Where would they have been this time if it had not been for Joe Bartley?—Ex.

THE Lincoln papers are becoming afflicted with the charter phobia, and promise to run the Bee and World-Herald a close race on a proposition to print the most tiresome rot which ever found lodgment in a newspaper.

THE result of the late election has put an everlasting quietus on any legislation for the free and unlimited coinage of silver until after 1905. Before that time arrives the 16 to 150 will have been almost forgotten.—Plattsmouth Tribune.

CONGRESSMAN MAXWELL's letter of condolence to W. V. Allen has not yet been printed, and we have reason to fear that it has not been written. Allen was instrumental in having Maxwell turned down to make a place for his former law partner and now the scores are even.

THE candidacy of E. M. Pollard of this county for the speakership of the House ought to be crowned with success. He is a fine parliamentarian, has legislative experience and is clean and free from entangling alliances. If his campaign is well managed he will certainly be the next speaker, as he is the best equipped man for the place.

WE have heard from Colonel Bryan about the recent election and he is able to extract solid chunks of comfort from the returns. We would now like to hear from Senator Allen, who has been silent since November 8 has been oppressive. He had much to say previous to that important date and ought to favor us with a few words now so we might at least know where he is at.

THE Omaha fellows who failed under the impression that Omaha was Nebraska are destined to a rude awakening if they go ahead with another exposition next year. The metropolis would be a government cemetery before the show got started, as a result of the boycott which every town in the state and western Iowa would institute against her.

JUDGE MAXWELL's censorious tones calling the voters out to elect the popular legislative ticket were not heard in this part of the state. A rumor has been current to the effect that the judge put on a "sack coat with ashes" in the pockets, and quietly voted the republican ticket, and at this writing in the face of popular losses, everywhere he is in good health and wears a smile of contentment worth going miles to see.

WYOMING, which is in touch with the silver producing states and has a few mines of her own, expressed her disgust with the free silver 16 to 1 theory so emphatic that even Col. Bryan can comprehend it. Forty-seven members of the two houses of the legislature were elected November 8 and out of that number forty-three are republicans. The four republicans out there will be as innocuous as Noah when he landed on Mount Ararat.

DOCTOR MORTON (we use the term doctor in preference to colonel) is the editor of the Conservative is more a philosopher than newspaper man seems inclined to think that our Senator Thurston is very wobbly on the financial question, and he pokes fun at our oratorical statesman in the most cruel manner. The Nebraska senator was not very clear at one time on silver but since he got his bearings he is all right, and his speeches in the last campaign contained no nonsense about coining the American product.

THE majority of W. A. Poynter for governor over M. L. Hayward as shown by the official returns is less than 3,500. The exact majority given the republican candidate by Douglas county is 803. Last year the majority given the republican candidates for regent in Douglas county was 2,297, the falling off being 1,494. With a full party vote registered and polled the majority for the state ticket would not have been less than 5,000. It is any proof were necessary to show that the republican ticket was defeated solely by the bad management of the Douglas county campaign under the personal direction of John L. Webster, these figures will amply suffice.—Bee.

JUDGE SULLIVAN tries to con- sider Attorney General Smyth by calling a lonely dissent to the supreme court ruling in favor of the lecturer ship earned by Commissioner Irvine to which the attorney general had objected on the ground that every one on the salary list of the state owes all his time to the public service. Judge Sullivan would confer a favor on the

public by giving his opinion as to the legality of the lecturer ship.

ROBERT GEPPNER, a desperado, whose name is well known in the police force, was engaged in a duel with a man named R. O. K. on the 10th inst. The duel was fought in the city of Omaha, and the result was that the two men were both killed.

JEFFERSON, the first democratic

party, acquired since its time has been taken in under a democratic administration, with the exception of Alaska and Hawaii. The reason was of course that more than half a century after our country began to fill up in earnest, the democrats were in a most continual power and had the opportunity. The few who oppose expansion and prates about being a follower of Jefferson simply don't know what he is talking about, or else he is not acquainted with the teachings of Jefferson. Some of our adolescent democratic statesmen had better get slow in their opposition to imperialism lest they kick outside party traditions and get lost in a sea of populism.

INFORMATION AND OPINION.

The patriots that came to the front to bet large sums on the election of Van Wyck in New York have worn a deeply injured expression ever since and say they are the victims of misplaced confidence, as they were told by the chiefs of Tammany that everything was lovely and that Croker had "fixed it" two weeks before Van Wyck's nomination. And now New York journalism is on the qui vive to know with whom the boss "fixed it" and about it. That there was a deal with somebody is held certain, but the unlearned would like to find out whether it was made with the corporations or with sundry reputed bosses in the republican party. Its failure condemns it as bad business, whoever was in it.—State Journal.

THE latest senatorial aspirant is M. R. Reese. J. B. Strode's name is also mentioned.

Now that we have a republican legislature John M. Thurston has concluded not to resign his position as U. S. senator. Two years hence we predict he will be a candidate for reelection.

New York had no show when the women crowded to see, but the men were disappointed for their absence. The men are obvious.

Col. Bryan has been granted an extension of his leave of absence by his board and will have the privilege of remaining in Lincoln until December 1. He has not yet recovered from the fever with which he was suffering and his physicians believe it is for him to remain here a little longer. Col. Bryan's health is a state official's yesterday.—State Journal.

Recently about thirty-five full blooded Kaut Indians passed through Arkansas City en route to western Kansas to work on an extension branch of the Southwestern railway. These are supposed to be the first Indians to ever work on a railroad. Each man had a dinner pail and a roll of blankets.—Ex.

Since E. B. Mockett has been appointed court reporter for Judge Frost, the applicants for the place here have been after the situation in Judge Marshall's court left vacant by the appointment. J. E. Ferris and Myron Wheeler are after the position and it is not known yet who will be the successful candidate as others in the judge's district are working for the place.—State Journal.

In Ogema county, Michigan, they elected a woman district attorney, and the natives up there call a "joke." But the woman, Mrs. Mary L. Abbott, refuses to consider it horseplay, and is moving to take possession of the office. The attorney general of the state, also a very solemn and matter of fact functionary, says he will not let her take hold without the sanction of the supreme court. But at this distance, one doesn't perceive what business it can be to the attorney general as he is not the fellow who gives out certificates of county elections. If Mrs. Abbott gets the certificate she will be the county's attorney until somebody ousts her via a "government by injunction," which the Chicago convention declared to be an outrage.

Since the election it turns out that three undertakers have been elected to the Nebraska legislature. They may have something to do with the silver question.

The movement to have Thanksgiving changed to October 10, meets with general approval. The last week in November when a fellow is butting forward and trying to get his attention to give the law a special dispensation of provision.

Deaths are Dangerous.

Many of our friends, or people whom you know have contracted consumption, pneumonia or other fatal diseases by neglect of a simple cold or cough. Foley's Honey and Tar, a safe, sure and pleasant cough medicine, would have saved them. It is guaranteed. F. G. Fricke & Co.

A CRITICAL TIME

During the Battle of

Santiago.

SICK OR WELL, A RUSH

NIGHT AND DAY.

The Doctors at the Battle of Santiago de Cuba were all Heroes. Their heroic efforts in getting Ammunition and Nations to the Front Saved the Day.

P. E. Butler, of pack-train No. 2, writing from Santiago de Cuba, on July 23, says: "We all had diarrhoea in more or less violent form, and when we needed we had no time to see a doctor, for it was a case of rush and night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was the indirect savior of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrade and myself had the good fortune to lay in a supply of this medicine for our pack-train before we left Tampa, and I know in four cases it absolutely saved life."

The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by all druggists.
