E. K. VALENTINE is booming him-
self for the U. S. senatorship, but all
he will get out of the candidacy will
be a little free advertising. His name
should not be mentioned the same day
with Judge Hayward.

It seems quite certain now that
Spain will accept \$20,000,000 for the
Philippines, though with bad grace,
and that nothing will be left after
this week, but the drafting of the
treaty of peace between the two coun-
tries.

SINCE the returns are in the offi-
cial majority for Poynter has dropped
down to 2,271 Douglas county could
have wiped that out only for the fact
that Rosewater and Webster had to
wash their faces in public. Their
quarrel will be remembered, and
neither will ever get in speaking dis-
tances of the U. S. senatorship.

COL. BRYAN has a wide taken to
explain the election result but the fact
still remains that it was an emphatic
endorsement of the administration of
William McKinley. Only once in
twenty-eight years has any party been
able to secure a majority in the
house of congress at the election to
follow its success in the presidential
year. The administration has not
only been endorsed in this manner but
a minority in the senate has been
converted into a majority of at least fif-
teen.—Ex.

OUR Journal friends grow increas-
ingly abusive when alluding to Col.
Briggs, the father of populism in this
country. The trouble is that Briggs
was a populist and never favored trad-
ing off his principles to elevate demo-
crats to office. He knows more about
practical politics than any half dozen
mass grown bouchons in the county
and that seems to hurt some of the
faithful. So far as "cutspaws" are
concerned we haven't needed any and
can only account for this charge by
brother Green having a little touch of
indigestion, caused by a torpid liver,
which distorts his imagination.

REPRESENTATIVE HAM LEWIS was
corrected time and again by the navy
department as to his story concerning
"coal contracts" let to Mark Hanna
without competition" but he continued
to tell the yarn on the stump all
through the campaign. Then the peo-
ple rose and smote him so hard at the
polls that he is out of politics for good.
The government bought no coal from
Senator Hanna or any of his comman-
ders during the entire war. It is in-
structive to notice that the authors
and dispensers of nearly all of the
campaign lies reflecting upon the in-
tegrity of the administration in the
conduct of the war were given an effective
quietus by the sovereign people. It is
not a good year for common liars—

AN entire cargo of iron pipe was
sniped one day this week from Phila-
delphia to London. It has become
common to ship to England iron and
steel products into which high mech-
anical skill and labor saving ma-
chinery have entered largely in pro-
duction, but in this case neither is the
factor which renders it possible for
American manufacturers to compete
successfully in a field where the non-
product was formerly supreme. It is
within the memory of men still young
when England ruled the iron and steel
market of the world and in spite of
high duties was able to supply a large
portion of the product used in this
country. Persistence in the protective
policy has brought its new and to
day American manufacturers are able
to hold the home market and supply a
part of the demand abroad.—Omaha

INFORMATION AND OPINION.

Ed. Howard after looking over the
recent election returns is said to have
remarked that "There are moments
when a democrat wants to be alone,
and these are those."

Our neighbor is booming Webster
for W. V. Allen's place, but Webster
will not get a single vote from this
county. Now is a good time to flop
and get in the band wagon.

The republican plurality in Ohio is
61,000 this year as against 28,000 last
year, and 46,000 in 1896.

The Denver Republican says that
the dismissal of Chaplain McIntyre
from the navy has for its document a
sad romance. It appears that as a
consequence of the dismissal which
resulted from the court-martial the
chaplain has been dismissed by a
wealthy woman of Denver to whom he
was engaged and to whom he would
have been married ere long if that un-
fortunate lecture had not been deliv-
ered in Denver. He left Denver last
Friday for California and is now at
Geysers, Lake county, of that state,
where are located springs whose wa-

ters he is drinking for the benefit of
his shattered health. It is understood
that he will stay there a month, when
he will begin a lecture in the prin-
cipal cities of the east. After the
projected lecture tour he will take charge
of some church. He is an orator of
ability and it is thought he will not
find it difficult to secure a charge.

Governor-elect Poynter is said to be
degraded with applications for posi-
tions by the hundreds of hungry popu-
larist statesmen who are certain that
success was achieved by their indi-
vidual effort. The state house will
present a motley crowd this winter
with the republican employes of both
houses and the popularist appoint-
ments of the governor, whose patron-
age, however, is chiefly by the state
asylums.

The most patriotic thing Constans
J. Smyth has done since Nebraska
obtained any knowledge of him
was in the selection of W. D. Oldham
to be deputy attorney general, vice
the Tamorous E. P. Smith, resigned.
Oldham is not only a capable attorney,
but an orator whose stump speeches
entitle him to be known as the Pat-
rick Henry of the Platte valley. He
is always scrapping for liberty, when
not otherwise engaged, and went
to the half-sneak as it were. He
worships the life and public services
of Andrew Jackson and never misses
an opportunity to speak a plea for
Jefferson, Seymour and Sam-
uel J. Tilden. He stands out on the
stage of 1876, and knows every town
in the four transactions from the time
the first blow was laid up to, includ-
ing the rank decision of the referee—
Bixby.

Try Grain O! Try Grain O!
Ask your grocer to-day to show you
a package of GRAIN O, the new food
drink that takes the place of coffee.
The children may drink it without in-
jury as well as the adult. All who
try it, like it. GRAIN O has that rich
and brown of Mocha and Java, but it is
made from pure grains, and the most
delicate stomach receives it without
distress. One-fourth the price of
coffee. 15c and 25c per package.
Sold by all grocers.

The True Remedy.
W. M. Rapino, editor of the "Illu-
minator," says: "We won't keep
house without Dr. King's New Dis-
covery for Consumption, Cough and
Colds. Experimented with many
others, but never got the true remedy
until we used Dr. King's New Dis-
covery. No other remedy can take
its place in our home, as in it we have
a certain and sure cure for Coughs,
Colds, Whooping Cough, etc." It is
invaluable to experiment with other
remedies, even if they are urged on you
as just as good as Dr. King's New Dis-
covery. They are not so good, because
this remedy has a record of cures and
besides is guaranteed. It never fails
to satisfy. Trials bottles free at F. G.
Fricke's drug store.

William R. O'Donovan, the sculptor
who has just completed a bust of Gen-
eral Wheeler, says of the soldier: He
is a bundle of nerves. While I kept
him talking he was an excellent soldier,
but not otherwise. Yet so great was
his nervous force and actual strength
that he was probably able to stand
the hardships of the war better than
many a younger man.

What do the Children Drink?
Don't give them tea or coffee. Buy
you tried the new food drink called
GRAIN O? It is delicious and nourish-
ing and takes the place of coffee. It
is more Grain O you give the children
the more health you distribute
through their systems. Grain O is
made of pure grains, and when prop-
erly prepared tastes like the choic-
est grades of coffee but costs about one-
fourth as much. All grocers sell it,
15c and 25c.

A CRITICAL TIME

**During the Battle of
Santiago.**

**SICK OR WELL, A RUSH
NIGHT AND DAY.**

**The Packers at the Battle of Santiago de
Cuba were all Heroes. Their Heroic Ef-
forts in Getting Ammunition and Rations
to the Front Saved the Day.**

P. E. Butler, of pack-train No. 3,
writing from Santiago de Cuba, on
July 22, says: "We all had diarrhoea
in more less violent form, and when
we needed we had no time to see a
doctor, for it was a case of rush and
rush night and day to keep the troops
supplied with ammunition and rations,
but thanks to Chamberlain's Colic,
Cholera and Diarrhoea Remedy, we
were able to keep at work and keep
our health; in fact, I sincerely believe
that at one critical time this medicine
was the indirect savior of our army,
for if the packers had been unable to
work there would have been no way
of getting supplies to the front. There
were no roads that a wagon train
could use. My comrades and myself
used the good food to lay in a supply
of this medicine for our pack-train
before we left Tampa, and I know in
four cases it absolutely saved life."

The above letter was written to the
manufacturers of this medicine, the
Chamberlain Medicine Co., Des
Moines, Iowa. For sale by all druggists.
