

HE WAS B DLY FROZEN

John Benscoter Found Lying In the Alley Near Fifth Street.

His Feet and Hands Were Badly Frozen and It Is Probable That He Will Lose Portions of His Feet—Three Tramps Arrested for Stealing Overshoes and a Ham—Other News.

John Benscoter, a farmer living on the bottom on the opposite side of the river, was found about 7 o'clock this morning at the rear of Bennett & Tuttle's grocery store almost frozen to death. It is not known how long he had been there, but it is evident he had spent an hour or two in the alley, as the marks in the snow showed where he had been crawling and scrambling about in an effort to find his way out. He had been drinking heavily during yesterday afternoon and it is thought by some that he wandered back there and fell down and was unable to get up, while others are of the opinion that he met with foul play.

He was badly frozen and it was at first thought he could not live, but about noon he regained consciousness and was taken to his home. Dr. Cummins attended him and is of the opinion that he will lose a portion, but that his hands were not nearly so badly frozen. Unless pneumonia or some like malady sets in as a result of the terrible exposure he will recover all right, and the lesson he will have learned ought to keep him sober on as cold a night as last night was, at least.

Thieves With Nerve.

Night Watchman Charles Hasen, with the assistance of Willie Trasher, arrested three tramps last night who had been about the city for a couple of days. One of the parties had stolen a ham from Jonathan Zlat's meat market and another plucked a couple of pairs of overshoes from Sherwood's shoe store. The feet of two of the tramps were comfortably encased in the overshoes when the arrest was made and the ham was found to be in the hands of Jake Denison, who had purchased it from one of the parties. All of the stolen goods were identified by the parties from whom they were taken and the fellows will have their hearing Monday. The thieves gave their names as Joseph Dunn, Richard Preston and E. McPherson.

RAILROAD NOTES AND PERSONALS

The Burlington has issued another card advertising the resources of Nebraska. This is called "What." It tells of the wheat crops of the state, and is being mailed to thousands of eastern farmers.

Over \$200,000 will be spent during 1899 by the Burlington, road in improvements to its track, road bed and bridges west of the Missouri river. Of this amount over \$200,000 will be put into new iron bridges. One hundred and fifty miles of 75 pound rails will replace lighter rails, and over 1,000,000 new ties will be put in.

James Sievers, an employe in the car repair shop, had the thumb of his left hand so severely crushed yesterday that it was found necessary to amputate that hitherto useful member.

W. O. Jenkins left this afternoon for Edgmont, S. D., where he will take charge of the Burlington's repair work. Mr. Jenkins' family will remain in Plattsmouth until spring, at least.

H. R. Lassel, who has been night operator for the Missouri Pacific at Union for a number of years, has been transferred to Wyoming, where he will act as station agent. Jones Teegarden of Weeping Water takes his place at Union.

Robert Shepherd, a farmer's son in York county, secured the first prize for the best written letter on Nebraska, offered by the Burlington railroad. The letter was written in five minutes, clearly setting forth the many reasons why Nebraska was the best place for a young man to locate and prosper.

Officials of western railroads anticipate almost as great a movement to California this year as in 1897. The occasion is the annual meeting of the National Educational Association at Los Angeles in July. Rates have not yet been fixed but they will probably be some where in the neighborhood of one fare for the round trip. In other words, the cost of a round trip ticket to Los Angeles from Nebraska will be about \$52.

Volcanic Eruptions

Are grand, but skin eruptions rob life of joy. Bucklen's Arnica Salve cures them: also old, running and fever sores, ulcers, boils, fonnos, corns, warts, cuts, bruises, burns, scalds, chapped hands, chilblains. Best Pile Cure on earth. Drives out pains and aches. Only 25 cents a box. Cure guaranteed. Sold by F. G. Fricke & Co., druggists.

CONCENTRATING AT MALABON.

MANILA, Feb. 10.—The rebels have apparently selected Malabon as their base of operations in their next encounter with the Americans, as they are concentrating in considerable force there and at Caloccan. Many small bodies of scattered troops are straggling in from the right, and others are undoubtedly arriving from the north interior provinces. Aguinaldo is reported to have established headquarters at Malabon for the purpose of rallying his forces for a decisive blow. In order to cover the movements the rebels again opened fire on the Kansas outposts last night from the jungle. The firing was continued for twenty minutes without effect. The Americans reserved fire until a detachment of the enemy emerged from the bamboos, when a well directed volley made the rebels scuttle back to their cover like rabbits. Beyond this everything is quiet.

CALOCCAN IS CAPTURED

Big Guns of the Monadnock Play a Prominent Part

The Kansas and Third Artillery Make a Gallant Charge Across the Open—Filipinos Retire Fighting Stubbornly—Pay Homage to General Garcia—Other Telegraphic News.

MANILA, Feb. 10.—The American forces at 3:40 this afternoon made a combined attack on Caloccan and reduced it in short order.

At a signal from the tower of the De Lome church, the United States double-turreted monitor Monadnock, opened fire from the bay, with the big guns of its forward turret on the earthworks with great effect. Soon afterward the Utah battery bombarded the place from the land side.

The rebels reserved their fire until the bombardment ceased, when they fired volleys of musketry as the Montana regiment advanced to the jungle. The Kansas regiment on the extreme left, with the Third artillery deploying to the right, charged across the open cheering, and carried the earthworks under a heavy fire. Supported by the artillery at the church, the troops further advanced, driving the enemy, fighting every foot, right into the town line, penetrated to the Presidential, and lowered the Filipino flag at 5:30 p. m.

The enemy's sharpshooters in the jungle on the right, fired at long range on the Pennsylvania regiment, but the rebels were soon silenced by sharpshooters and the Pennsylvania remained in the trenches. As the Americans advanced they burned the native huts.

The rebels were mowed down like grass, but the American loss was slight.

WASHINGTON, Feb. 10.—The following dispatch from General O'Leary was received tonight:

"MANILA, Feb. 10.—Adjutant General: Insurgents collected considerable forces between Manila and Caloccan, where Aguinaldo is reported to be, and threatened an attack and uprising in the city. Swamy left of McArthur's division, which is north of Pasig river, into Caloccan, driving the enemy easily. Our left is now at Caloccan. Our loss slight, that of insurgents considerable. Particulars in morning. Attack preceded by one-half hour's firing from two of Admiral Dewey's vessels.

Pay Homage to General Garcia.

HAYANA, Feb. 10.—About 300 wreaths of floral emblems from individuals and societies have been piled at the foot of the pier of General Calixto Garcia, whose body arrived here from the United States yesterday afternoon on the United States gunboat Nashville.

The body lies in the municipal council chamber of the palace and crowds continue to silently file past the coffin. The remains will lie in state until the interment, which will take place at 1 o'clock tomorrow afternoon.

All day long Havana has paid silent homage to the dead warrior. Young children and women, gray haired veterans, negroes and negroesses have visited the death chamber and soldiers looked upon the dead and quietly moved away. The streets around the palace have been crowded with soldiers and the honors paid by the American authorities have greatly pleased the Cubans.

Governor General Brooke and staff will attend the funeral tomorrow and the review of the Seventh army corps will be postponed. The Cuban troops guarding the streets near the palace are objects of much curiosity to passersby.

A QUIET DAY IN MANILA.

Inhabitants No Longer Fear a Native Uprising

Rebels Are Scattered Throughout the Country and Putting in Their Time Bushwhacking—Twenty-Five American Soldiers Reported Missing or Unaccounted For at Manila.

MANILA, Feb. 12.—All is quiet along the entire line, nothing having happened up to this hour to disturb the peace of Sunday. In Manila the inhabitants have generally recovered from the alarm occasioned by the fear of a native uprising and are resuming their ordinary business. The shipping is naturally suffering since there has been no clearances for Philippine ports for a week, but on the other hand foreign shipping has increased, especially for Hong Kong, every steamer bound thither being crowded with timid refugees.

Despite this quietude, however, many are asking whether the problem is still far from solution. A week ago those who took an optimistic view predicted that the terrible lesson just administered to the rebels would settle the question of Filipino independence. But this prediction has not been fulfilled. As a matter of fact the rebels are now scattered throughout the country, bushwhacking, except at Malabon, where they are gathering in force. Even there their method-savor more of guerilla than of civilized warfare, every bush, clump of trees and tree furnishing a cover for sharpshooters. Unfortunately, for miles around the land is studded with bamboo jungle and open spaces are few and far between. This affords the natives, who fight better under cover, a distinct advantage.

Under such conditions it is remarkable that the American casualties should be so few, while the number of dead natives found in the trash after every skirmish testifies to the precision of our fire. Last week there was not a single day without fighting, but the Americans steadily advanced carrying everything before them.

It is now known that the Filipinos lost fully 2,500 killed, with wounded vast in excess of that number and thousands are held prisoners. All this has been achieved at the cost of sixty-five Americans killed and 276 wounded.

There were twenty-five Americans missing and unaccounted for. No fewer than ten of the native villages have surrendered or been captured. Several have been destroyed because their houses had burned men, frequently disguised in female attire, who shot from windows and roofs at the Americans.

Mary rifles and a ton of ammunition have been seized. As might be expected, there is looting in the outskirts, but it has not been general and has been done in direct violation of orders.

The only incident that has broken the quiet of the day followed the arrival of the German first class cruiser Kaiserin Augusta. When it saluted Admiral Dewey this afternoon a report spread rapidly that the American war ships were bombarding Malabon.

Today crowds have visited the scenes of last week's fighting. All the roads from the city were thronged with vehicles, but beyond burned villages and new mounds in the fields there was little to be seen. Inspection showed that most of the enemy's dead had remained at their posts to the last as the bodies were usually surrounded by empty cartridges, while in some cases, where there were no dead, there was little and often no ammunition.

Among the distinguished prisoners captured in Manila since the outbreak of hostilities are Captain A. G. Escamilla, Aguinaldo's private secretary; Captain E. P. Vargueta and Senior Tomas Del Rosario, a member of the so-called Filipino congress in session at Malabon. Other Filipino officers are also in custody.

Home Grown Fruit Trees Are the Best.

The Riverside Nursery Co. has a full and complete stock of all kinds of fruit trees, vines and plants which they have grown with care. Their many years of experience in the business has enabled them to grow nursery stock that will compare with any in the country. They have all the standard and choice varieties suitable for this climate, also rare and valuable varieties. They do their own budding and grafting, and can guarantee their varieties to be true to name and strictly first-class. Why not buy your trees here where you can get them fresh and grown in the same soil and climate in which they are to be transplanted? It will save you time and money. They invite you to come and inspect their stock and be convinced of these facts. Nursery two and one-half miles east and one-half mile north of Union, Neb. J. J. Corbet, a prominent farmer residing near Nehawkin, was in the city today. Mr. Corbet will depart tomorrow for Texas and Arizona on a sea tick seeking tour.

The cold weather, it is feared, has had a disastrous effect on fill wheat, and in fact in all sections where there was no snow on the ground to protect it. As a result the price of wheat will probably go up very shortly.

Peter Perry and family have moved back onto the farm near Myndard on University Place, where his daughters had been attending school. Mr. Perry says University Place has good schools and is a very good place to live, but he prefers to be on the farm where he can hear the big-eque J.

No Right to Uginess.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and ill run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at F. G. Fricke & Co.'s Drug Store.
