FILIPINOS VERY SAVAGE

Story of Their Treatment of An American Photographer.

Natives Perform a War Dance Before Their Captive And Assure the Unfortunate Man That It Is Their Intention to Kill Him—Report of the Fighting at Holo.

SAN FRANCISCO, March 23.—A letter from Captain McQuesten, surgeon of the Twenty-eighth regulars, now at Manila, tells of the release of A. R. Peters, a photographer, who was captured and tortured by the Filipinos.

Peters was made prisoner while taking pictures outside the lines. He was thrust into a filthy jail, where he was visited by a native captain, who tested his sword on his body and promised to kill him.

The rebel chief then called in a number of naked savages, all armed, who executed a war dance and made passes at Peters, one of whom wounded him in the arm.

The next morning he was taken to Malolos, where he found eight Americans, two Englishmen and a Spaniard. From here he finally secured his release through the intervention of American officials.

"The savages who attacked Peters," continues Captain McQuesten, "were of the tribe known as head-hunters and cannibals. They live in the interior of this island and will not show any mercy after this to any unfortunate white man who may fall into their hands."

Report on Holo Fighting. MANILA, March 23.—5:10 p. m.—Details of the fighting at Holo on March 16 show that 400 rebel riflemen from Panay were met by seven companies of the Eighteenth regiment of United States infantry and a battalion of the Tennessee volunteers.

As supports these troops had three to four Hotchkiss guns, under General Miller, north of Jaro, across the river. The Americans were met with a heavy fire. One man was killed and fifteen were wounded of the Eighteenth regiment.

And there were several cases of sunstroke. General Miller estimates that fifty rebels were killed and 100 wounded.

Poisonous Projectiles. NEW YORK, March 23.—A special report from Washington says: Reports received at the war department from the medical officers serving with troops in the Philippines show that Aguinaldo's army is using brass-tipped bullets. Several American soldiers have been wounded by the poisonous projectiles and in consequence the wounds are more difficult to heal than those caused by the ordinary bullet.

Of course the authorities can do nothing to prevent the insurgents using any kind of bullets they see fit. They have no government to which an appeal can be made. Their action in this respect, officials say, is another indication of their utter unfitness for self-government.

Does Coffee Agree With You? If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee."

Get a package today from your grocer, follow the directions in making it and you will have a delicious and healthful table beverage for old and young. 15c and 25c.

A Right of Burial.

Despite the growing difficulty of finding space for the interment of public men within the walls of Westminster, at least one noble family still enjoys a prescriptive right of burial there. These are the Dukes of Northumberland, who have the exclusive use of a spacious vault in the Chapel of St. Nicholas. This vault, which was the last resting place of the Seymours, was opened as recently as 1853 to receive the remains of Lady Louise Percy, the elder sister of the present duke.

Going Down Hill.

People suffering from Kidney Diseases feel a gradual but steady loss of strength and vitality. They should lose no time in trying Foley's Kidney Cure, a Guaranteed Preparation. F. G. Fricke & Co.

Submarine Searchlights.

One of the disadvantages of a searchlight on war vessels is the revealing of the position of the ship. In the United States navy experiments have been made with submarine lights which were placed well below the surface of the water, and their rays were directed slightly upward. As the light emerged from the water the observers on deck could detect any vessel at the point of emergence, and the searchlight could not betray its own source.

Bismarck's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where stomach, liver, kidneys and bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25c at F. G. Fricke & Co.'s drug store.

Vanilla Bean Is Costly.

It is not generally known that the vanilla bean is the costliest bean on earth. It grows wild and is gathered by natives in Pipantla and Misantla, Mexico. When brought from the forest these beans are sold at the rate of \$2 50 per 1,000, but when dried and cured they cost about \$2 50 per pound. They are mainly used by druggists, and last year 90,000,000 beans were imported into this country.

J. Sheer, Sedalia, Mo., conductor on electric street car line, writes that his little daughter was very low with croup, and her life saved after all physicians had failed, only by using One Minute cough cure. F. G. Fricke & Co.

He Found It So.

Pupil—What, in your opinion, professor, is the most difficult mathematical problem? Poor Professor (grimly)—Trying to make both ends meet, my dear sir.

It Was Worth While.

Governess—Now, Linsley, you mustn't have any more pudding; it'll make you ill. Linsley—Never mind; it's worth it!
