Fred Schneiderwind and Charley Carpenter, the two youthful burglars who broke into the general merchandise store of Jenkins & Son at Murray a few weeks ago, this morning appeared before Judge Ramsey in district court and plead guilty to the charges pending against them.

They were charged with the theft of twenty-five pocket-knives, five pairs of trousers, three pairs of gloves, three shirts, four pipes, one can of oysters and four neckties.

The boys conducted their own defense, and their principle excuse for taking the goods was that they needed them to keep warm. It was also brought out that they had escaped from the reform school on account of the food served there.

Charles Ennmann, who was held as a witness, went away smiling when he was informed that they had no further business with him, although he didn't have a cent in his pocket. His home is in Leavenworth, his father being in the boot and shoe business at that place.

TEACHERS' INSTITUTE OPENS

Enrollment Will Probably Exceed That of Former Years.

WEeping WATER, March 28.—The annual teacher's institute for Cass county opened yesterday at the usual hour. Most of the teachers were present at the opening meeting, but a few came in on the noon trains and are now duly registered and hard at work. The enrollment is quite large and will probably exceed that of former years.

Union conducts her city election on a strictly non-partizan plan, and by the way, other towns might do likewise with profit. Tuesday evening, pursuant to call, a citizen's caucus was convened and twenty men named as possible candidates for nomination as councilmen. The caucus then proceeded to vote for ten out of the twenty, and the ten having the largest number of ballots are declared the nominees. At the election everyone will vote for five out of these ten, and the five having the largest number of votes will form the town council for the coming year. The Imperial Guard of France. The Imperial guard of France was created by Napoleon I. from the Guard of the Convention, the directory and the consulate, when he became emperor in 1804. It consisted at first of 9,775 men, but was afterwards enlarged. It was subdivided in 1890 into Old and Young Guard. In January, 1814, it numbered 102,706. It was dissolved by Louis XVIII. in 1815, revived by Napoleon III. in 1854. It surrendered with Metz to the Germans the 27th of October, 1870, and was abolished by the defence government soon after. It took part in the Crimean war, 1855. As a corps d'elite it was one of the finest bodies of troops in the world in the time of Napoleon I. and the history of France and its wars abounds with numerous instances of its bravery, fortitude, and intense attachment to its "Fighting Emperor."
