

MACABEBE IS CAPTURED

Town Four Miles North of Calumpit Captured by Americans

General Lawton Continues to Advance—Has Organized a Band of Scouts From the Old Indian Fighters in His Command—Dewey Day is Observed by the Fleet at Manila.

MANILA, May 2.—8:25 a. m.—Major Bell, with a squad of scouts, has captured the town of Macabebe, about four miles southwest of Calumpit, the people ringing bells and shouting "Vivas." The American army is now employing Macabebes instead of Chinese and they are delighted to get 50 cents a day, declaring their loyalty to the Americans.

General Lawton is advancing. He has organized a band of forty scouts to go ahead of the column. The band, which is under W. M. Young, an old Indian fighter who killed five Filipinos last week, includes Diamond, Harrington, Somerfield and Murphy of the Second Oregon regiment.

Yesterday, the anniversary of the battle of Manila bay, was observed by the United States fleet, the usual drills being omitted. Admiral Dewey had many visitors and the American and British merchantmen dressed ship.

General MacArthur has sent officers to General Antonio Luna, the Philippine commander under a flag of truce, carrying money and provisions for American prisoners in his hands and asking an exchange of prisoners and the release of such as he may have.

It is reported that the insurgents have two officers and sixteen others, and it is supposed that among these are Lieutenant J. C. Gilmore and eleven men of the crew of the gunboat Yorktown, who fell into the hands of the Filipinos last month when the gunboat visited Balor, on the east coast of Luzon.

Captain Among the Missing.

WASHINGTON, May 1.—The War department has received no advices from General Otis since Saturday concerning the situation in the Philippines. In the two dispatches received today no mention is made of the negotiations with the insurgents, nor of any fighting. General Otis reports that Captain Rockefeller of the Ninth infantry has been missing since April 28. Captain Rockefeller was making some investigations about Caloccan and has not been seen since the date given. Some of his personal papers have been found about two miles from Caloccan. It is feared that he has been captured by some of the insurgent bands.

WASHINGTON, May 1.—Capt. Charles A. Rockefeller entered the army as a private in the Seventh New York in 1861. He served through the civil war, reaching the rank of first lieutenant of volunteers. He became a second lieutenant in the Ninth infantry in 1867, and has been with that regiment ever since. He has always been known as a good soldier and was a graduate of the infantry and cavalry school. He was well up in the list of captains and would have received a major's commission in a short time.

The following is the dispatch of General Otis announcing the disappearance of Captain Rockefeller:

"MANILA, May 1.—Adjutant General, Washington: Captain Rockefeller, Ninth infantry, missing since 28th ultimo, on line of commanding battalion near Caloccan; visited outposts 9:30 p. m.; not seen since. Diligent search made that night two miles to front; nothing discovered, no enemy in front. Search prosecuted ever since without success. Private papers in his possession found 29th ultimo two and one-half miles to front; believed lost his course and was captured."

A Pleasant Thing.

"Wall, yes," replied a prominent citizen of Arkansas to the query of a prospective land purchaser, "we have considerable acre yere. It ain't the pleasantest thing in the world, maybe, but it has its advantages. When yo' have a chill yore shakin' amuses the baby, an' it saves a right smart sum, in the course of a year, in the cost of rattle boxes."

"Obvious Reasons."

Johnny—Pa, Mr. Brownlow said, for obvious reasons, he should be unable to be at the meeting at the school-house tonight. What does he mean by "obvious reasons?" Pa—Why, my son, when a man has any reasons that he can't think of or has reasons that he doesn't care to name he says his reasons are obvious.—Boston Transcript.

ATLANTON GLOBE SIGHTS.

All pretty women, and all handsome men, are a little foolish.

A successful man can't realize how hard an unsuccessful man finds life.

Some men who have more money than brains, haven't much money either.

The man who sells whiskey makes money easier than the man who makes it.

However truthful a boy, he dislikes to tell the exact facts about a hunting or fishing trip.

Win \$10 on an election and the public will give you credit for winning ten times that amount.

Every wedding is the prettiest of the season, and every bride's wedding outfit is the most elaborate.

When a child says "thank you" without being reminded, its mother feels very puffed up and proud.

"Outfit" means the same as "trousers," and people can't call you down on the way you smell or pronounce it.

The women have such an accumulation of mud on their skirts that it sounds as if they wore silk petticoats.

Some of the new spring hats the girls are wearing look like the old-fashioned hats the country girls used to wear for themselves out of wheat straw.

There are a lot of women in the world who have picked up a lot of expressions from preachers, and who unfortunately believe they are doing great good by repeating them.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Humboldt, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhoid fever, that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and an new well and strong. I can't say too much for its merits." This marvelous medicine is the surest and quickest cure in the world for throat and lung trouble. Regular sizes 50 cents and \$1.00. Trial bottles free at F. G. Fricke & Co's drug store; every bottle guaranteed.

Went Home Intoxicated.

Reeds Cor. Chicago Record: With a view of quelling the men of his majesty's navy have now bowed to the sailor's decree regarding mustaches. Naval officers who wore the offending mustache have occupied themselves since the promulgation of the order in raising a beard to match, or else have shaved altogether. His majesty has no objection to the mustache when it keeps company with a beard on the face of the sea-fighter, but he will have no naval faces decorated in the fashion he has chosen for his own.

The Earth.

The earth is growing stouter and heavier every year by some 10,000 tons. The extra matter which is thus being added to our planet consists of the thousands of tiny meteors or shooting stars which are continually raining upon its surface.

Works Both Ways.

Horseback exercise possesses, according to some physicians, the faculty of both increasing and reducing weight. If meals are taken immediately after riding additional flesh is gained, otherwise a decrease of flesh results.

The Terrible Disease of the Khalifa.

The special correspondent of the Daily Telegraph at Cairo says that the Khalifa has contracted leprosy. So far the disease is not made much progress, but the nails have fallen from his toes and the marks over his eyebrows are conspicuous. Lately he has taken to wearing a veil. It is said that the malady was caught a few years ago through the Khalifa's taking the wife of Faded Abad, a black Emir and leper, who has since died.

If you have piles, cure them. No use undergoing horrible operations that simply remove the result of the disease without disturbing the disease itself. Place your confidence in Dr. Witt's Witch Hazel Salve. It has never failed to cure others; it will not fail to cure you. F. G. Fricke & Co.

Change of Nerves.

"Who is that man around the corner who complains that the baby waked him when it cried for a few minutes last night?" asked the little woman. "Don't you know?" her husband responded. "He's been working in a boiler factory for the last five years."—Washington Star.

Bull and Red Rag.

The reason red infuriates the members of the ox family is found in the fact that red is the complementary color of the green, and the eyes of cattle being long fixed on herbage while feeding, when they spy anything red it impresses the sight with greatly increased intensity.

DEDICATORY SERVICES.

Plattsmouth Lodge No. 8, A. O. U. W. Dedicate Their New Hall.

A Number of Prominent State Officers of the Order Participate in the Ceremony—Interesting Addresses by Local Members are Given—Degree of Honor Serves the Supper.

Plattsmouth lodge No. 8, Ancient Order of United Workmen, dedicated its new hall, located at the corner of Pearl and Seventh streets, Saturday evening. The threatening weather kept many away who had arranged to attend, nevertheless.

The dedicatory services were in accordance with the ritual of the order and were quite interesting. The state officers who participated in the ceremony were Grand Master Workman M. E. Schultz, Deputy O. J. Van Dyke and Congressman-elect Burkett, Lincoln, and County Clerk Haverly of Omaha. P. J. Morgan and Frank Boyd of this city also assisted.

After the dedication, interesting speeches upon the order were made by Messrs. R. B. Windham, E. J. Burkett, A. N. Sullivan, Matthew Gering, O. J. Van Dyke, and M. E. Schultz. Miss Tressie Hempel, grand recorder of the Degree of Honor, and Mrs. Dr. Chapman of Lincoln also gave addresses.

An elegant supper was served by the Degree of Honor. The music was furnished by the mandolin club.

The new hall is one of the finest lodge buildings in the state and was built and furnished at a cost of \$5,000, a full description of which was given in THE NEWS a few weeks ago.

IS PURSUED BY ADVERSE FATE.

"Judge" Julius Cooley Meets With Some Unpleasant Adventures.

The following in regard to a former Cass county citizen, who is well known here, is taken from the Bee and will be read with interest:

Some kinds of things appear to be coming the way of "Judge" Julius Cooley, who in his time has played many roles, including "Hamlet." It is stated on reliable authority that the "judge" is of the opinion that an adverse fate is pursuing him, temporarily at least. The other afternoon he donned his silk tie, a collar three inches in height and bearing all the colors of the rainbow, and started to take a trip "down the road."

Somehow he managed to get on the wrong train, but he did not make the discovery until Papillon was reached. He wanted off and seeing that the train was not going to stop he reached angrily for the bell cord and gave it a pull that made the engineer think something had broken loose, or was about to, back in the train. Not waiting for the train to come to a standstill the "judge" went out on the platform and took a flying leap, which resembled that of a frightened bullfrog as it dives into a puddle of water. He did not land with the grace and effectiveness of the frog, however, because of the somersaults he made in whirling through the air. His silk hat was a wreck, his collar disfigured and his face bore several abrasions—as an evidence of how hard he landed.

This, however, was not the "judge's" latest experience. The latter part of the week, while purchasing some gasoline at a store on South Tenth street a collector entered and presented him a bill. It was not paid and a fight followed. The "judge" was dragged into a rear room, where an orange box was used on his head. When he emerged his face looked very much like that of an Indian besmeared with war paint, the difference being that the "judge's" coloring was due to his own blood. He filed a complaint against P. C. Smith in Justice Baldwin's court charging him with assault and battery, particular stress being laid upon the battery portion.

Grain-O Drinkers Beware!

To the coffee drinkers. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion, effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. 15 and 25c per pack. 85c.

Wells of Great Depth.

A curiosity, at least, is this compilation of the deepest wells in the world: In Europe, one at Passy, France, depth 2,000 feet; at La Chapelle, Paris, depth 2,950 feet; at Grenelle, Paris, depth 1,788 feet; at Neusalwerk, near Minden, depth 2,288 feet; at Kissingen, Bavaria, depth 1,787 feet; at Spreenberg, near Berlin, depth 4,190 feet, which is said to be the deepest in the world; at Pest, Hungary, depth 3,132 feet. In the United States there are wells located at St. Louis, depth 2,843 feet; at Louisville, depth 2,688 feet; at Columbus, Ohio, depth 2,775½ feet; at Charleston, S. C., depth 1,250 feet.

Instead of Hat Pins.

Many people who have preached against "The Deadly Hatpin" will be glad to know that a man in Kansas has invented a little affair which is intended to supersede the hatpin and will be sewed to the hatband on either side. The contrivance consists of a plate provided with means for fastening it to the sweatband, and this is provided with a toothed arm working on a pivot or hinge. The latter is manipulated by means of a lever which protrudes downwardly just under the plate and elevating the comb when the lever is depressed. When the hat is adjusted on the head of the wearer the teeth clamp the hair and the points are locked in any desired position, but are easily disengaged by means of a small lever.

Meat Cooked by Cold.

Anyone who has ever picked up with a bare hand a piece of intensely cold iron knows that the touch burns almost as badly as if the metal were red hot. Indeed, the action of great heat and extreme cold are so similar that a Hungarian chemist has turned the latter to account to prepare meats for food. He subjects the meat to 60 degrees of frost, and then seals it up in air-tight tin cans. The result is that the meat, which is practically "cooked by cold," will keep any time, and can be eaten with very little further preparation.

Not Would, but Could.

The Yankee pilgrim had just finished a long tour of the world, and was waiting on the pier at Liverpool for the steamer which would carry him back to his native land. The Britisher was just beginning his similar tour. They had agreed to be friends across the Atlantic. "I've been all over this world," remarked the Yankee, "and I did the whole trip for \$3,000." "No one but an American would do that," said the Briton. "No one but an American could do it," replied the pilgrim.

Canvassack ducks were no numerous in the early days of Maryland that employers were obliged to enter into contracts with their laborers that the latter should not be fed on canvassack duck more than three times a week.
