exports for the year ending June 30 were \$\$5,000.0.0 less than the previous Plattsmouth year, the total experts of all kieds was only about \$3,000,000 less. The NEWELL & JONES difference was nearly made up by an increase of \$82,000,000 in the amount of manufactures sent abroad. The Dingley law is getting all kinds of vindications.

> THE Louisville Kicker, edited by G. C. Kicker, which was started for the purpose of kicking against everything that is not in keeping with the ideas of the demo-pops, is now kicking very strong because it has been refused transmission through the mails as second-class matter. Very little of its space is devoted to Louisville, and it s a question whether or not it is a forsure newspaper and entitled to secondclass rates.

A number of merchants of the city have expressed their willingness to contribute from \$50 to \$100 toward the enterprise and if all of them would take hold of the project, it would be an easy matter to raise \$1,000 or \$1,200, which would be an ample sum to provide suitable amusements, music, etc. It would be a lasting advertisement for the city and even if the merchants did not get their money back at the time, it would only be a short time until they would.

Hastings and Lincoln are the only cities in the state which at present have such plans on foot. The former city raised \$1,400 in a half day. Is there any reason why Plattsmouth cannot do as well?

By securing reduced railroad rates, large crowds could be attracted from every town in the county and also from neighboring towns in Mills county, Ia.
