Secretary of War Root Announces An Aggressive Policy In the Philippines.

Says There Will Be No Delay In Enlisting and Equipping the Ten New Regiments.

WASHINGTON, Aug.17 .- "The policy of the War department," said Secretary Root today, "is to furnish General Otis with all the troops and supplies that he can use and which are necessary to wind up the insurrection in the Philippines in the shortest possible time.

The secretary was speaking of the ten regiments which were called for today by order of the president. He said that no delay would be allowed in enlisting, equipping and supplying the new regiments, nor in transporting them as well as the other regiments already organized to the Philippines as soon as they were needed for active operations. If the present number of transports is insufficient, more will be procured. The men already enlisted for the Philippine service will be sent at once, and the new regiments will be forwarded as fast as they are organized and needed. While there has been some suggestion that the new regiments will be used as a reserve force, it may be stated positively that these regiments, as well as more, if they can be used, will be sent to reinforce General Otis.

Secretary Root sent a copy of the ments of the army, and they at once new organizations.

Within half an hour the ordnance bureau had sent orders to the different arsenals directing that complete outlits of arms and ordnance supplies for each regiment be sent to the rendezvous where they are to be organized. The quartermaster's department gave orders for supplying tents, clothing and other equipments fur-

FIERCE FOREST FIRES RAGE.

Thousands of Dollars' Worth of Valuable Property Already Destroyed

large portion of northern New York, including the counties of Jefferson, St Lawrence and Lewis, is being swept by flerce forest fires that have destroyed thousands of dollars' worth of valuable timber land and threaten to do more serious damage unless quenched by a heavy rain. Reports received by the Standard from different localities in this and other counties this afternoon show that the situation is very serious.

In the southern part of this county, in the vicinity of Smithsville, thousands of acres of timber land have been burned over. A dispatch from Antwerp says Cooley's big woods are afire and houses in the outskirts of the subject, "Our Work." Mrs. W. D. village are in danger of destruction. Large settlements are daily made here, more than in other cities of the northwest, by transferring credits from one account to another in the same bank, so that they are not counted in the clearing-house statements.-Portland Oregonian.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
