Vanderlip Visits the Coast. SAN FRANCISCO, June 26 .- F. A. Vanderlip, assistant secretary of the treasury, arrived here today. He comes on two missions, one to inspect the local rout and the other to form one of the board of examiners who will investigate the letting of the stone contract for the new postoffice in this city. Eastern and western contractors have made bids for the stonework and a great effort is being made to have the new postoffice constructed of native stone. The eastern stone is said to contain iron and to be therefore unfit for such a building. It is to determine

for the board's procedure. The information from Germany is that Emperor William will not separate himself from the other powers in the arbitration question, and the German delegates anticipate a favorable decision on that point. The work is now so far advanced that the conference will probably take a holiday after tune 28 in order to allow the delegates to refer to their respective governments for final decision. The latter are urged to promptly inform the government of all acts affecting respect of both institutions and public order and to be ready in case of need to act promptly on their own responsibility.

The prefects are also warned to let bygones be bygones and to perform their duties with the utmost precision. The minister of war, General de Gillifet, has also sent a circular to the

generals as follows: "My Dear General-I have been the country and the government of the republic, the responsibility for the I count, therefore, on you, as you may DE GALLIFET."

Cause of Royalty Impost. VICTORIA, B. C., June 26 .- In an interview printed in a lute issue of the Klondike Miner Commissioner Ogilvie states that he never advised the imposition of royalties on the gold output. He believes that sensational reports sent out regarding the vast wealth being shipped out of the country were the direct cause of Canada imposing the royalty tax. The commissioner has not lost faith in the richness of the country and predicts that the whole district in the vicinity of Dawson will probably yet yield \$100,000,000 in gold.
