

MEN LEAVE THEIR JOBS

Another Trolley Strike On in the City of Brooklyn.

A NUMBER OF ARRESTS ARE MADE

Employees of the Rapid Transit Company Have a Grievance Which They Want Redressed—Strikers Make Trouble for the Police—Non-Union Train Crews Assaulted and Halls Torn Up.

NEW YORK, July 17.—Another trolley strike is on in Brooklyn. Nearly all the conductors and motormen of the Brooklyn Rapid Transit company, numbering several thousand, quit work at 5 o'clock this morning. Those who had cars out left them on the tracks. The company endeavored to run cars with nonunion men on all lines and there was much disorder. Wires were cut, rails were torn up and at the Marcy avenue station a crowd of 4,000 men resisted the police.

Many arrests were made during the day. On some lines the company maintained a regular service and on others they failed altogether. Cars were unable to run to the ocean beaches. The streets were very few nearly so complete as the labor leaders said it would be.

So far this strike has not been as effective as that of 1916, but there is no telling how long it will last. It may become a meeting ground for the strikers. Meetings have been held daily and nightly for the last week, and it was inferred by the reports given out by the employees and their advisers that the strike would not occur for some days to come. General Master Workman Parsons and District Master Workman Pines had charge of the meetings and a strike was called at 4:30 yesterday morning. Shortly after midnight about 100 policemen from the precincts of Manhattan and the Bronx districts were sent to different parts of the city and placed along the several routes comprising the territory covered by the Brooklyn Traction company. Up to half past 7 o'clock there were very few cars run over these lines and those sent out from the different barns were policed by two, three and four constables. On the Putnam avenue line only a few cars were running and it was notable that scarcely a dozen of the cars on this division were policed.

The Flatbush and Bergen Beach cars, the Norstrand avenue, Gates, Ralph and Myrtle avenue cars, as well as the Third avenue trolleys, had a meager service in the early hours of the day, but traffic on the old Nassau lines, which comprise the Fifth, Seventh, Park and Vanderbilt avenues, and Douglas and Butler streets roads will be practically at a standstill. The men on the Nassau road were most determined and not one of the conductors or motormen went to work. The cars remained idle for several hours, but by 10 o'clock about one-tenth of the regular riding public was working. These cars were manned by inspectors and firemen, and, in fact, officers and helpers were pressed into service so as to maintain a partial running of the system.

By the middle of the afternoon over 50 per cent of the old men on the Gates, Ralph, Broadway, Myrtle avenue, Flushing and Third avenue roads were at work on these lines. Later in the afternoon the cars on the latter road were running at intervals of ten minutes, which meant that the service was crippled about one-third.

Experiments with High Explosives. WASHINGTON, July 17.—The War department has recently concluded an exhaustive series of experiments at Sandy Hook with high explosives and the largest field gun in the world to mark a material advance in the artillery branch of the army. Permanent arrangements were made under the Board of Ordnance and Fortification, composed of both line and staff officers and of which the major general commanding the army is chairman. The board's report is in shape to be presented to the secretary of war and if adopted will result in arming the troops in the Philippines with the most advanced type of light field guns in the world. The board has decided on a type of field gun which can fire fifteen aimed shots per minute, which can be operated with one man and which its full crew can take to pieces in thirteen seconds for loading on mule back for transportation wherever needed. It is three-inch caliber, can carry shrapnel or a bursting charge of high explosives, which will kill by concussion in a radius of 200 feet.

Explosion in a Mine. VICTORIA, B. C., July 17.—A terrific explosion occurred in the Toyoko coal mine at Kyushu, Japan, on June 15, according to advices by the steamer Olympia. There were 200 men and women in the mine. The work of recovering the bodies was going on when the vessel sailed. The total loss of life was not known.

Search for W. F. Russell. ASH FORD, Ark., July 17.—W. W. Bass, the well known guide, and another man have started from here to search for W. F. Russell of Syracuse, Neb., who was lost in the Grand Canyon near the foot of Bright Angel trail last Sunday while attempting to cross the swollen river in a mere rock-bottom boat of canvas. There is some hope that Russell may have reached shore farther down the canyon.

Bound Over to District Court. From Saturday's Daily. Harry Thomas, the colored man who was brought in the other evening from South Bend, charged with breaking into a boarding car, was arraigned before Judge Archer this morning and bound over to the district court in the sum of \$500.

At the hearing the prisoner claimed it was his companion who was guilty of breaking into the boarding car. A colored man who answers the description of Handy Burl has been captured by Sheriff Wheeler and will bring the prisoner down some time this afternoon.

RESERVOIRS FOR LIVE STOCK.

Their Threatened Monopolization Does Not Create Apprehension.

WASHINGTON, July 17.—Reports reaching the Interior department of a threatening monopolization of a number of points of the lands acquirable under the law relating to reservoirs for watering live stock creates apprehension on the part of the authorities. The say that the object of the regulations put in force for the execution of the law have been so carefully framed that there is no danger of individuals getting more than their share of the public domain or the infliction of any possible injury to the common use of the areas concerned. The new code of rules, it is stated, restrict fillings made previous to the issuance of the rules, taking from them every tendency to monopoly, these previous fillings being now returned to the parties with instructions that the applications for such lands must conform to the later regulations.

They are also designed to prevent an exclusive right to the tract taken, giving the land the status of a community property open to all seeking the water rights and furthermore, they restrict the maximum quantity of land in any section to 100 acres to each individual, but even this is not permissible unless the party has built a reservoir having a capacity of 500,000 gallons, less capacity reducing the area allowed proportionately. The land taken cannot be fenced or otherwise enclosed and must be kept open to the free use of everyone wanting to water his animals, any noncompliance with the law and regulations resulting in cancellation of rights.

NO ONE CLAIMS AUTHORSHIP.

The Proclamation Recently Issued Against Uncle Sam.

HAVANA, July 17.—The pronouncement recently issued in the city of Matanzas, signed "Batacourt," and calling upon Cubans to prepare to hurl from the country the "crafty eagle," as they had removed the "haughty and hungry Spanish lion," is now believed by many to have been the production of the civil governor of Matanzas. The reasons for this view are not very convincing, but Senor Batacourt has not positively denied the authorship and it is notorious that he has expressed almost identical sentiments in the Havana cafes on different occasions before American officers. He once used language closely resembling that of the "proclamation" in the presence of an American brigadier general and an American colonel.

Both officers believe it quite probable that he wrote the appeal. If not its author, then in their judgment, he was cognizant of it and agreed to the use of his name. Many Cuban officers in high rank are satisfied that Senor Batacourt was in some way intimately related to the publication and circulation of the address to the people of the island. General Wilson, military governor of the Matanzas-Santa Clara department will doubtless ask the civil governor for an explanation in case there is no denial from him.

Investigation of Trusts.

CHICAGO, July 17.—The general committee on arrangements for the conference on combinations and trusts called by the Civic federation of Chicago has mailed circular letters to 625 agents and combinations throughout the country, asking twenty-six questions, such as the number of organizations included in the consolidation, the number yet outside, the original capital, and the various concerns now merged, the present capital employed, the effect on prices of products and the effect on labor so far as to displacement and rate of wages.

Of the labor unions in the various crafts employed in these combinations, questions are asked as to the effect on wages, hours of work and the number thrown out of employment by the organization of the trusts.

Sees Danger Ahead.

PARIS, July 17.—La République Française, commenting upon the danger in which the proposed Franco-American commercial convention will place our national productions, says: "The project provoked legitimate tests. The agriculturists of Ain department have already remonstrated and others will follow, as all parts of the country will be affected."

Soldier Violated Orders.

ALBANY, Ore., July 17.—Frank M. Girard, a member of Company I, Oregon volunteers, has arrived here from San Francisco, in violation of orders. On reaching San Francisco harbor, while still on shipboard, he received a telegram from his mother, who resided near Monmouth, was dying, and asked him to come at once. He applied to the officer for a furlough, offering the telegram as a reason, but it was refused. By the aid of sympathetic comrades he was let down by a rope into a small boat and went ashore, taking the train at once for home. He says that he will return to his regiment in a few days.

More Arrests at Cherbourg.

CHERBOURG, July 17.—Early this morning more arrests were made owing to the police station being besieged by a party of marines who demanded the release of their comrades. The windows of the station were broken. Soldiers with drawn swords pursued men who were engaged in tearing down lanterns after the national fete. The rioters in several places attempted to provoke the infantry of the line by insulting cries. The troops, however, remained calm.

Roster of Company B.

A picture of all the members of Company B, together with their names, was received today and can be seen in the show window of I. Parnell's furniture store. It is the property of Cass county, and in addition to containing the pictures and names of the members of Company B, it also gives the names of the officers of the Seventh Army corps, and beneath the words "For Humanity's Sake" is a picture of William McKinley. The roster is neatly framed, and every member of the company who went to Cuba can feel justly proud of it. It will be displayed at Pearlman's store for a few days and then placed in Bon Hemple's museum.

Accepts English Advice.

LONDON, July 15.—The Digger News, the Boer organ in London, has received the following dispatch from Johannesburg, dated July 14: "A cable dispatch from the British government has been received by the Transvaal government conveying a cordial message of warm approval of the Volkraad's franchise proposals. The message also surges a minor alteration and tendered friendly wishes. The Volkraad in replying gratefully accepts the suggestions and consideration of the reform bill, now before the Rand, has been deferred in accordance with the British cabinet's hopes. As a result of this development the peace treaty has come out triumphant and Lord Salisbury is acclaimed as the vindicator of the moderates."

Sound Money Men to Meet.

RICHMOND, Va., July 15.—E. V. Smalley, general secretary of the National Sound Money League, who is in Richmond today consulting with a number of gold standard men with reference to holding a national currency convention in this city at some date in October next, yesterday advised the league in Hon. J. Sterling Morton of Nebraska. It is stated that a local committee, composed of prominent Richmond men of both parties, will be organized today to make arrangements for the convention and of the invitations to speakers. Secretary Smalley left for Hot Springs tonight to report to Mr. Ingalls, who is in command of the convention at Richmond, and it is believed a call for the convention will be issued some time in August.

Find the Hidden Treasure.

RICHMOND, Mo., July 15.—Neighbors digging in the house of Thomas Graves, near here, dug up several jars of money, gold and silver amounting to \$2,100. Graves and his aged sister, who lived with him, were murdered and the house burned to conceal the crime. The man was a reputed miser and it is believed that murderers hoped to secure his hoard. The neighbors are still digging near the house in search of treasure.

Shafter Does Not Want to Retire.

SAN FRANCISCO, July 15.—Major General Shafter will have reached the age limit in about three months, and it is said his friends are working quietly but none the less earnestly to secure his retention in the service a few years longer. The friends of General Shafter argue that since the department of the Pacific has become so important by reason of the acquisition of the Philippines it is inadvisable to make a change in its commander just at this time. It is rumored that Brigadier General Merriam, at present in command of the department of Missouri and Colorado, is likely to succeed Shafter in the event of his retirement.

Marchioness of Salisbury Ill.

LONDON, July 15.—The marchioness of Salisbury, wife of the premier and minister of foreign affairs, died a slight attack of paralysis at Walmer castle. She rallied well and is now improving in health. Lord Salisbury was obliged to curtail the diplomatic reception at the foreign office yesterday, immediately after the receipt of the grave tidings, and took a special train to Walmer castle.

Prominent Elk Dead.

MINNEAPOLIS, Mich., July 17.—C. M. Foot, grand exalted leading knight of the grand lodge, Order of Elks, died in this city today from heart failure, superinduced by a complication of diseases. Mr. Foot was one of the leading citizens of Minneapolis, and a few years ago was a prominent candidate for postmaster. He was 50 years old. Mr. Foot was one of those injured in the collapse of the coliseum at Atlantic City, N. J., in 1895.

RAILROAD NOTES AND PERSONALS

From Monday's Daily. Supply Agent D. S. Guild is up the line this week.—Alliance Times.

Burl Chandler, who is employed in the Burlington blacksmith shop, met with an accident this morning while at work. A heavy channel bar from a truck fell on one of his feet and disabled that member to such an extent that he will have to take a few days' lay-off.

D. Hawksworth left on the early west-bound train this morning on company business.

A plant for the treatment of ties will be erected in Edgemont at once. The plant will cost between thirty and forty thousand dollars.

Judge Spurlock this morning united in marriage Mr. Edward Leonard Klein and Miss Emma May Totten, both of South Bend.

Dr. T. P. Livingston received a box from Manila Sunday afternoon which he values very highly, it having been used by his brother, Guy, in which to keep his clothes. The box weighs about 125 pounds, and on the lower portion of the address card are the words: "Property of Henry Guy Livingston, Private Company M., First Nebraska Volunteers."

J. W. Johnson conducted the reference sale of the McConkey property at the court house Saturday afternoon. Lots 1 and 2, block 3, in Donnelly's addition, and lots 15 and 16, block 3, in Stadelmann's addition, were sold to Matthew Gering—the former lots for \$310 and the latter for \$180. The sale of lots 13 and 14, block 3, Stadelmann's addition, was postponed one week.

John Tighe, who is in the grain elevator business at Manley, has begun the erection of an addition to his elevator that is to be some 32x46 feet in dimension and 45 feet high, with all the best improvements for dumping and handling grain. It will give him one of the largest elevators in the state, and enable him to handle grain as rapidly as it may come. Mack Cartwright is on the building force. John means to be ready to handle the new crop when it comes in.

Female Attributes

It is a small wonder that the ship is a she to a sailor and his sweetheart. She has a waist, collar, stays, laces, bonnets, ties, ribbons, watches and chains.

Many a Wink

An English scientist has calculated that a human opens and closes his eyes no fewer than 4,000,000 times per year.

Thomas Rhoads, Centerfield, O., writes: "I suffered from piles seven or eight years. No remedy gave me relief until DeWitt's Witen Hazel Salve, less than a box of which permanently cured me." Soothing, healing, perfectly harmless. Beware of counterfeits. F. G. Fricke & Co.

Three corpses were recently placed in the same baggage car of a train starting east from St. Louis. Failure to provide special means of identification resulted in each corpse being delivered at the wrong place, to the horror of the families and friends of the dead. To guard against such mistakes in the future it was proposed at the last meeting of the Central Passenger association that checks be issued for each corpse carried, the same as is done now for baggage. The plan may be adopted.

HOME CURE FOR BLOOD POISON.

Beware of the Doctors' Patchwork; You Can Cure Yourself at Home.

There is not the slightest doubt that the doctors do more harm than good in treating Contagious Blood Poison; many victims of this loathsome disease would be much better off to-day if they had never allowed themselves to be dosed on mercury and potash, the only remedies which the doctors ever give for blood poison. The doctors are wholly unable to get rid of the disease—the sores and eruptions. This they do by driving the poison into the system, and endeavor to keep it shut in with their constant doses of potash and mercury. The mouth and throat and other delicate parts then break out into sores, and the fight is continued indefinitely, the drugs doing the system more damage than the disease itself. Mr. H. L. Myers, 100 Mulberry St., Newark, N. J., says: "I had spent a hundred dollars with the doctors, when I realized that they could do me no good. I had large spots all over my body, and these soon broke out into running sores, and I endured all the suffering which this vile disease produces. I decided to try S. S. S. as a last resort, and was soon greatly improved. I followed closely your 'Directions for Self-Treatment,' and the large blotches on my chest began to grow paler and smaller, and before long disappeared entirely. I was soon cured perfectly and my skin has been as clear as glass ever since. I cured myself at home, after the doctors had failed completely." It is valuable time thrown away to expect the doctors to cure Contagious Blood Poison, for the disease is beyond their skill. Swifts Specific—

S. S. S. FOR THE BLOOD—acts in an entirely different way from potash and mercury—it forces the poison out of the system and gets rid of it entirely. Hence it cures the disease, while other remedies only shut the poison in where it lurks forever, constantly undermining the constitution. Our system of private home treatment places a cure within the reach of all. We give all necessary medical advice, free of charge, and save the patient the embarrassment of publicity. Write for full information to Swift Specific Co., Atlanta, Ga.
