A THIRTEEN hundred and fifty million dollar corn crop will give the corn hucksters of Nebraska all the work they will want up to Christmas.

It is quite amusing to see how the democratic newspapers are lining up for Holcomb since he received the nomination for supreme judge.

THE Journal editor devotes a large portion of the space in his sheet to playing horse, rather than printing the news.

NEARLY every town in the state of any size is arranging to hold some sort of fall festival either a street or county fair.

COMMENTING upon the evident determination of democratic leaders to keep free silver at the front in the campaigns of this fall and in 1900, the New York World remarks that "in 1896 the democratic party was beaten 603,514 on the popular vote, and ninety-five in the electoral college, and since then has lost four states, with twenty-one electoral votes, and gained only Kentucky, which is likely to be lost again this year."

"WE ARE once more and forever, one people. One in faith, one in purpose, one in willingness to sacrifice for the honor of our country and the glory of our flag."

THE people who are criticizing the fact that the administration has seen fit to make a treaty with the reigning head of the Sulu government by which the details of the government of his people are administered by him, overlook the fact that this system has been, after long experiment, adopted by the most successful colonizing countries of the world.

Governor Poynter was awfully anxious to get the boys of the First Nebraska into a meeting, and tell them how he had been standing up for them, says the Opinion.

great scientific man, having on one occasion an interview with the emperor, left his hat in the adjoining vestibule. There the little brothers discovered it and the crown prince, explaining to the younger ones, explained to the emperor's son, proceeded to give a practical illustration of this statement, to the ruin of the emperor's hat and the professor's appearance.

REPUBLICAN STATE CONVENTION. The republican electors of the state of Nebraska are requested to send delegates from their respective counties to meet in convention in the city of Omaha on Thursday, the 21st day of September, 1899, at 2 o'clock p. m., for the purpose of placing in nomination candidates for the following offices: One judge of the supreme court.

INFORMATION AND OPINION. Two Belgian Roman Catholic priests recently decided to visit some friends in England. But being diligent students of the English press they conceived the idea that to pass through any part of England during these anti-Ritualistic days would be perilous to life and limb.

"Every ship in the North Atlantic squadron," says the Philadelphia Record, "can boast of a ball nine, and these different nines have formed a league known as the North Atlantic league. At every opportunity match games are played, and there is great rivalry shown to gain the championship of the league."

THE sultan of Turkey rises at 6 o'clock every morning, and every day, in the seclusion of the Yild palace and gardens, to personal attention to affairs of state. He is of a light figure. A pale brown overcoat conceals any decorations he might be wearing, so that the attention of those who see him on the one day in seven when he presents himself to the view of the people is not diverted from his pale, wan and care-worn face, half covered by a thin brown beard, tinged with gray, and surmounted by a plain red fez.

"A baggage truck," says the Kansas City Times, "stood on the union depot platform yesterday on which lay, in careless fashion, eleven chunks of what is called like pig lead. They were shaped, for want of a more familiar object, a good deal like sponge cakes, six inches high and perhaps ten inches by seven across the top. The bottom was of slightly less area. Stamped on one end of them was '1,089 oz.' The rest were of about similar weight. All bore the imprint of '999 fine.' The pigs were silver from the Argentine smelter and worth on the market \$750 apiece. The truck's seemingly deserted and carless load was worth \$7,468.60. It is in this shape silver is shipped. There was little danger of any one running off with them, their weight was so great."

The annual meeting of the trustees of Shakespeare's birthplace was held the other day at Stratford-on-Avon. The committee reported that during the year more than 34,000 persons had paid for admission to Shakespeare's house, representing thirty-five different nationalities and more than 10,000 had visited Anne Hathaway's cottage at Shottery.

When the German emperor was at school at Cassel, he and his brother, Prince Henry, lodged in an old castle near, but in the school the two boys were treated exactly like any other youngsters. On one occasion, it is related, a master knowing that prince William was backward in Greek, and wishing to carry favor with him, told him secretly what the subject of the next day's examination would be. Early next morning the prince went into the classroom and wrote the information on the blackboard in huge letters, not wishing to have any unfair advantage over his schoolfellows.

The English walnut is said to be the most profitable of all nut-bearing trees. When in full bearing they will yield about 300 pounds of nuts to the tree. The nut sells on an average at about eight cents per pound. If only twenty-seven trees are planted on an acre the income would be about \$675.

The German emperor likes to study the characters of his group of small sons, and to that end has given them a room next to the one used for business purposes for himself. A certain

TO CONSULT PRESIDENT Philippine Commissioners Denby and Worcester Enroute to Washington. Has Been Ordered to Advise the President Respecting Very Latest Affairs.

WASHINGTON, Sept. 15.—It is said at the war department that the return of the two members of the Philippine commission remaining in Manila, Messrs. Denby and Worcester, has been ordered that they may advise the president respecting the very latest aspect of affairs, so he may use the information in his message to congress.

There is an intimation conveyed that the advice brought by President Schurman and Senator Beveridge and other persons recently returned from Manila are not at all points in strict accord, though the items of divergence are not known beyond the White House. It is said that as Admiral Dewey is nearing the United States the opportunity to have a full meeting of the Philippine commission, of which he is a member, should not be lost, and the report that will be expected to sum up their work will be indispensable to congress in its efforts at legislation for the islands.

Demand Absolute Freedom. NEW YORK, Sept. 15.—A special to the World from Ithaca, N. Y., says: Your correspondent is able to say on authority that the Schurman peace commission offered every possible inducement short of absolute self-government to Aguinaldo and his followers. Aguinaldo was promised, as the price for the restoration of peace to the Tagalo tribe, a bonus of more than \$5,000 a year while the Tagalos remained peaceful. He was told that he could choose men from his tribe for the minor municipal offices.

It is recommended that no proxies be admitted to the convention and that the delegates present be authorized to cast the entire vote of the delegation of the county which it represents.

It is further recommended that wherever two county conventions be held the selection of a county committee should take place at the first convention and then in every case the secretary be required to promptly advise the state committee of the organization of such new committee with the names of officers, members, post-office address and name of precinct represented by each.

View of the heterogeneity and multiplicity of the tribes? he asked. Short of Staff Officers. WASHINGTON, Sept. 15.—General Otis has cabled the war department a request for additional staff officers for service in the Philippines. He asks for one additional judge advocate general, two assistant adjutant generals, two inspector generals, eight quartermasters, nine commissaries of subsistence and two engineer officers.

Supplies Cheap in Manila. WASHINGTON, Sept. 15.—Commissionary General Weston says the soldier of the Colorado regiment who has found so much to criticize at Manila evidently was misinformed about the exorbitant prices being paid for supplies in the Philippines. Sugar is bought about 40 per cent cheaper than in the United States; rice is 50 per cent cheaper and a considerable reduction is found in the prices of beef purchased in Australia and the prevailing prices in Chicago. The government saves transportation on these articles.

As to other articles which are a part of the commissary stores bought by the department and sold to the officers and men at cost price, General Weston says there is no possibility of loss to the government upon them. The commissary department does not buy wine, except for the hospitals. These are purchased upon the recommendation of the surgeons and the money for them comes out of the 40 cents a day allowed to each soldier in the hospital.

Kodol Dyspepsia Cure is a scientific compound having the endorsement of eminent physicians and the medical press. It "digests what you eat" and positively cures dyspepsia. M. A. Keron, Bloomingdale, Tenn., says it cured him of indigestion of ten years' standing. F. G. Fricke & Co.

Discovered by a Woman. Another case of this disease, which has been fastened upon the clutches upon her and for seven years she withstood it, several tests, and her vital organs were in a state of death seemed imminent. For three months she coughed incessantly and would not sleep. She finally discovered a way to recover by purchasing a bottle of Dr. King's New Discovery for Consumption, and she was so completely cured that she has been the silent night with a new lease of life, and has been able to do all the work of a woman.

Doctors Can't Cure It! Contagious blood poison is absolutely beyond the skill of the doctors. They may dress a patient for years on their various ointments and potash remedies, but he will never be rid of the disease; on the other hand, his condition will grow steadily worse. S. S. Dogs Sold in Paris. Chickens are sold in pairs in Paris. They are dressed before being offered for sale, the only feathers left upon them being those of the tail. The same custom prevails in China as to dogs, where a bit of the dog's tail is always left on the end of the tail, even when the animal is cooked. But this is because the Chinese consider the flesh of the black dog the best and most certain to put a brave spirit into the body of the eater.
