

HIGH SCHOOL CROWDED

Must Have More Room or Injure Health of Pupils.

Superintendent McHugh suggests two ways of overcoming the difficulty at a special meeting of the Board of Education.

A special meeting of the board of education was held Friday evening to discuss the best means of overcoming the crowded condition of the high school room.

The board, after discussing the matter, seemed to be of the opinion that it was unquestonably injurious to require the high school girls to climb to the top floor of the central building.

The board desires to secure someone to sweep and clean the central building during the seven months when steam is on, and considered some applications.
